

New! Tornado Spin Mop™ & Bucket System

#1283

#1284

Product Usage

This versatile and fun mopping system is great for all hard smooth flooring surfaces, including hardwood, tile, vinyl, linoleum, and more. The quick and efficient spin wringing mechanism make this a great choice for any residential contract cleaner cleaning apartments, condos, and homes. Simply pump the handle down one time for a damp mop, or a couple times for a drier mop.

#1283 Tornado Spin Mop™ & Bucket System

- All-in-one mop kit includes mop and bucket
- Extra large, machine washable microfiber mop head
- Electrostatic powder coated steel handle with impact resistant lower handle composed of fiberglass reinforced nylon
- Mop has handle grips with hanger hole for convenient storage
- User-friendly spinning wringing mechanism for faster floor drying times
- Polypropylene bucket with pour spout holds 2 gallons of water and also features a sturdy carrying handle
- Adjustable handle length fits any user height
- Spinning chamber shoots excess water from mop head into bucket by simply pushing the mop handle downwards
- More absorbent (30% more) and wrings out more water (almost 2 times more) than the leading brand
- Microfiber mop head is 33% heavier than the leading brand
- Replacement mop head available as Libman #1284
