

RESIST[®] CONTAINERS

WITHSTANDS HARSH OUTDOOR ENVIRONMENTS

Data shows that removal of graffiti within 24 to 48 hours results in a nearly zero rate of recurrence – most “Keep America Beautiful” affiliates credit the reduction in graffiti in their communities to rapid removal.^{1, 2}

GRAFFITI & STAIN RESISTANT

Advanced coating protects the container surface, making it easy to remove graffiti and everyday stains.

DENT RESISTANT

Resists up to 500 lb of blunt force with the specialized fanfold design.

CORROSION & UV RESISTANT

The advanced coating and stainless steel construction helps the container resist rust and corrosion to help maintain color vibrancy.

WEATHER RESISTANT

The permanently fixed rain hood helps prevent leaves and other environmental debris from entering the container.
