

Tomcat® Glue Traps represent the very latest in glue trap technology. Our glue formulation has the ideal combination of immediate grip and stretchable hold.

#1 BRAND OF GLUE TRAPS IN AMERICA*

HOW TO USE

APPLICATION DIRECTIONS:

Separate Tomcat® Glue Traps.

- Place Tomcat® Glue Traps in areas where rodents will most likely cross over them as they move from hiding places to feeding areas. Best locations are along walls, runways, gnawed openings and near burrows where rodents are most likely to travel.
- To increase effectiveness, block passageways to force rodents to travel directly over Tomcat® Glue Traps.

RATS: Place Tomcat® Glue Traps at 10–15 foot intervals.

MICE: Place Tomcat® Glue Traps at 5–8 foot intervals.

IMPORTANT:

- Protect in dusty areas by leaning boards against wall and place Tomcat® Glue Traps between board and wall.
- Avoid using Tomcat® Glue Traps in wet areas. Dispose of rodent and glue trap completely. Do not place glue traps where there is a possibility of birds or non-target animals coming in contact with adhesive.
- If accidentally contacted, remove with mineral spirits followed by washing with warm water and

Can Be Used For...

- Rats
- Mice
- Snakes
- Cockroaches
- Scorpions
- Spiders

... and most other insect pests
