

# EV WALLBOX Smart Mini

## Features

- Highly integrated**  
 Industry leading inner design for top efficiency
- Real smart**  
 Smartphone control and AI Identity recognition
- Top Safety**  
 IP65 design with AC + DC combined protection

## Advantages

- Fast Charging Speed**  
 Max charging power up to 22kw
- Eco Mode**  
 Flexible charging current and time
- Everything on Cloud**  
 Easy control your wallbox anywhere
- OTA for new features**  
 Your wallbox is always new and the best

## Parameter

Specification	Model	TS-EVC07-003	TS-EVC11-003	
Electrical Properties	Voltage	230V AC ±10%	380V AC ±10%	
	Output Current	32A	16A	
	Frequency	50/60Hz	50/60Hz	
	Output Power	7kw	11kw	
	Residual current protection	TYPE A (AC 30MA)		
Structure Design	Charging Outlet	4M charging cable with type1/2 plug		
	Housing Material	PCV0 for outdoor		
	Installation Method	Wall-mount		
Security Protection	Safety Standard	EN 61851-1		
	Warranty	2 years		
	Protection Level	IP65		
	Temperature/Humidity	-30~50°C/5%~95% without condensation		
	Working Altitude	<2000M		
	Application Site	Indoor/Outdoor		
Environmental Performance	Working temperature	-30°C~60°C		
	Storage temperature	-40°C~70°C		
	Working humidity	5%~95%, No condensation		
	Altitude	≤2000m		
	Salt spray test	Meet IEC 61851-1: 2017		
	Atmospheric pressure	80kPa-101kPa		
	Temperature and humidity cycle	Meet IEC 61851-1: 2017		
Communication	Network Gateway	Bluetooth as default		
	Mobile APP (ios and Android supported) functions under Bluetooth	Scheduled charging、Start charging、Stop charging、Current adjustment (memorable)、plug and play charging switch on APP、Charging status shown on APP		
Packing Details	Product Size	228.5*228.5*100mm	228.5*228.5*100mm	
	Product Weight	4.4KG	5.2KG	
Optional	Residual current protection	TYPE A (AC 30MA + DC 6 MA)		
	Network Gateway	WIFI		
	Added APP functions under WIFI / 4G	Charging records on APP、view & update PIN code、firmware updating function、multiple wallbox control
