Extending the use of engineered timber

PurePanel® is Havwoods' collection of pre-finished, real timber veneer panelling.

Available in 19mm thick double sided veneer or 1mm thin veneer, this product is incredibly versatile and suitable for use on interior walls, ceilings, joinery, cabinetry and kitchens.

PurePanel® is manufactured with a real timber veneer (crown & quarter cut), bonded to MRMDF (with colour matched reconstituted veneer on reverse) or phenolic laminate backing sheet (for curved surfaces).

The veneer surfaces are finished with a UV-Cured multi-coat lacquer system that requires no additional finishing onsite.

Coloured to compliment some of our most popular flooring products, PurePanel® uses a mix-matching technique and industrial processing to guarantee consistent colours and quality across panels.

The range is FSC® certified, and made from sustainably sourced materials.

9 benefits of PurePanel® for interior surfaces

- ✓ Endless opportunities across a multitude of applications such as cabinetry, walls and just about any internal surface.
- ✓ Both rigid (19mm thick) double sided veneer panel and flexible (1mm thick) veneer sheet options are available in stock.
- ✓ Premium quality, European timber veneer that is ethically and sustainably sourced.
- ✓ Nine of Havwoods most popular on-trend timber tones to compliment some of our most popular floor colours.
- ✓ 50% quarter cut and 50% crown cut, blended as a mix match veneer. This creates depth and variation in every panel and with no requirement for book matching, makes it easier and quicker to install.
- ✓ Panels are supplied ready to use and require no additional finishing on-site.
- ✓ Our pre-finished panels make installation or fabrication effortless.
- ✓ Matching PureEdge trim for that perfect sealed finish.
- ✓ 19mm PurePanel® includes moisture resistant MDF core, providing excellent stability for cupboard doors.
