NLG Ascent Bucket[™]

NLG

NLG Ascent Bucket Product code: 101360

The NLG Ascent Bucket is the world's most advanced lifting and storage bucket for working at height.

The NLG Ascent Bucket[™] is the market leader in drop prevention buckets. Constructed from reinforced PVC, the lifting bucket has a safe working load of 125kg. The base is covered in a coated leather for wear and abrasion resistance and the base reinforced with a pierce and puncture resistant composite insert.

NLG Ascent Bucket[™] is an ideal lifting or hoist bucket for transferring tools and materials on site and can be transformed into a tool storage system by adding the Ascent Bucket[™] Liner. The 6 internal D rings are load rated anchor points for tethering tools to and remain usable after the Bucket Liner has been added.

The unique Mega Mesh[™] Lock Closure on the Ascent Bucket[™] allows the user to see the contents of the bucket without compromising safety as it prevents items falling out of the bucket even if inverted accidentally.

INSPECTION

In addition to routine checks prior to each use, all equipment should undergo regular detailed inspection, conducted and recorded by a competent person using the NLG Inspection Checklist. If any part is worn or shows signs of degradation, immediately retire from service. In the event of a drop, quarantine the equipment for thorough inspection.

Specification

- Heavy duty Mega Mesh™ closure system developed for easy viewing of contents even when closed
- Drop prevention closure system folds neatly out of the way when not required
- Super strong structural webbing sewn through walls and base for ultimate peace of mind
- Toughened composite base plate protects against piercing from sharp tools
- Coated leather base sleeve delivers extra wear and abrasion resistance
- Hoisting strap with burly twistlock carabiner allows secure load control when lifting with a crane or winch, as well as anchoring when stationary
- 6 integrated anchor points (5kg each) for multiple tool lanyard attachment
- External daisy chain anchor loops for PPE and staging use
- Constructed from heavy duty PVC which is both UV stabilised and mildew resistant
- Structurally engineered to withstand dynamic impact forces
- Easy wipe clean coating makes light work of maintenance
- Outer ID pocket for efficient identification
- Unique serial number for easy identification and tracking
- CE marked
- Load tested and third party certified [4:1 safety factor]
- Dimensions: 40cm (H) x 32cm (D)
- Capacity: 32 Litre
- Internal Anchor Max Load: 5KG (11lbs) Each
- Max Load: 125KG (275lbs)

EU Declaration of Conformity

REFERENCE NUMBER: 364101360156

01 / Manufacturer

NAME:	NLG	CODE:	101360	
ADDRESS:	6 Mannings Heath Road	DESCRIPTION:	Ascent Bucket	
	Poole, Dorset, BH12 4NQ	LOAD RATING:	125 KG / 275 LBS	
	United Kingdom			

02 / Product

03 / Conformity

The undersigned acting on behalf of [01] above hereby declares that:

The PPE described in [02] is in conformity with the provision and scope of our quality control and testing protocols set out in the PPE Regulation (EU) 2016/425 covering all PPE manufacturing, where such is the case, with the standard of fit for purpose design parameters. The above referred to Personal Protective Equipment [02] is identical to the equipment independently tested and certified by BSTL in accordance with EN 364:1992 test methods.

Dynamic drop perfomance testing conducted at 2:1 weight safety factor for tool lanyards and tether points. Static strength testing conducted at 5:1 weight safety factor for containers and storage equipment.

CERTIFICATE NUMBER: 42817DT-NLG-156360

ISSUED BY:	BSTL, Whittle Road			
	Ferndown Ind. Estate, BH217RL, UK			

04 / Authorised Person

I herewith certify that the equipment identified above in (02) conforms to the requirements as detailed above:
