HUSHTONE™

6Q BACKPACK

THE FREEDOM TO MOVE. THE POWER TO CLEAN.

Increase productivity with our new HUSHTONE™ 6Q Backpack. Ideal for offices and large commercial facilities where speed and convenience are crucial. The lightweight design and ergonomic harness enables easy maneuverability with less fatigue, minimizing downtime. Improve indoor air quality using HEPA filtration with Hexaguard™ Technology and self-sealing bags that trap dust in when disposing. The 2 speed motor provides Hush™ mode with less disruption when you want it and Boost mode for higher performance when you need it.

ADDITIONAL FEATURES:

- **Self-Sealing Bag.** Promotes healthier disposal of full bags, trapping dust and debris from escaping back into the air.
- **Tool-Free Assembly.** Quick and easy tool free assembly out of the box, to get up and running faster.
- **6 qt. Capacity.** Large capacity requires emptying less often.
- **HEPA Filtration with Hexaguard™ Technology.** HEPA Media Filter traps 99.97% of dirt, dust and pollen down to 0.3 microns, improving indoor air quality and reducing dust returning into the air. Hexaguard™ Technology with activated carbon absorbs odor producing molecules improving air freshness.
- **Lightweight Design.** Maneuver with less strain and fatigue to minimize downtime.
