IAC Inc. - Climate Change 2023

C0. Introduction

C0.1

(C0.1) Give a general description and introduction to your organization.

IAC Inc. ("IAC") (NASDAQ: IAC) builds companies. We are guided by curiosity, a questioning of the status quo, and a desire to invent or acquire new products and brands. From the single seed that started as IAC over two decades ago have emerged 11 public companies and generations of exceptional leaders. We will always evolve, but our basic principles of financially disciplined opportunism will never change. IAC is today comprised of category leading businesses including Angi Inc. (NASDAQ: ANGI), Dotdash Meredith and Care.com, among many others ranging from early stage to established businesses. IAC is headquartered in New York City with business locations worldwide.

Descriptions of our major businesses are below:
- Angi Inc. (NASDAQ: ANGI) (formerly ANGI Homeservices Inc.) is a publicly traded company that connects quality home service professionals with consumers across more than 500 different categories, from repairing and remodeling homes to cleaning and landscaping.
- Dotdash Meredith is one of the largest digital and print publishers in America, with a portfolio of over 40 publishing brands that collectively provide inspiring, informative, entertaining and empowering content to millions of consumers each month.
- Our Search segment consists of Ask Media Group, a collection of websites providing general search services and information, and our Desktop business, which includes our direct-to-consumer downloadable desktop applications and our business-to-business partnership operations.
- Care.com is a leading online destination for families to connect with caregivers for their children, aging parents, pets and homes, and for caregivers to connect with families seeking care services.
- Mosaic Group is a leading developer and provider of global subscription mobile applications.

The data in this questionnaire reflects IAC Corporate and the above subsidiaries, where IAC has a controlling interest and that have material operations. For purposes of environmental reporting, IAC defines a material operation as generating greater than $100 million of revenue per year.
