Dimensions (L X W X H)	24 in x 19 in x 41 in
Weight	65 lbs
DESIGN CHARACTERISTICS	
Recovery Tank	13 Gal
Cord Type	14/3 Yellow
Cord Length	20 ft.
Tank Construction	Roto-mold
Solution Hose Length	50 ft.
Peak Airwatts	673
PSI	220
Sound Level	67 dB(A)
Vacuum Motor	Airwatt
Waterlift	117"
REPLACEMENTS & ACCESSORIES	
50 ft. Vac / Solution Hose	X1213T
12 in. Professional Wand	PFX-2 PC
Utility Hand Tool	98340
Crevice Detail Tool	98342
Upholstery Tool	98343

Designed specifically for use in apartments, hotel rooms, or similar applications, Tornado's Apartment Pro portable carpet extractors are perfect for everything from interim maintenance to deep restoration cleaning. Constructed of durable rotationally molded polyethylene, this unit reflects Tornado's commitment to design standards that will endure the rigors of daily usage. This unit has a compact vertical design, allowing ease of storage, mobility and operation. With simple, user-friendly controls the Apartment Pro can be operated with minimal training.

Without a built-in solution tank, Tornado's Apartment Pro allows operators to use a bath tub, sink, or even a bucket as the solution / water source. With the unit designed to sit in place as a cleaning station, the operator is handling only the hose and wand as they clean, affording the convenience of a truck-mount, but in a portable unit.

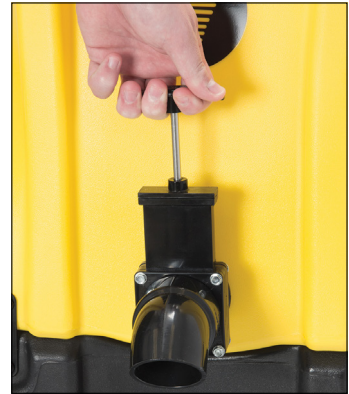

Plus, the dump valve on the recovery tank is set to ADA height standards and allows the recovered solution to be drained in a standard toilet.

The Apartment Pro gives operators the ability to quickly set-up, extract and move onto the next cleaning site with ease. Tank-less operation improves productivity and reduces costs.

#### EASY SOLUTION DRAIN

The dump valve on the recovery tank is set to ADA height standards and allows the recovered solution to be drained in a standard toilet.

#### CONVENIENT CONTROLS

1. Vac Hose Attachment
2. Solution Hose Attachment
3. Control Panel
4. Solution Line Attachment
