

Advanced Electronic Deodorizing Technology

Plug-In Series I

Negative Ion + Ozone Technology

Managing indoor air quality and ongoing odors can be a challenge. The **Newaire Plug-In** brings the freshness of nature indoors, emulating the crisp, invigorating air you find near waterfalls or in forests - where negative ions are abundant and the subtle freshness of ozone is naturally present. This simple, low-maintenance technology eliminates odors naturally, without relying on harsh chemicals, creating a cleaner, healthier environment throughout your facility.

- ✓ **100% Natural Ion Wind Technology - No Moving Parts**
- ✓ **Destroys Odors 24/7**
- ✓ **Silent Operation**
- ✓ **10+ Year Life Expectancy with Minimal Maintenance**
- ✓ **No Chemicals or Refills to Replace**

Traditional Air Fresheners	Newaire Plug-In
Mask odors with fragrances or chemicals	Destroys odors at the source
Provide only temporary relief	Lasting freshness through natural purification
Add artificial scents to the air	Leaves air cleaner, fresher, and more comfortable
Rely on consumables (sprays, cartridges)	Continuous purification with no refills needed
Not always eco-friendly	Uses natural processes found outdoors

MODEL: NAPLUGIN

Coverage Area	500 sq. ft.
Ozone Output	3 mg/hr
Negative Ion Output	750 cc/sec
Size	2.1"L x 3.5"W x 5.5"H
Weight	8.9 oz.
Volts / Hertz	120 / 60
Watts	3
Warranty	2 Years
ETL Listed	UL 867

BRING THE FRESHNESS OF NATURE INDOORS WITHOUT CHEMICALS, REFILLS, OR MASKING SCENTS.

QUEENAIRE™
TECHNOLOGIES

Benefits of Using Ozone

- ✓ **Destroys Odors at the Source:**
Eliminates tough smells from tobacco, pets, food, mold, mildew, garbage, and renovations without masking them.
- ✓ **Cleans Air & Surfaces:**
Actively neutralizes contaminants, not only in the air, but also in water, fabrics, walls, and ceilings.
- ✓ **Works Beyond the Machine:**
Unlike filters or air purifiers, ozone spreads to where the problem is, seeking out and breaking down odor-causing gases.
- ✓ **Reduces Dust & Particles:**
Ozone generators also produce ions that cause particulates to clump together and fall from the air, improving overall air quality.
- ✓ **Creates a Fresher Environment:**
Leaves spaces cleaner, healthier, and more pleasant without the use of chemicals.

Benefits of Negative Ions

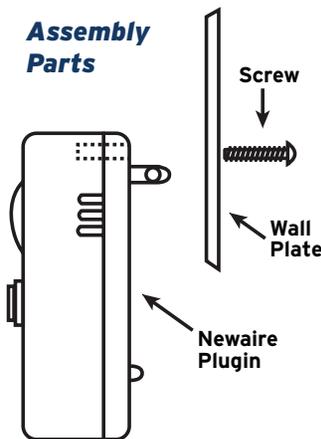

- ✓ **Fresher, Cleaner Air:**
Negative ions bind to dust, pollen, smoke, and other airborne particles, making them too heavy to float, so the air feels lighter and cleaner.
- ✓ **Supports Allergy & Dust Reduction:**
By helping particles settle out of the air, negative ions reduce common triggers like pollen, pet dander, and dust.
- ✓ **Naturally Refreshing:**
Negative ions are abundant in nature, near waterfalls, forests, and after a storm, where the air feels crisp and rejuvenating. Ionizers bring a touch of that freshness indoors.
- ✓ **Boosts Filtration Efficiency:**
When paired with air filters, negative ions can enhance particle capture, helping improve overall air quality.
- ✓ **Promotes a Sense of Well-Being:**
Many people report feeling more alert, energized, and uplifted in ion-rich environments.

Optional Security Kit

Security Kit SEC-KIT

The Newaire Plugin Security Kit is designed to secure the unit directly to the electrical box, helping to prevent removal or theft in public or semi-public places. This straightforward kit provides peace of mind for property managers and facility operators by keeping the unit safely and permanently in place.

Assembly Parts

To Install Security Kit:

1. Remove 2 (upper) screws from back on Newaire plugin.
2. Attach outlet cover to Newaire plugin with screws included.
3. Remove existing outlet cover.
4. Replace with Newaire plugin and security outlet cover.
5. Fasten to electrical outlet with tamper proof screw.
