

Deliver training for free with GO1 Platform

We strongly believe that everyone should be able to create and deliver training. The free version of GO1 Platform is aimed towards assisting small teams to get started with e-learning, and then assisting them to upgrade as they grow, and provides access for unlimited users.

Free for unlimited users

Get started with online learning for free for unlimited users using the award winning GO1 learning platform.

Develop learning programs

Use our Awards functionality to group courses together and create learning programs to meet both internal and external compliance requirements.

Testing, tracking & results

Our inbuilt assessment and quiz engine makes it easy to create both simple and sophisticated assessment structures. This helps to ensure the veracity and integrity of your assessments.

Course Creation

Our easy to use course creation tools make compiling your own custom content quick and easy for all users.

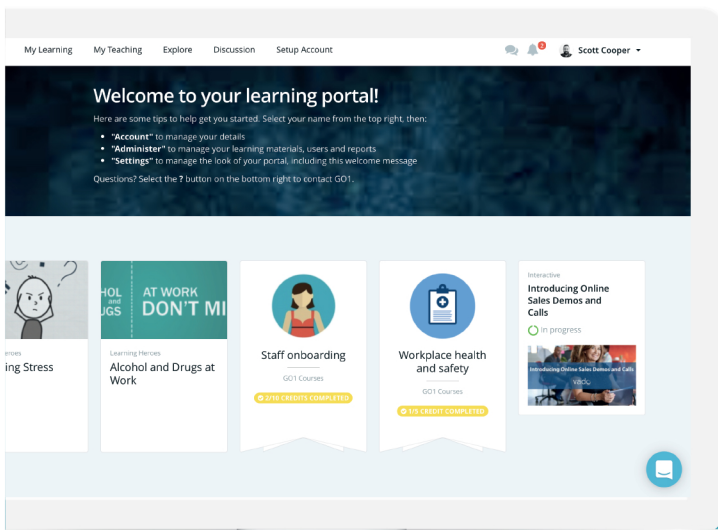

Upload any material

GO1 supports a range of files to make it easy to use your existing content. This covers SCORM, xAPI, PDF, video, Microsoft Office files (including DOCX and PPTX) and much more.

Advanced reporting

GO1 provides a range of reports out of the box and makes it easy to filter, sort and create new default reports.

For users looking to access enterprise features with service level agreements and other features, we have plans for \$2 per user per month. An enterprise plan is needed to access features such as Single Sign On, custom domains, custom account fields, integrations, and access to a dedicated Customer Success Manager alongside our 24/7 support team.
