

CURRY

design **Piero Lissoni**
2018

Adatto ai grandi spazi, il divano Curry di Piero Lissoni è caratterizzato da una struttura in legno massello e proporzioni volutamente esagerate. La sua forma piacevolmente distorta crea una seduta asimmetrica che apre a nuove forme di relax. Curry presenta una preziosa lavorazione sullo schienale e sui braccioli realizzati in massello di frassino tinto nero e paglia intrecciata tesata sulla struttura: un arredo industriale dal sapore artigianale che dà espressione ai diversi linguaggi creativi del nostro tempo. Completano il divano un cuscino di seduta, con impunture cucite; lo schienale è addolcito da due coppie di cuscini in piuma d'oca. Il rivestimento, disponibile in tessuto o pelle, è interamente sfoderabile, e rifinito con cuciture a vista arricchite da profilo nello stesso colore.

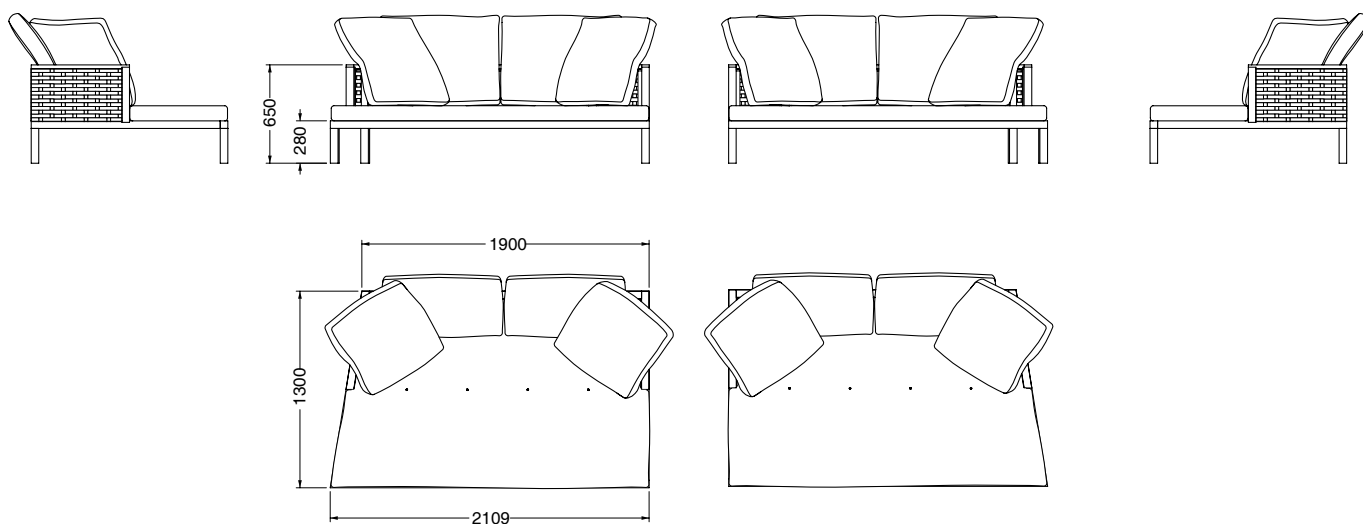

Curry, the sofa by Piero Lissoni, suitable for large spaces, has a solid wood structure and intentionally exaggerated proportions. Its pleasantly distorted shape creates an asymmetrical seat that paves the way to new forms of relaxation. Curry has a sculptural silhouette with a strong graphic impact and features a precious design on the back and on the armrests made of black stained solid ash and woven straw stretched on the structure. It is an industrial piece of furniture with an artisan flavor that gives voice to the various creative languages of our time. The sofa is completed by a seat cushion with sown stitching; the back is softened by two pairs of goose down cushions. The cover, available in fabric or leather, is fully removable, and finished with visible seams embellished by a hem in the same material and color.
