INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Trophy Club Municipal Utility District No. 1
Trophy Club, Texas

Opinions

I have audited the accompanying financial statements of the governmental activities, each major fund, and the remaining aggregate fund information of the Trophy Club Municipal Utility District No. 1 (the "District"), as of and for the year ended September 30, 2024, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

In my opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the remaining aggregate fund information of the Trophy Club Municipal Utility District No. 1 as of September 30, 2024, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

I conducted my audit in accordance with auditing standards generally accepted in the United States of America. My responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of my report. I am required to be independent of the District, and to meet my other ethical responsibilities, in accordance with the relevant ethical requirements relating to my audit. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

My objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes my opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards, I:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in my judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the District's ability to continue as a going concern for a reasonable period of time.

I am required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that I identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, General Fund budgetary comparison schedule, pension schedules, and other post-employment benefit schedules be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. I have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to my inquiries, the basic financial statements, and other knowledge I obtained during my audit of the basic financial statements. I do not express an opinion or provide any assurance on the information because the limited procedures do not provide me with sufficient evidence to express an opinion or provide any assurance.

Other Information

My audit was conducted for the purpose of forming an opinion on the basic financial statements of Trophy Club Municipal Utility District No. 1. The Texas TCEQ Supplemental Information on pages 41-54 is required by the Texas Commission on Environmental Quality as published in the *Water District Financial Management Guide*. The Texas TCEQ Supplemental Information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, I do not express an opinion or provide any assurance on it.

Sincerely,

A handwritten signature in black ink, appearing to read "R. Abbott", with a long horizontal flourish extending to the right.

**TROPHY CLUB MUNICIPAL UTILITY DISTRICT NO. 1
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED SEPTEMBER 30, 2024**

Trophy Club Municipal Utility District No. 1, Texas (the "District") Management's Discussion and Analysis (MD&A) is a narrative overview and analysis designed to provide the reader a means to identify and understand the financial activity of the District and changes in the District's financial position during the fiscal year ended September 30, 2024.

The Management's Discussion and Analysis is supplemental to, and should be considered along with, the District's financial statements.

Financial Highlights

- At the close of the fiscal year, the assets and deferred outflows of the District exceeded its liabilities and deferred inflows by \$46,694,490 (net position). Of this amount, \$15,468,690 is unrestricted net position and may be used to meet the District's ongoing commitments.
- The District's net position increased by \$3,375,340 during 2024 on the Statement of Activities. The Statement of Activities is on the full-accrual basis of accounting, which capitalizes the \$4,835,000 of capital outlays that are expensed on the fund financial statements. This capitalization of new long-term assets is the main reason for the healthy 7.8% increase in net position in 2024.
- At the end of the fiscal year, the District's governmental type funds reported a combined fund balance of \$17,102,140. As of September 30, 2024, the unassigned fund balance of the General Fund was \$8,733,510. The unassigned fund balance is equal to 8.3 months of 2024 General Fund expenditures and is considered a very healthy unassigned fund balance.

Overview of the Financial Statements

The MD&A is intended to introduce the reader to the District's basic financial statements, which are comprised of three components: 1. Government-Wide Financial Statements, 2. Fund Financial Statements, and 3. Notes to Basic Financial Statements. The report also contains other required supplementary information in addition to the basic financial statements.

Government-Wide Financial Statements - the government-wide financial statements are designed to provide the reader with a general overview of the District's finances in a way that is comparable with financial statements from the private sector. The government-wide financial statements consist of two statements:

1. The Statement of Net Position - This statement presents information on all of the District's assets, deferred inflows, deferred outflows, liabilities, and net position. The net position is the difference between assets plus deferred outflows less deferred inflows plus liabilities. Over an extended period, the increase or decrease in net position will serve as a good indicator of whether the financial position of the District is improving or deteriorating.
2. The Statement of Activities – This statement gives information showing how the District's net position has changed during the fiscal year. All revenues and expenses are reported on the full accrual basis.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED SEPTEMBER 30, 2024**

Overview of the Financial Statements - Continued

Fund Financial Statements - Fund financial statements provide detailed information about the most important funds and not about the District as a whole as in the government-wide financial statements.

