

# MARATHON 1200

## SELF-CONTAINED CARPET EXTRACTOR

MARATHON 1200

Award winning design and performance

Model# 98168

The Marathon 1200 self-contained carpet extractor is a brush-assisted unit that lays solution in the carpet, agitates with a cleaning brush, and vacuum-recovers the resulting dirty water thoroughly in one pass. The Marathon 1200 has a 12-gallon solution tank and 14-gallon recovery tank.

This electric unit utilizes a patented internal bladder design that maintains optimal brush pressure throughout operation regardless of solution level. This bladder design requires less space and allows a sleeker exterior with improved sight lines for the operator. A 2 h.p. vac motor, 900 rpm brush speed, and 100 psi solution pump combine for maximum extraction power. A variety of optional accessories and attachments can be used for flexibility.

PRODUCT SPECIFICATIONS	
Model	MARATHON 1200
Catalog Number	98168
MACHINE DIMENSIONS	
Size (H X W X D)	36" X 20" X 38.5"
Weight	100 Lbs
Extension Cord	50'
CLEANING SYSTEM	
Power (Also Available In 230V Configurations)	115V
Coverage Per Filling	900 sq. ft.
Supply Capacity	12 GAL
Recovery Capacity	14 GAL
Solution Pump	100 PSI
Solution Flow	1.1 GPM
Vacuum	99 CFM
Static Waterlift	117"
Brush Speed	900 RPM
Brush Size	17"
MOTOR	
Vacuum Motor	2 hp
REPLACEMENT ITEMS & ACCESSORIES	
50 Ft Extension Cord 14-3 (For 98166, 98168)	M1352
12" Drag Wand (2 jets)	98397
Utility Stair Tool	98344
Upholstery Hand Tool	98343
20' Vac/Pressure Hose For Optional Tools	95567A
Crevice Detailer Extraction Tool	98342
Standard Metal Hand Tool	98350
Standard Utility Hand Tool	98340

**Easy-view solution and recovery tanks**  
Clear tank lids permit monitoring of solution and recovery levels. Molded-in finger-grips allow quick removal and replacement of covers for refilling or cleaning the tanks.

**Versatile and easy to use**  
Whether used in an office or classroom, hallway or lobby, the Marathon 1200 leaves behind clean carpets. The unit was designed with ease of use in mind and is an operator favorite.

**Patented bladder design**  
The Marathon bladder system maintains a constant level of brush pressure for optimal extracting performance at all fluid levels.

**Convenient drain system**  
The solution drain hose is located at the rear of the unit for easy access.

**Service-friendly**  
The Marathon 1200 is easily accessible for service and maintenance operations by qualified personnel. The Marathon employs a unique water delivery system minimizing complexity and virtually eliminating the need for tools to service. The state-of-the-art engineering is what separates this unit from the competition!
