

SUSTAINABILITY

At Serta Simmons Bedding, sustainability is an important part of how we do business. As we bring our sustainability strategy to life, we're focused on integrating it into all aspects of our business, from product development and manufacturing to logistics.

HOW WE WALK THE TALK

ECO-FRIENDLY PRODUCTS

Beautyrest spring systems contain recycled steel; foams are produced without the use of harmful chemicals; and, our foundations are sourced from sustainable forests.

RESPONSIBLE OPERATIONS

We strive to implement processes that conserve energy, reduce water usage and divert waste from landfills. We also promote a safe working environment through ongoing employee education and engagement.

EFFICIENT DISTRIBUTION

Manufacturing operations are strategically located to minimize the use of fuel and energy in shipping to hotel customers across North America.

MATTRESS RECYCLING

Our mattress reclamation and recycling partnerships have helped divert millions of pounds of waste from landfills.