The District uses fund accounting to demonstrate compliance with finance related legal requirements which can be categorized as governmental fund activities.

Governmental Funds - All of the District's activities are reported in governmental funds. They are used to account for those functions known as governmental activities. But unlike government-wide financial statements, governmental fund financial statements focus on how monies flow into and out of those funds and their resulting balances at the end of the fiscal year. Statements of governmental funds provide a detailed short-term view of the District's general government operations and the basic services it provides. Such information can be useful in evaluating a government's short-term financing requirements.

The District maintains three governmental funds. Information is presented separately in the Governmental Funds Balance Sheet and in the Governmental Funds Statement of Revenues, Expenditures, and Changes in Fund Balances for the General Fund, Debt Service Fund and Capital Projects Fund.

The District adopts an annual appropriated budget for the General Fund. A budgetary comparison statement is provided for the General Fund to demonstrate compliance with its budget.

Notes to the Basic Financial Statements - The notes provide additional information that is essential to a full understanding of the data presented in the government-wide and fund financial statements.

Government-wide Financial Analysis

The Management's Discussion and Analysis highlights the information provided in both the Statement of Net Position and Statement of Activities in the government-wide financial statements. It may serve over an extended period of time, as a useful indicator of the District's financial position. At the end of the fiscal year, the District's assets and deferred outflows exceeded liabilities and deferred inflows by \$46,694,490. Of this amount, \$30,127,934 (65%) reflects the District's investment in capital assets (e.g., land, buildings, machinery and equipment, net of accumulated depreciation), less any related outstanding debt used to acquire those assets and unspent bond proceeds, \$1,097,867 (2%) restricted for debt service and capital projects, and the remaining \$15,468,690 (33%) is unrestricted.

Governmental activities have increased the District's net position by \$3,375,340, which amounts to a 7.8% increase in net position for the year ended September 30, 2024.

Financial analysis of the District's funds

Governmental Funds - the main focus of the District's governmental funds is to provide information on the flow of monies to and from the funds, and to note the unassigned fund balance, which is a good indicator of resources available for spending in the near term. The information derived from these funds is highly useful in assessing the District's financial requirements. The unassigned fund balance may serve as a useful measure of the District's net resources available for use at the fiscal year-end.

At the end of the fiscal year, the District's governmental funds reported combined ending fund balances of \$17,102,140, of which 51%, or \$8,733,510, is unassigned and available to the District for future spending.

General Fund budgetary highlights

The District's General Fund budget versus actual schedule is presented on page 36.

Revenue: Revenues were \$707,305 (5.6%) more than budgeted

- Investment earnings totaled \$521,771 and were \$371,771 (248%) more than budgeted.

Expenditures: Expenditures were \$1,094,113 (8.0%) less than budgeted

- Capital Outlay expenditures were \$415,000 (7.9%) less than budgeted.
- Water Operations were \$436,085 (10.8%) less than budgeted.
- Wastewater operations expenditures were \$223,666 (15.3%) less than budgeted.

Capital Assets

The District's investment in capital assets for its governmental activities as of September 30, 2024 amounted to \$48,888,256, net of accumulated depreciation. This represents a broad range of capital assets including, but not limited to land, buildings, improvements, machinery and equipment, vehicles, water, wastewater treatment, and wastewater collection systems.

Net capital assets increased \$2,723,740 or 5.9% during 2024 primarily due to over \$4 million of new improvements to the District's water and wastewater system. Additional information about capital assets may be found in Note 5 in the notes to financial statements.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED SEPTEMBER 30, 2024**

Debt administration

Long-Term Debt - at the end of the current fiscal year, the District had \$19,490,000 of outstanding general obligation bonds and revenue bonds, which is a decrease of 6.1% from the previous fiscal year due to \$1,257,398 of 2024 principal payments. All 2024 debt service requirements were met and the District did not issue any new debt during fiscal year 2024.

