LET'S GET TOGETHER

WHETHER INDOORS OR OUT, THE KITCHEN IS THE PLACE TO BE.

For this Austin, Texas, property (opposite and right), Maestri Studio's designers created an elegant outdoor hacienda beside the striking, tile-bordered plunge pool. All the necessities are at hand in the **True Residential** refrigerators and storage drawers. The beverage cooler ensures that a cold draft is a moment away. Furnishings by **Brown Jordan**; Fabric by **Kravet**.
PHOTOGRAPHY BY JENIFER MCNEIL BAKER.

A light-filled kitchen in Chicago, by designer Alexandra Kaehler, used a more subdued color palette to contrast with the rest of the home, which is filled with both bright color and pattern. Reflective finishes and pale creams and blues amplify the abundant light that pours in from oversized windows. Brass fixtures by **Waterworks** complement the vintage brass of the lantern over the massive island. Refrigeration by **Sub-Zero**; range by **Wolf**; roman shade by **The Shade Store**.
PHOTOGRAPHY BY AIMEE.
