**TAKE TILE & GROUT  
CLEANING TO THE  
NEXT LEVEL.**

**US STEAM EAGLE™  
COMMERCIAL STEAM CLEANER  
ES6100**

The demand for better cleaning has never been more important. More companies are discovering STEAM as a chemical-free alternative to clean and sanitize high-touch areas. Traditional tile and grout cleaners are made with harmful, harsh-smelling chemicals that require lots of stooping and scrubbing. Give your body a break, the best grout cleaner is a steam cleaner! Steam cleaning is the best way to clean grout—sanitizing while also removing stubborn stains and soap scum. The best grout cleaners provide long-term benefits such as longer times between cleanings with the ultimate benefit of removing exposures to harsh chemicals and fumes.