Economic factors and next year's budgets and rates:

General Fund 2024 - 2025 budgetary highlights:

Revenue: The 2025 General Fund budgeted revenues for the District reflect a projected decrease of \$1,183,578, or 8.21%, when compared to the adopted 2024 budget.

- Water revenue is budgeted to decrease from \$6,939,998 for fiscal year 2024 to \$6,925,430 for fiscal year 2025 for a total of \$14,568.
- Sewer revenue is budgeted to increase from \$3,679,786 for fiscal year 2024 to \$3,773,500 for fiscal year 2025 for a total of \$93,714.
- The District's M&O tax rate decreased from fiscal year 2024 to fiscal year 2025. The fiscal year 2025 segregated M&O property tax revenue is budgeted to increase by \$73,083 for Fire and decrease by \$114 for the MUD when compared to 2024.

Expenses: The 2025 General Fund budgeted expenses for the District reflect a projected decrease of \$1,199,713, or 8.32%, when compared to the 2024 adopted budget.

- Wholesale water expenses from the City of Fort Worth increased by \$102,063, or 3.85%, due to the consumption demands and the pass thru rate increase.
- The capital outlay collectively decreased by \$1,730,000, or 32.96% due to the proactive asset replacement schedule in the prior years.
- The maintenance and repairs collectively decreased by \$278,129, or 44.05% due to reduction in required repairs with the proactive replacement schedule.
- The electricity collectively increased by \$106,327, or 23.93%.
- The personnel cost collectively decreased by \$52,554, or 2.5% due to the salary savings from vacant positions.

Overall: The 2025 General Fund budget for the District is anticipated to have revenues of \$13,240,355 and expenses of \$13,224,220 for a total projected net surplus of \$16,135.

Debt Service Fund 2024 - 2025 budgetary highlights:

- The Debt Service expenses are budgeted to increase from \$1,800,479 in fiscal year 2024 to \$1,805,645 in fiscal year 2025 for a total of \$5,166.
- Property tax revenues collected for Debt Service are budgeted to decrease from \$219,481 in fiscal year 2024 to \$217,408 in fiscal year 2025 for a total of \$2,073.

Rates highlights:

Effective October 1st, 2024, the Board of Directors for the District adopted an increase in effluent and volumetric water rates. Base water rates and sewer rates remained the same.

TROPHY CLUB MUNICIPAL UTILITY DISTRICT NO. 1
Reconciliation of the Statement of Revenues,
Expenditures, and Changes in Fund Balances of Governmental Funds
To the Statement of Activities
For the Year Ended September 30, 2024

Amounts reported for governmental activities in the statement of activities are different because:

Net change in fund balances - total governmental funds	\$ (702,353)
--	--------------

Governmental funds report capital outlays as expenditures. However, in the statement of activities, the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense. This is the amount by which capital outlay expense exceeded depreciation expense in the fiscal year.	2,723,740
--	-----------

Accrued interest does not require the use of current financial resources and, therefore, is not reported as an expenditure in the governmental funds. This is the (increase) decrease in accrued interest.	2,220
--	-------

Principal payments on long-term debt are an expenditure for the governmental funds, but this expenditure is a reduction of long-term debt for the government-wide financial statements.	1,257,132
---	-----------

Various other reclassifications and eliminations are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting. These include recognizing a \$2,755 decrease in deferred revenue, an \$11,289 increase in accrued compensated absences, and various other smaller items. The net effect of these reclassifications is to decrease net position.	14,310
---	--------

Modifications are necessary to convert from the modified accrual basis of accounting to accrual basis of accounting for OPEB and pension expense. The net effect of these adjustments is to increase net position.	80,291

TROPHY CLUB MUNICIPAL UTILITY DISTRICT NO. 1
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2024

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. General Statement

Denton County Municipal Utility District No. I (the District) was created by the Texas Water Rights Commission (later known as Texas Commission on Environmental Quality (TCEQ)) on March 4, 1975 and confirmed by the electorate of the District at a confirmation election on October 7, 1975. The Board of Director's held its first meeting on April 24, 1975. The Bonds were first sold on June 8, 1976. The District operates pursuant to Article XVI, Chapter 59 of the Texas Constitution and Chapter 54 of the Texas Water Code, as amended. Effective April 1, 1983, the District's name was officially changed by order from Denton County Municipal Utility District No. I to Trophy Club Municipal Utility District No. 1.

