

It's modern. It's modular.

Introducing the **mod*** Dispensing System

The promise of the new MOD* Dispensing System is simple: deliver a customized washroom experience to everyone, everywhere. Nurses caring for patients, employees in office buildings, factory workers on break and fans cheering for their team – all have exactly what they need, when they need it.

You design the system you need.

Innovative internal dispensing modules plug and play to give you the flexibility to build a dispenser customized to meet your requirements. So as your needs change, your dispensers can change with them. Available in three stylish color choices, the MOD* System offers a modern design matched with modular flexibility.

NG-Series: Great for office buildings and high traffic facilities. Features patent-pending SMART CONTROL* dispensing technology with two delivery options: pre-cut and power-assist.

E-Series: Electronic motion-activated dispensing with an unexposed sheet option that's ideal for healthcare facilities.

M-Series: Controlled manual delivery offers the hygiene of touchless dispensing without the batteries.

THE Healthy WORKPLACE PROJECT*

The MOD* System combines touchless technology with the bacteria-reducing benefits of drying with paper towels. This supports and promotes better hand and surface hygiene through an innovative program called **The Healthy Workplace Project***, designed to help reduce the spread of cold and flu germs in the workplace.

Loaded with Innovation. And Towels.

MOD* Systems deliver the highest capacity around and include a stub roll feature that reduces waste and cost. So whether it's 1,150 feet of SCOTT® Hard Roll Towels or 700 feet of KLEENEX® Hard Roll Towels, that means fewer change outs and more satisfied users.

Dispenser System
Designed for everyone. Built for you.

New KLEENEX® Towels Sustainability and Reduced Waste.

We are the first major towel and tissue company in North America to include non-tree alternative fiber in our products. Premium quality KLEENEX® Brand towels used in the MOD* System are now made with 20% bamboo fiber, an innovative step in our continued fiber leadership in North America. Plus our exclusive ABSORBENCY POCKETS* technology dry effectively while reducing waste.

Why move to the MOD* System?

- Flexibility to change modules as needs change—without changing out the entire dispenser
- The NG-Series “power assist” setting offers the longest battery life – 4 times longer than the enMotion® dispenser.
- The MOD* Dispenser System is quieter than enMotion® and Tork Intuition systems.
- ADA compliance for all MOD* Dispensers

Which MOD* System is right for you?

	Code	Description	Color	Dimensions W x H x D	Fits
NG-Series	34358	MOD* NG Electronic Dispenser	Stainless	17.63" x 22.0" x 5.38" / 44.8 cm x 55.9 cm x 13.7 cm	25637 & 25702
