IN AMERICA*

GLUE TRAPS MOUSE SIZE
With Eugenol for Enhanced Stickiness
Captures Mice

- Professional Strength
- Pesticide-Free
- Ready-to-Use

MADE IN USA

*Based on Nielsen Total US XAOC data

Contains **4** Mouse Size
Glue Traps

Tomcat® Glue Traps represent the very latest in glue trap technology. Our glue formulation has the ideal combination of immediate grip and stretchable hold.

HOW TO USE

1 Open package and separate Tomcat® Glue Traps.

2 Place Tomcat® Glue Traps in areas (such as along walls) where rodents or insects will most likely cross over them as they move from hiding places to feeding places.

3 After use, simply dispose of the entire trap.

Can Be Used For...

- Mice
- Cockroaches
- Spiders
- Scorpions

... and most other insect pests

CAPTURES MICE 

022218

IMPORTANT: • Protect in dusty areas by leaning boards against wall and place Tomcat® Glue Traps between board and wall. • Avoid using Tomcat® Glue Traps in wet areas. Dispose of rodent and glue trap completely. Do not place glue traps where there is a possibility of birds or non-target animals coming in contact with adhesive. • If accidentally contacted, remove with mineral spirits followed with washing with warm water and mild detergent.

Tomcat® Glue Traps work without poison or mechanical apparatus. Glue traps take advantage of the rodent's natural tendency to run along walls. When the rodent runs onto the tray, they get stuck. Simply dispose of the entire glue trap.
APPLICATION DIRECTIONS: Place Tomcat® Glue Traps for mice at 5-8 foot intervals.