On May 9, 2009, citizens voted to consolidate the District and Trophy Club Municipal Utility District No. 2 (MUD 2). As a result, the District reports consolidated activity and balances for the District and the entities formerly known as MUD 2 and the Trophy Club Master District Joint Venture (a joint venture of MUD 1 and MUD 2).

The Governmental Accounting Standards Board (GASB) is the accepted standard setting body for the District. The financial statements of the District have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units.

B. Financial Reporting Entity

As required by accounting principles generally accepted in the United States of America, these financial statements include the activities of the District and any organizations for which the District is financially accountable or for which the nature and significance of their relationship with the District are such that exclusion would cause the reporting entity's financial statements to be misleading or incomplete.

The definition of the reporting entity is based primarily on the notion of financial accountability. A primary government is financially accountable for the organizations that make up its legal entity. It is also financially accountable for legally separate organizations if its officials appoint a voting majority of an organization's governing body and either it is able to impose its will on that organization or there is a potential for the organization to provide specific financial benefits to, or to impose specific financial burdens on, the primary government. A primary government may also be financially accountable for governmental organizations that are fiscally dependent on it.

A primary government has the ability to impose its will on an organization if it can significantly influence the programs, projects, or activities of, or the level of services performed or provided by, the organization. A financial benefit or burden relationship exists if the primary government (a) is entitled to the organization's resources; (b) is legally obligated or has otherwise assumed the obligation to finance the deficits of, or provide financial support to, the organization; or (c) is obligated in some manner for the debt of the organization. Some organizations are included as component units because of their fiscal dependency on the primary government.

TROPHY CLUB MUNICIPAL UTILITY DISTRICT NO. 1
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2024

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

An organization is fiscally dependent on the primary government if it is unable to adopt its budget, levy taxes, set rates or charges, or issue bonded debt without approval by the primary government. The District has determined it has no component units.

C. Government-Wide and Fund Financial Statements

The government-wide financial statements (the Statement of Net Position and the Statement of Activities) report information on all of the activities of the District, except for fiduciary funds. The effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. The activities of the District are comprised only of governmental activities.

The Statement of Activities demonstrates the degree to which the direct expenses of a given program are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific program. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given program and 2) operating or capital grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Fund Financial Statements

The District segregates transactions related to certain functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. These statements are required to present each major fund in a separate column on the fund financial statements. For fiscal year 2024, the major funds are the General Fund, Debt Service Fund, and the Capital Projects Fund.

Governmental funds are those funds through which most governmental functions typically are financed. The measurement focus of governmental funds is on the sources, uses and balance of current financial resources. The District has presented the following governmental funds:

General Fund

The General Fund is the main operating fund of the District. This fund is used to account for all financial resources not accounted for in other funds. All general tax revenues and other receipts that are not restricted by law or contractual agreement to some other fund are accounted for in this fund. General operating expenditures, fixed charges and capital improvement costs that are not paid through other funds are paid from the General Fund.

Debt Service Fund

The Debt Service Fund is used to account for resources accumulated and payments made for principal and interest on the long-term debt of the District.

TROPHY CLUB MUNICIPAL UTILITY DISTRICT NO. 1
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2024

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

Capital Projects Fund

The Capital Projects Fund is used to account for funds received and expended for the acquisition and construction of infrastructure and other capital assets.

