GENERAL INFORMATION

1. Any building of water or sewer infrastructure or construction that requires water or wastewater service from the District, which is located within the District boundaries or is served by the District, must be approved prior to commencement of construction. Plans and drawings of proposed extension must be given to the General Manager for review and approval. Small commercial applications with minimal system impact may be approved by the General Manager on a case by case basis through an expedited process. The District follows the current version of the "Standard Specifications for Public Works Construction by North Central Texas Council of Government (NCTCOG) and all applicable TCEQ and AWWA regulations.
2. Developments must have plans prepared by a Registered Professional Engineer registered in the State of Texas, and construction must be under direct supervision of the Engineer.
3. Approval from the Texas Commission on Environmental Quality is required for all additions to our system. Applicant's Engineer must secure approval from TCEQ and any other applicable regulatory agency prior to construction. Copies of all approvals must be submitted to the District before a Notice to Proceed will be issued. Applicant should consider the additional time delay for these approvals (approx. 6 to 8 weeks).
4. FEES - Inspection fees in the amount of \$2,500 per lot must be submitted with this application.
