

Waste bin systems - Pull-out units

SALICE

Waste bin systems

Available in a range of sizes, the waste bin systems provide an aesthetically attractive and extremely effective solution to an essential kitchen function - the efficient handling of waste.

Both the Lineabox drawer and the waste bins are supplied in preassembled kits.

Their assembly is easy, rapid and intuitive.

This operation is tool free. The sliding movement of the drawer is fluid and progressive, thanks to Shelf full-extension runners, premounted on a specially-designed frame.

Single packing

STORAGE UNIT WIDTH	PART NUMBER	BOX
Storage unit width 305 mm (12")	AKWBAX_05000305	1 single kit
Storage unit width 381 mm (15")	AKWBAX_05000381	1 single kit
Storage unit width 457 mm (18")	AKWBAX_05000457	1 single kit
Storage unit width 533 mm (21")	AKWBAX_05000533	1 single kit

Part number composition (example):

AKWBAX105000305

Waste bin systems - Storage unit 305 mm (12")

Kit consists of:

- 2 Shelf runners 65559, 500 mm length, premounted on a steel support
- Screws for wooden frontal \varnothing 4 x 35 mm
- Fully assembled Lineabox drawer
- Steel bin-holder frame
- 1 plastic waste bins - capacity 33 litres (35 qt.)

Technical features:

- Depth adjustment with the runner fixing clips
- Sideways, vertical and tilt adjustment on the runners support

Finishes:

- Bin-holder frame: Titanium
- Waste bins: Grey
- Runners support: Grey
- Lineabox sides: White, Stainless steel

Dimensions with Shelf full-extension runners

Waste bin systems - Storage unit 381 mm (15")

Kit consists of:

- 2 Shelf runners 65559, 500 mm length, premounted on a steel support
- Screws for wooden frontal \varnothing 4 x 35 mm
- Fully assembled Lineabox drawer
- Steel bin-holder frame
- 2 plastic waste bins - capacity 30 litres (32 qt.)

Technical features:

- Depth adjustment with the runner fixing clips
- Sideways, vertical and tilt adjustment on the runners support

Finishes:

- Bin-holder frame: Titanium
- Waste bins: Grey
- Runners support: Grey
- Lineabox sides: White, Stainless steel

Dimensions with Shelf full-extension runners

Waste bin systems - Storage unit 457 mm (18")

Kit consists of:

- 2 Shelf runners 65559, 500 mm length, premounted on a steel support
- Screws for wooden frontal \varnothing 4 x 35 mm
- Fully assembled Lineabox drawer
- Steel bin-holder frame
- 2 plastic waste bins - capacity 30 litres (32 qt.)

- Depth adjustment with the runner fixing clips
- Sideways, vertical and tilt adjustment on the runners support

Finishes:

- Bin-holder frame: Titanium
- Waste bins: Grey
- Runners support: Grey
- Lineabox sides: White, Stainless steel

Dimensions with Shelf full-extension runners

Waste bin systems - Storage unit 533 mm (21")

Kit consists of:

- 3 Shelf runners 65559, 500 mm length, premounted on a steel support
- Screws for wooden frontal \varnothing 4 x 35 mm
- Fully assembled Lineabox drawer
- Steel bin-holder frame
- 2 plastic waste bins - capacity 33 litres (35 qt.)

Technical features:

- Depth adjustment with the runner fixing clips
- Sideways, vertical and tilt adjustment on the runners support

Finishes:

- Bin-holder frame: Titanium
- Waste bins: Grey
- Runners support: Grey
- Lineabox sides: White, Stainless steel

Dimensions with Shelf full-extension runners

Waste bin systems - Assembly features

Place the runner support on the bottom of the cabinet.

Position the runner support at the centre of the cabinet, using the front reference. The front feet, aligned with the base panel of the cabinet, can be used as a reference for the depth positioning.

Screw-fix the feet with the screws provided (\varnothing 4 x 18 mm).

Pre-drill the drawer frontal using the template provided. For the correct positioning use as reference the middle of the front panel and its overlay (**D**) on the base panel of the cabinet.

Using the pre-drilled holes, fix the drawer to the drawer frontal using the screws provided (\varnothing 4 x 35 mm).

Slide the drawer onto the runners until the clips engage.

Insert the bin-holder frame.

Insert the waste bins.

Waste bin systems - Adjustments

A technologically advanced and comprehensive adjustment system enables the drawer frontal to be aligned precisely in all directions.

The amount of adjustment far exceeds what is available elsewhere.

All operations can be carried out with a drawer already installed.

Sideways tilt adjustment (+8 mm)

Operate on the adjusters on the right or on the left for the sideways tilt adjustment of the front panel.

Vertical adjustment (+8 mm)

Operate on all adjusters for the vertical adjustment of the front panel.

Waste bin systems - Adjustments

Depth tilt adjustment ($\pm 2^\circ$)

Operate on the front or the rear adjusters for the depth tilt adjustment of the front panel.

Depth adjustment - 3 way adjustable clip (± 2 mm)

Rotate the black wheel towards the inside or the outside of the drawer to increase or to reduce the gap between the front and the side.

The clip shows the position 0.

This operation is tool free.

Sideways adjustment (± 6 mm)

Loosen the indicated screws for the sideways adjustment of the front panel.
Finally the fixing screws must be retightened.
