If you still associate wallpaper with the 1980s, it's about time you get caught up to speed. Wallpaper has been having a major resurgence in recent years, and many interior designers are adamant that it's here to stay. If you're looking to kick off the new year by adding a new pattern to your walls, you've come to the right place. Below, designers and DIY pros chime in with the can't-miss wallpaper trends for 2022, and they also share tips for mastering the installation process.

Green wallpaper

This trend will take shape both literally and figuratively, according to designer Beth Diana Smith. “Green is very popular this year, and I foresee quite a few fabulous green-hued wallpaper options in both the color and when it comes to sustainability.”
