## It's modern. It's modular. Introducing the **Mod**<sup>®</sup> Dispensing System

The promise of the new MOD\* Dispensing System is simple: deliver a customized washroom experience to everyone, everywhere. Nurses caring for patients, employees in office buildings, factory workers on break and fans cheering for their team–all have exactly what they need, when they need it.

## You design the system you need.

Innovative internal dispensing modules plug and play to give you the flexibility to build a dispenser customized to meet your requirements. So as your needs change, your dispensers can change with them. Available in three stylish color choices, the MOD\* System offers a modern design matched with modular flexibility.

**NG-Series:** Great for office buildings and high traffic facilities. Features patent-pending SMART CONTROL\* dispensing technology with two delivery options: pre-cut and power-assist.

**E-Series:** Electronic motion-activated dispensing with an unexposed sheet option that's ideal for healthcare facilities.

**M-Series:** Controlled manual delivery offers the hygiene of touchless dispensing without the batteries.

The MOD\* System combines touchless technology with the bacteria-reducing benefits of drying with paper towels. This supports and promotes better hand and surface hygiene through an innovative program called

**The Healthy Workplace Project\***, designed to help reduce the spread of cold and flu germs in the workplace.

Loaded with Innovation. And Towels.

MOD\* Systems deliver the highest capacity around and include a stub roll feature that reduces waste and cost. So whether it's 1,150 feet of SCOTT® Hard Roll Towels or 700 feet of KLEENEX® Hard Roll Towels, that means fewer change outs and more satisfied users.

New KLEENEX® Towels Sustainability and Reduced Waste.

We are the first major towel and tissue company in North America to include non-tree alternative fiber in our products. Premium quality KLEENEX® Brand towels used in the MOD\* System are now made with 20% bamboo fiber, an innovative step in our continued fiber leadership in North America. Plus our exclusive ABSORBENCY POCKETS\* technology dry effectively while reducing waste.

**Reduce Todav** Respect Tomorrow

## Why move to the MOD\* System?

- Flexibility to change modules as needs changewithout changing out the entire dispenser
- The NG-Series "power assist" setting offers the longest battery life – 4 times longer than the enMotion<sup>®</sup> dispenser.
- The MOD\* Dispenser System is quieter than enMotion<sup>®</sup> and Tork Intuition systems.

• ADA compliance for all MOD\* Dispensers

EcoLogo.
