### HOSPITALITY FEATURES

#### Self Diagnostics via USB

Enables service engineers to recognize technical issues in a TV quickly and easily through a USB. The TV stores any technical issues encountered and can output them to a USB device. Service engineers use this information to analyze technical issues without the actual TV.

#### USB Data Cloning

USB data cloning makes managing multiple displays more efficient for optimal operation. No need to set up each display one by one, data can be copied to a USB in one display, data will be distributed to other displays through a USB plug-in.

#### EzManger

EzManager provides a convenient installation function to automatically set settings for the Pro:Centric TV without any extra configuration. Auto-installation requires 1~3 minutes, while manual installation requires 3~5 minutes.

### HOSPITALITY FEATURES

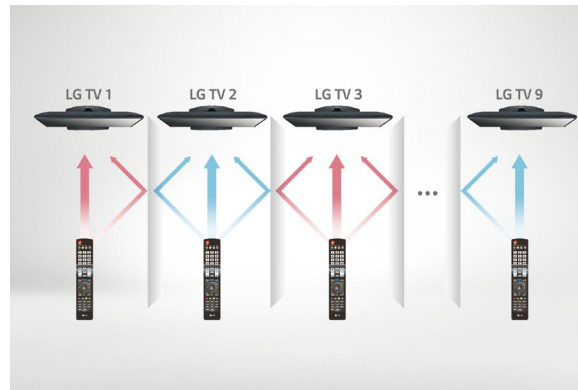

#### Welcome Screen

Display a warm greeting message with your hotel name and logo on the TV when it is turned on. The welcome screen provides an inviting, personalized experience for your guests.

#### Multi IR

Multi-code IR function eliminates any remote control signal interference between TVs in rooms with multiple TVs installed.

#### External Speaker Out

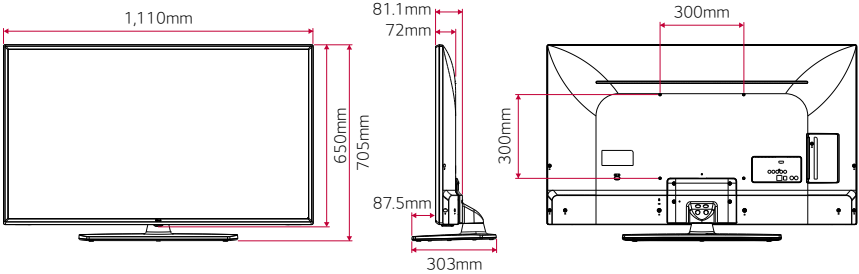

Enhance the entertainment experience with an additional speaker (sold separately). Guests can listen to the TV audio from other rooms within their suite, not only the room where the TV is located.