D. Measurement Focus and Basis of Accounting

Measurement focus refers to what is being measured; basis of accounting refers to when revenues and expenditures are recognized in the accounts and reported in the financial statements. Basis of accounting relates to the timing of the measurement made, regardless of the measurement focus applied.

The government-wide statements are reported using the economic resources measurement focus and the accrual basis of accounting.

The economic resources measurement focus means all assets and liabilities (whether current or non-current) are included on the Statement of Net Position and the operating statements present increases (revenues) and decreases (expenses) in net total position. Under the accrual basis of accounting, revenues are recognized when earned. Expenses are recognized at the time the liability is incurred.

Governmental fund financial statements are reported using the current financial resources measurement focus and are accounted for using the modified accrual basis of accounting. Under the modified accrual basis of accounting, revenues are recognized when susceptible to accrual; i.e., when they become both measurable and available.

"Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. The District considers receivables collected within sixty days after year-end to be available and recognizes them as revenues of the current year. Expenditures are recorded when the related fund liability is incurred. However, debt service expenditures are recorded only when payment is due.

E. Cash and Investments

The District's cash and cash equivalents are considered to be cash on hand, demand deposits, and short-term investments of three months or less from the date of acquisition.

TROPHY CLUB MUNICIPAL UTILITY DISTRICT NO. 1
NOTES TO BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED SEPTEMBER 30, 2024

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES – CONTINUED

The District's investment policy requires that all monies be deposited with the authorized District depository or in (1) obligations of the United States or its agencies and instrumentalities; (2) direct obligations of the State of Texas or its agencies; (3) other obligations, the principal of and interest on which are unconditionally guaranteed or insured by the State of Texas or the United States; (4) obligations of states, agencies, counties, cities, and other political subdivisions of any state having been rated as to investment quality by a nationally recognized investment rating firm and having received a rating of not less than A or its equivalent; (5) certificates of deposit by state and national banks domiciled in this state that are (A) guaranteed or insured by the Federal Deposit Insurance Corporation, or its successor; or, (B) secured by obligations that are fully collateralized.

All investments are recorded at fair value based on quoted market prices. Fair value is the amount at which a financial instrument could be exchanged in a current transaction between willing parties.

F. Capital Assets

Capital assets, which include property, plant, and equipment, are reported in the government-wide financial statements. All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated assets are valued at their fair value on the date donated. Repairs and maintenance are recorded as expenses. Renewals and betterments are capitalized.

Assets capitalized have an original cost of \$5,000 or more and over one year of useful life. Depreciation has been calculated on each class of depreciable property using the straight-line method. Estimated useful lives are as follows:

Asset Category	Depreciable Life in Years
Buildings	50
Improvements other than Buildings	15-30
Machinery and Equipment	5-15
Vehicles	6-12
Water & Wastewater Infrastructure	30-65

G. Compensated Absences

Employees earn vacation pay based upon seniority that accrues at various rates up to a maximum four weeks per year. Upon termination, employees will be paid for their unused earned vacation. The District accrues a liability for the value of these compensated absences on the full-accrual basis statement of net position.

FOR THE YEAR ENDED SEPTEMBER 30, 2024

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

H. Net Position

Net position represents the difference between assets and deferred outflows of resources, less deferred inflows of resources and liabilities. Net position invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balances of any borrowing used for the acquisition, construction or improvements of those assets, and adding back unspent proceeds. Net position is reported as restricted when there are limitations imposed on their use either through the enabling legislations adopted by the District or through external restrictions imposed by creditors, grantors or laws or regulations of other governments.

I. Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosures of contingent assets and liabilities, and the reported amounts of revenue and expenses/expenditures. Actual results could differ from those estimates.

J. Fund Balances

Governmental Accounting Standards Board (GASB) *Statement No. 54, Fund Balance Reporting and Governmental Fund Type Definitions* (GASB 54) defines the different types of fund balances that a governmental entity must use for financial reporting purposes in the fund financial statements for governmental type funds. It does not apply for the government-wide financial statements.

