

Use and care of the acapella® choice VIBRATORY PEP THERAPY SYSTEM

Learning to use your positive expiratory pressure (PEP) device is fast and easy. Taking deep breaths fills your lungs with air which helps exercise them. Your acapella® choice PEP device uses inhalation and exhalation to keep your lungs healthy. When exhaling, the PEP device provides vibrations you will feel in the airways of your lungs.

PREPARING TO USE YOUR ACAPELLA® CHOICE PEP DEVICE

1. Wash your hands
2. Ensure the adjustment dial is set correctly as directed by your healthcare provider

1 WASH HANDS

2 SET DIAL

You are ready to begin the breathing exercise

USING YOUR ACAPELLA® CHOICE PEP DEVICE

1. Place the mouthpiece gently into your mouth
2. Keeping the device in your mouth, take a deep breath and hold it for 2-3 seconds
3. Breathe out through the PEP device slowly and smoothly for 6-9 seconds, while keeping a tight seal on the mouthpiece
4. Repeat this breathing exercise 10-20 times
5. Remove the mouthpiece (or mask) and perform 2-3 huff coughs. A huff cough is like blowing out candles with your mouth wide open.
