SIERRA MEDUCATUM

GOVERNMENT MEDICAL COLLEGE , THE NILGIRIS

Motto : Docere ; we teach & we heal and may we thrive and prosper

On behalf of the Dean , faculty and students of this college we welcome all of you to this prestigious event "Sierra Meducatum" at the queen of hills , the Nilgiris .

It gives us immense pleasure to introduce our Government Medical College ,The Nilgiris located amidst the serene blue green lush hilltop of the beautiful District of Nilgiris, TamilNadu . The Name 'Nilgiris' means Blue hills the first mention of which has been found in the great epic Silappadikaram. The college premises were opened on January 12th 2022 . The students of the first batch of Government Medical College ,The Nilgiris were admitted to the MBBS undergraduate course on February 14th 2022. The Government Medical College and Hospital now stands tall and proud with an annual intake of 150 students, with the quality & standards gradually gaining momentum. The students and faculty are winning accolades continuously at district level , state level and national level competitions whether be it academics , sports or cultural events. This National Hybrid Conference on Medical Education is one such added feather on the cap of Government Medical College , The Nilgiris.

The Medical Education Unit at Government Medical College , The Nilgiris was started in 2022 with state of the art infrastructure and other live streaming facilities. Now the MEU has been expanded with faculty and student wing activities. The Nila NYC [No Yes Club] is a student club enhancing student friendly atmosphere with morally supportive and lateral thinking activities among students – yes to healthy lifestyle, the music club, blood donors club , peer mentors – student ambassadors, no to unhealthy habits – drugs , alcohol, ragging , oysters – talent search..... and much more !!!

SIERRA MEDUCATUM

“Sierra Meducatum” Medical Education in the Mountain ranges . A National Hybrid Conference and a West Zone initiative under the aegis of Directorate of Medical Education & Research – Quality Improvement in Medical Education ,Tamil Nadu.

The Competency Based Medical Education curriculum was introduced in the year 2019 by the then Medical Council of India, now the National Medical Commission. The CBME curriculum was introduced to overcome the drawbacks of the traditional curriculum which is mainly based on knowledge acquisition rather than knowledge application. It aims to produce a physician of first contact who is well equipped to play the role of a clinician, leader, communicator, a lifelong learner, a professional with critical thinking and research skills. CBME is a goal driven and an outcome-based process using a set of achievable competencies. It has more accountability and flexibility.

The medical teachers are expected to keep pace with the changing trends and modalities of training, need to step out of the conventional pattern of being a classroom teacher to a teacher who can assist, be a coach, motivator, mentor, guide, facilitator and a delegator. In order to expand the horizons of teaching and learning “Sierra Meducatum” has been proposed and is being executed.

“Sierra Meducatum” who can register :

1. Medical fraternity interested and motivated in implementing the changes and nuances into the medical curriculum.
2. Medical & other health care professional interested in learning the changes introduced through competency based medical education .
3. Post graduates interested and motivated in learning the nuances of CBME and taking part in innovations.
4. Undergraduates interested in participating and getting exposed to the newer trends in learning , interested in participating in one of its kind competitions and winning exciting prizes , newly introduced awards and not to mention the ties & bows ...to take you to new heights in career building and being a professional .
5. And Interested lifelong learners