GASB 54 requires the fund balance amounts to be properly reported within one of the following fund balance categories:

Nonspendable - such as fund balance associated with inventories, prepaids, long-term loans and notes receivable, and property held for resale (unless the proceeds are restricted, committed, or assigned),

Restricted - fund balance category includes amounts that can be spent only for the specific purposes stipulated by constitution, external resource providers, or through enabling legislation,

Committed - fund balance classification includes amounts that can be used only for the specific purposes determined by a formal action of the Board of Directors (the District's highest level of decision-making authority),

Assigned - fund balance classifications are assigned by the District Manager with the intentions to be used by the government for specific purposes but do not meet the criteria to be classified as restricted or committed, and

Unassigned - fund balance is the residual classification for the District's General Fund and includes all spendable amounts not contained in the other classifications, and other funds that have total negative fund balances.

FOR THE YEAR ENDED SEPTEMBER 30, 2024

NOTE 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - CONTINUED

K. Accounts Receivable and Allowances for Bad Debt

Accounts receivable consists primarily of receivables related to water and sewer services. Accounts receivable includes an accrual for unbilled revenue earned during the month of September 2024. Trade accounts receivable are evaluated periodically for collectability based on customer history and current economic conditions. When considered necessary, an allowance is made for doubtful accounts.

NOTE 2. CASH AND INVESTMENTS

The funds of the District must be deposited and invested under the terms of a contract, contents of which are set out in the Depository Contract Law. The depository bank places approved pledged securities for safekeeping and trust with the District's agent bank in an amount sufficient to protect District funds on a day-to-day basis during the period of the contract. The pledge of approved securities is waived only to the extent of the depository bank's dollar amount of Federal Deposit Insurance Corporation (FDIC) insurance.

At September 30, 2024, the carrying amount of the District's cash deposits was \$7,668,886 and the bank balance was \$7,692,489. Of the District's cash deposits at September 30, 2024, \$250,000 was insured by FDIC and \$7,442,489 was covered by pledged securities,

The Public Funds Investment Act (Government Code Chapter 2256) contains specific provisions in the areas of investment practices, management reports and establishment of appropriate policies. Among other things, it requires the District to adopt, implement, and publicize an investment policy. That policy must address the following areas; (1) safety of principal and liquidity, (2) portfolio diversification, (3) allowable investments, (4) acceptable risk levels, (5) expected rates of return, (6) maximum allowable stated maturity of portfolio investments, (7) maximum average dollar-weighted maturity, allowed based on the stated maturity date for the portfolio, (8) investment staff quality and capabilities, and (9) bid solicitation preferences for certificates of deposit.

Cash and investments as of September 30, 2024 consist of the following:

Deposits with financial institutions	\$ 7,668,886
Unrestricted TexPool investments	7,905,851
Restricted TexPool investments	1,179,556
Restricted escrow investments	854,731
Petty cash	600
Total Cash and Investments	<u>\$ 17,609,624</u>

NOTE 2. CASH AND INVESTMENTS – CONTINUED

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by investing mainly in investment pools which purchase a combination of shorter-term investments with an average maturity of less than 60 days thus reducing the interest rate risk. The District monitors the interest rate risk inherent in its portfolio by measuring the weighted average maturity of its portfolio. The District monitors its interest rate risk, which is governed by adopted Investment Policies.

As of September 30, 2024, the District had the following investments:

<u>Investment Type</u>	<u>Carrying Amount</u>	<u>Weighted Avg. Maturity</u>
TexPool Pooled Investments	\$ 9,085,407	31 days
BOK Financial - U.S. Securities	\$ 854,731	53 days

As of September 30, 2024, the District did not invest in any securities which are highly sensitive to interest rate fluctuations.

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. Presented below is the minimum rating required by (where applicable) the Public Funds Investment Act, the District's investment policy, or debt agreements, and the actual rating as of year-end for each investment type.

