

- 1. Cut out all rulers
- 2. Join rulers by sticking on the blue dotted square
- 3. Rulers will overlap in alignment with the numbers

Use this as a measurement tool for your head circumference. A good fit should be one that includes hair or pony-tails in the measurement and have it sit nicely a few centimetres above your eyebrows. If your measurement shows that you are on the borderline between two sizes, it is best to pick the larger of the two.
