RODENT REPELLENT

Ready-to-Use

Inside & Outside Rodent Prevention

- Prevents rodent entry, nesting & foraging
- Tested and proven to work. Easy application to keep rodents away
- Essential oils deliver a smell and taste that rats and mice naturally hate
- No stink formula that is long lasting and rain resistant

Directions For Use:

- **Shake container well before using. Product is ready to use and does not need to be mixed or diluted.**
- While the formula is non-staining on most surfaces, spray a small, inconspicuous area to determine effects prior to full scale application. Do not use on light colored upholstery.
- Spray potential entry points around your home which could include around doors & windows, pipes, cracks & crevices, and vents.
- Repeat application every 30 days. More frequent application may be required after periods of heavy rainfall and if more damage or rodent activity is noticed.

Using the Comfort Wand®:

Remove sprayer from the holder on side of bottle. Remove pull strip to activate batteries. Flip open wand until it clicks. Uncoil hose and insert hose connector into opening on cap until it clicks. Twist knob to ON.

To Spray: Turn sprayer nozzle to desired spray pattern. Slide gray switch on trigger to "Unlock". Press trigger to spray.

When Finished: Slide switch on trigger to "Lock". Twist knob to OFF. Fold wand closed and place sprayer back in the holder on side of bottle.

Important Use Information: Do not submerge in water. When storing sprayer for long periods, remove batteries and rinse applicator by placing connector end of hose into a container of clean water and spraying for 10 to 15 seconds. Re-attach sprayer hose connector into knob on cap.

To replace batteries: See marked diagram inside battery compartment.

Use Precautions

This product can be applied as long as spray head and liquid are not frozen. If product freezes, return to room temperature and use according to directions. Do not spray electrical wires and sockets directly. Not for use on car engine. Before use, test a small area of sensitive surfaces for staining before making a widescale application. Wipe away any excess product on surfaces
