HPX & TRADITIONAL UTILITY VEHICLES

JOHN DEERE

RUN WITH US

## Hard work is in their DNA

Our Gator™ Work Series loves work as much as you do. Because they're equipped with our Deluxe Cargo Box that shines under heavy stress and extreme conditions. These are the time-tested models that crave a full load, stop with dead-eye precision and deliver an intense bang for your hard-earned buck. Gas, diesel or electric, pick the Gator™ UV that's right for you. And let's get to work.

**12-volt DC outlets** The same kind you'll find on most Gator™ UV's are similar to the ones in boats and trucks. Keep your phone charging at all times.

**Every brake system** is precisely matched to the vehicle load capacity. Stop with confidence.

**A standard gas assist shock** underneath the bed makes lifting and dumping effortless. An optional power lift kit raises and lowers bed from a switch right on the dash.

**Generous Cargo Box** is built with tough, composite materials. Its 16.4 cu. ft (.56 cu. m.) can handle 1,000 lb. (450 kg) easy.

**Pick-up style tailgate** folds out to 90 degrees, and down a full 150 degrees. Protect your investment with a factory-installed spray-on bedliner. Optional brake/tail light kit helps you stand out on the worksite. Tie-down points let you secure cargo.

## *This workhorse is a thoroughbred.*

The Gator™ HPX has been engineered to impress. With its exceptional payload and towing capacity, deluxe heavy-duty cargo box and enhanced 4-wheel suspension, it is the alpha of any work site. It hits a top speed of 25 mph (40 km/h), so you'll get jobs done fast. The HPX even has a wide wheelbase and low center of gravity for stability when tackling tricky terrain. Advantage, you.

4WD instant engagement provides traction with a flip of a switch. Auto-locking electronic differential button provides a more automotive feel for instant engagement at your fingertips.

The hydroformed frame on the HPX has incredible tolerance for twisting and heavy loads.

## Monster power. Creature comforts.

Step up to the Gator™ TX. This top of the line two-wheel drive boasts intense horsepower and a Deluxe Cargo Box that's equal parts versatile and invaluable. While tuned four-wheel suspension and high-back seats mean comfort comes standard. And no matter if you're towing a full load or not, its hydraulic disc brakes deliver a quick stop and a standard rear receiver hitch makes towing a breeze.

Power under the hood delivers exceptional torque, great low-end lugging power and fast acceleration everywhere you go.

No matter what you haul, the Gator™ TX delivers a smooth ride, courtesy of its four-wheel suspension with coil over shock, triple-rate adjustable springs.

Easily remove the composite sides to convert the box to a flat-bed mode that's perfect for carrying large, awkward loads like plywood sheets, bales of hay and tables.

Optional cargo box dividers let you reconfigure and organize your load in a few minutes without tools.

Cargo box has 16.4 cu. ft. (.56 cu. m.) of capacity, a pick-up style tailgate, 20 tie-down points and a gas-assist shock for easier lifting and dumping.

Optional Box Side Extensions increase the amount of light material you can haul such as clippings and mulch when compared to a base model cargo box. Tailgate pivots at the top for ease of unloading loose material.

The 48-volt electrical system performs steady and smooth all day long.\* This transporter with zero operating emissions sports a 16.4 cubic foot (.46 cu m) capacity reinforced cargo box, the ideal solution for working inside large warehouses and buildings. The pick-up style tailgate and tie-down points make managing loads easier. For large loads, convert to flatbed mode by removing tailgate and side panels.

## GATOR™ TE 4X2 ELECTRIC From zero to amazing.

Go electric, and see what zero can do. Zero operating emissions. Zero fuel consumption. Whisper quiet and tackles your entire workday or to-do list on a single charge\*. All while sacrificing ZERO in power and performance—this Gator™ hauls up to 500-lb (227-kg) with the same versatile Deluxe Cargo Box you'll find on the TX and TH models. A UL-approved charger that automatically shuts off after reaching a charge comes standard. So make the change. The feeling will be positively electric.
