LinuxFest Northwest sponsorship is a great deal!

LinuxFest Northwest is put on as a partnership between Bellingham Technical College's Information Technology department and the Bellingham Linux Users Group. These two groups work at no cost to provide staffing for this annual event. With this partnership, our venue and infrastructure costs are kept to under \$30/person for over 1500 attendees. We pass this savings onto our sponsors while still providing a world class event. This presents an opportunity to get your brand in front of and develop more and better relationships with the frontline technicians, developers and decision makers that make up a significant part of our attendees. Your sponsorship supports our shared interest in spreading of knowledge and expertise in the open source world.