<u>Investment Type</u>	<u>Carrying Amount</u>	<u>Minimum Legal Rating</u>	<u>Rating at Year-End</u>
TexPool Pooled Investments	\$ 9,085,407	AAAm	AAAm
BOK Financial - U.S. Securities	\$ 854,731	AAAm	AAAm

NOTE 2. CASH AND INVESTMENTS – CONTINUED

Custodial Credit Risk

Custodial credit risk for deposits is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The Public Funds Investment Act and the District's investment policy have the following provision for deposits: They require that a financial institution secure deposits made by state or local governmental units by either 1) pledging securities in an undivided collateral pool held by a depository regulated under state law (unless so waived by the governmental unit), or 2) an irrevocable standby letter of credit with the District named as the beneficiary. The market value of pledged securities in the collateral pool or the value of the letter of credit must equal at least the bank balance less FDIC insurance at all times.

Investment in State Investment Pools

The District is a voluntary participant in TexPool. The State Comptroller of Public Accounts exercises responsibility over TexPool. This oversight includes the ability to significantly influence operations, designation of management, and accountability for fiscal matters. Additionally, the State Comptroller has established an advisory board composed of both participants in TexPool and other persons who do not have a business relationship with TexPool. TexPool operates in a manner consistent with the SEC's Rule 2a7 of the Investment Company Act of 1940. TexPool uses amortized costs rather than market value to report net assets to compute share prices. Accordingly, the fair value of the position in TexPool is the same as the value of TexPool shares. The TexPool and the mutual fund investments are measured at amortized cost and are exempt for fair value reporting under GASB Statement No. 72, *Fair Value Measurement and Application*.

NOTE 7. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; business interruption; errors and omissions; injuries to employees; employee health benefits; and other claims of various nature. Commercial insurance is purchased for the risks of loss to which the District is exposed. Any losses reported but unsettled or incurred and not reported, are believed to be insignificant to the District's basic financial statements.

Additionally, the District must operate in compliance with rules and regulations mandated for public water supply systems by federal and state governments. The District is subject to compliance oversight by the Texas Commission on Environmental Quality (TCEQ).

NOTE 8. RETIREMENT PLAN

The District provides retirement, disability, and death benefits for all of its full-time employees through a nontraditional defined benefit pension plan in the statewide Texas County and District Retirement System (TCDRS). The Board of Trustees of TCDRS is responsible for the administration of the statewide agent multiple-employer public employee retirement system consisting of nontraditional defined benefit pension plans. TCDRS in the aggregate issues a comprehensive annual financial report (CAFR) on a calendar-year basis. The CAFR is available at www.tcdrs.org.

The plan provisions are adopted by the governing body of the employer, within the options available in the Texas state statutes governing TCDRS (TCDRS Act). Members can retire at ages 60 and above with 10 or more years of service, with 30 years of service regardless of age, or when the sum of their age and years of service equals 80 or more. Members are vested after 10 years of service but must leave their accumulated contributions in the plan to receive any employer-financed benefit. Members who withdraw their personal contributions in a lump sum are not entitled to any amounts contributed by their employer.

Benefit amounts are determined by the sum of the employee's contributions to the plan, with interest, and employer-financed monetary credits. The level of these monetary credits is adopted by the governing body of the employer within the actuarial constraints imposed by the TCDRS Act so that the resulting benefits can be expected to be adequately financed by the employer's commitment to contribute. At retirement, death, or disability, the benefit is calculated by converting the sum of the employee's accumulated contributions and the employer-financed monetary credits to a monthly annuity using annuity purchase rates prescribed by the TCDRS Act.

Membership information is shown in the chart below:

NOTE 8. RETIREMENT PLAN - CONTINUED

Contributions

The employer has elected the annually determined contribution rate (ADCR) plan provision of the TCDRS Act. The plan is funded by monthly contributions from both employee members and the employer based on the covered payroll of employee members. Under the TCDRS Act, the contribution rate of the employer is actuarially determined annually. The employer contributed using the actuarially determined rates of 11.8% and 11.82% for calendar years 2023 and 2024, respectively. Total employer contributions for the year ended September 30, 2024 was \$159,654.

