Look out for our third party
sustainably certified products.

Extending the use of engineered timber

PurePanel is Havwoods' collection of
pre-finished, real timber veneer panelling.

Available in 19mm thick double sided veneer
or 1mm thin veneer, this product is incredibly
versatile and suitable for use on interior walls,
ceilings, joinery, cabinetry and kitchens.

PurePanel is manufactured with a real
timber veneer (quarter cut), bonded to
MRMDF or phenolic laminate backing sheet
(for curved surfaces).

The veneer surfaces are finished with a
UV-Cured multi-coat lacquer system that
requires no additional finishing onsite.

Coloured to compliment some of our
most popular flooring products, PurePanel
uses a mix-matching technique and industrial
processing to guarantee consistent colours
and quality across panels.

Cabinetry featuring:
HW31018 Brienne and HW31002 Mendes
Building Designer: Graham Jones Design
Builder: Biltar
Photographer: Kate Enno Photography

Benefits of PurePanel for interior surfaces

- ✓ Endless opportunities across a multitude of applications such as cabinetry, walls and just about any internal surface.
- ✓ Both rigid (19mm thick) double sided veneer panel and flexible (1mm thick) veneer sheet options are available in stock.
- ✓ Premium quality, European timber veneer that is ethically and sustainably sourced.
- ✓ Eleven of Havwoods most popular on-trend timber tones to compliment some of our most popular floor colours.
- ✓ Panels are supplied ready to use and require no additional finishing on-site.
- ✓ Our pre-finished panels make installation or fabrication effortless.
- ✓ Matching PureEdge trim for that perfect sealed finish.
- ✓ 19mm PurePanel includes moisture resistant MDF core, providing excellent stability for cupboard doors.
