This 5,700-square-foot custom home, located in a quiet cul-de-sac in Lakewood, is one project completed by Maestri Studio and Scout Design Studio. For this project, the firm added many windows to take advantage of the stunning views of Lakewood Park and the wooded green belt near White Rock Lake. With its white walls and warm, hardwood flooring, the home's interior completed by Scout Design Studio offers a very classic feel.. The home's three-car garage is big enough to fit a lift system that could hold up to six cars.
