DREAMS COME TRUE!

"My sports dream is to go to a Phillies game and watch Bryce Harper & Trea Turner!!"

Meet James! This 12-year-old is an energetic young boy with a kind heart and passion for helping others. James lives with Down Syndrome but doesn't let his condition hold him back from sharing his love of life and love of others!

James plays baseball with his peers and has truly developed a deep love for the game. He watches baseball games on tv, plays baseball video games, and loves collecting baseball cards! James is a loyal fan of his heroes Bryce Harper and Trea Turner since their debuts with the Washington Nationals, and is so excited to cheer them on with the Philadelphia Phillies!

When James isn't watching, playing, or reading about baseball, you can find him spending time with his dog Sammie, going bowling, and eating tacos!

James has been chosen as a Dream Recipient by the George Washington University Collegiate Dream Team. These students are excited to help him achieve his sports dream and show James that if you can Dream It, you can Do It!