The contribution rate payable by the employee members for calendar years 2023 and 2024 is the rate of 7.00% as adopted by the governing body of the employer. The employee contribution rate and the employer contribution rate may be changed by the governing body of the employer within the options available in the TCDRS Act.

Actuarial Assumptions

The total pension liability in the December 31, 2023 actuarial valuation was determined using the following actuarial assumptions:

Valuation Date:	December 31, 2023
Actuarial Cost Method:	Entry Age (level percentage of pay)
Asset Valuation Method:	
Smoothing Period	5 Years
Recognition Method	Level percentage of payroll, closed
Corridor	None
Inflation:	2.50%
Salary Increase:	4.70%
Investment Rate of Return:	7.50% (net)

Discount Rate

The discount rate used to measure the total pension liability was 7.60%. There was no change in the discount rate since the previous year. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and those of the contributing employers and the non-employer contributing entity are made at the statutorily required rates. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability. The long-term rate of return on pension plan investments is 7.60%. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimates ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

Plan Description

The District participates in the retiree Group Term Life program for the Texas County & District Retirement System (TCDRS), which is a statewide, multiple-employer, public employee retirement system.

All full and part-time non-temporary employees participate in the plan, regardless of the number of hours they work in a year and are eligible for the TCDRS pension plan. Only employers that have elected participation in the retiree Group Term Life program are included in the OPEB plan.

The plan provides a \$5,000 post-retirement death benefit to beneficiaries of service retirees and disability retirees of employers that have elected participation in the retiree GTL program. The OPEB benefit is a fixed \$5,000 lump-sum benefit. No future increases are assumed in the \$5,000 benefit amount.

Benefit terms are established under the TCDRS Act. Participation in the retiree GTL program is optional and the employer may elect to opt out of (or opt into) coverage as of January 1 each year. The District's contribution rate for the retiree GTL program is calculated annually on an actuarial basis, and is equal to the cost of providing a one-year death benefit equal to \$5,000.

Membership information is shown in the chart below:

Inactive employees or beneficiaries currently receiving benefits:	7
Inactive employees entitled, but not yet receiving benefits:	3
Active employees:	<u>14</u>

Total OPEB Liability

The District's total OPEB liability was determined by an actuarial valuation dated December 31, 2023. Estimates include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contributions (ARC) of the employer are subject to continual revisions as actual results are compared with past expectations and new estimates are made about the future.

Discount Rate

The discount rate is based on a yield or index for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or better for benefits not covered by plan assets. The 20 Year Bond GO Index published by bondbuyer.com was used in determining the discount rate used to measure the Total OPEB Liability as of December 31, 2023 (measurement date under GASB 75). At this date, the discount rate was 3.26%.

Sensitivity of the Total OPEB Liability to Changes in the Discount Rate

The following presents the District's Total OPEB Liability if it were calculated using a discount rate that is 1% point lower (2.26%) or 1% point higher (4.26%) than the current rate, for measurement period ended December 31, 2023:

	1% Decrease 2.26%	Current Discount Rate 3.26%	1% Increase 4.26%
Total OPEB liability \$	38,792	\$ 31,979	\$ 26,632

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the fiscal year ended September 30, 2024, the District recognized expense related to OPEB of \$1,692.

As of September 30, 2024, the District reported deferred inflows of resources related to OPEB from the following sources:

Deferred Inflows / Outflows of Resources	Deferred Inflows of Resources	Deferred Outflows of Resources
Difference between expected and actual experience	\$ 5,446	\$ 1,567
Changes of assumptions	6,885	5,966
Net difference between projected and actual earnings	-	-
Contributions subsequent to the measurement date	N/A	1,863
Totals:	\$ 12,331	\$ 9,396

The \$1,863 of contributions made after the measurement date of the total OPEB liability but before the end of the District's reporting period will be recognized as a reduction of the total OPEB liability in the next measurement year.
