

ProTeam Wet/Dry Vacs

REMOVE & PREVENT FACILITY DAMAGE

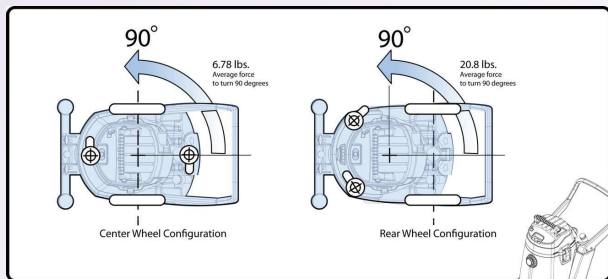

Equip for expected and unexpected messes with ProTeam.

Any Mess. Any Time.

In the event of a flood, there is little time to dry out areas before warping, discoloration or structural damage can occur. A seemingly small amount of moisture can end up causing damage that diminishes the visual appeal and reduces the resale value of the building. When a quick response time can mean the difference between minor cleanup and major restoration, it pays to have a wet/dry vacuum and an air mover on the premises.

ADVANTAGES

- **EASE OF USE** – Fast and easy liquid debris removal from the tip and pour spout or convenient drain hose
- **CONVENIENCE** – Commercial grade tools remove dirt, water and sludge
- **PRODUCTIVITY** – Front mount squeegee provides fast floor stripper recovery and flood restoration applications
- **SAVE TIME** – Qwik-Lock® wet filter maximizes tank capacity and provides easy filter changes
- **DURABILITY** – Exclusive Qwik-Lock Wet Filter and mechanical float shut-off breaks down foam and protects vacuum motor from debris and moisture damage
- **LOW COST OF OWNERSHIP** – Ease of cleaning, filter maintenance
- **IMPROVED FILTRATION** – 3-layer fine dust cartridge filter is washable, reusable and clogs less than the standard foam filters
- **MANEUVERABILITY** – Built-in variable swivel caster wheel pattern allows for either 360-degree or stair-ready maneuverability

It takes 1/3 the effort to turn this vacuum when using the center wheel configuration!

LOSE THE TRACKS – Tracking in Wet Weather

70% to 80% of dust, grime and dirt gets tracked in from the outside on people's feet - permanently damaging floors.

APPLICATIONS

Entryway / Walk Off Mat

Extreme Weather Condition

Transportation

Emergency Spill

Floor Stripping

Jobsite Maintenance

The pipe bursts, food fight, stepped inclement weather, floor stripping, qu

ProBlitz® XP

- Daisy Chain
- Easy Transport

ProGuard® LI 3 Cordless

- Cordless Efficiency
- Lightweight

ProGuard 4

- Compact
- Versatile

ProGuard 10

- Powerful
- Heavy-Duty

ProGuard 16 MD

- Removable Handle
- Maneuverable

ProGuard 15/20

- Large Capacity
- Easy to Use

FACT:

85% of workers compensation claims are attributed to employees slipping on slick floors.

Equipping a Facility for the Expected

Save Time – Save Money – Save Energy when stripping your floors.

ProGuard Front Mount Squeegee System:

- Quick removal of slurry ensures stripper doesn't dry on floor
- Large squeegee reduces number of passes
- Increases productivity, ideal for fast stripper recovery

PREVENT PERMANENT FLOORING DAMAGE

With 3 fan speeds and 3 operating positions, the ProBlitz AirMover dries carpets and sub-floors quickly with the ultimate quiet performance.

- **Easy Transport** – Optional telescoping handle and wheels (ProBlitz XP only)
- **Flexibility** – Three operating positions to direct air where you need it
- **Stackable** – Convenient storage
- **Daisy Chain Receptacles** – Connect 2 additional air movers for large area drying
- **Low Amp Draw** – Multiple units on a single circuit
- **Quiet** – Operate without disruption
- **Reduce Re-soiling** – High-speed drying after wet extraction

ed-in-mud, flash flood, post-party,
ick-recovery solution for any facility.

QUICKLY REMOVE & PREVENT WATER DAMAGE

Have the right equipment on hand to respond to any challenge big or small – quickly and conveniently. ProGuard Wet/Dry Vacuums deliver unmatched power, performance and durability and include thoughtful features that make our vacuums easier and more convenient to use.

Proof Positive

"I've gotten very positive feedback on the ProGuard from our guys," said Randy Abernathy, President and Owner of Vanguard Cleaning Systems, a franchise commercial cleaning company that provides services for over 10,000 companies in North America. The vast majority of the wet/drys are being used after hard floor stripping to pick up the sludge before waxing.

"The ProGuard is quieter and less expensive but more flexible," said Abernathy, comparing them to the older wet/drys. "They are less physically straining to dump."

"The reason I selected the ProGuard from what is available on the mass market today is how user-friendly and compact they are," said Aron Griffith, Director of Club Services at Goodlife Fitness, a Canadian owned and operated health club chain.

Fifty locations now use the 12-pound ProGuard 4 Portable Wet/Dry vacuum to manage soil and moisture in their high-traffic entryways. "There's nothing tricky about them," said Griffith. "You just turn on and go."
