INSPIRATION *at your door*[®]

There's a reason why a welcome mat is placed at the foot of a door. A door is the warm greeting as you enter the home. Conversely it is the welcoming promise of the world beyond as you leave those walls behind. The closing of a door can bring comfort and security. The opening leads to possibilities and wonder. As the first and last impression, a door is not only representative of your creativity and style, but it's something that helps transport you to and from life's events. Choose the right door and welcome beauty, elegance, character, and of course, unparalleled quality to your life.

View Your Nantucket Options

Try our high-performance Nantucket construction on countless doors.

@whitlinedesigns

Create Your Dutch Door

Simpson can turn almost any door into a Dutch door.

Choose Any Type of Wood

See the most requested wood types.

Picture Any Door in Your Home

Take our doors for a test drive, in your home or one like it.

See Any Door with Any Glass

Visualize any type of glass for the look & privacy you desire.

Contemporary & Custom

Build a flush-style door in virtually any design, wood type and glass.

Make a stunning **FIRST IMPRESSION.**

Life is about choices.

Sometimes you have an exact idea of the type of door you're looking for, while other times you know what door is right "when you see it."

Simpson has many options to make finding the right door simple and carefree, and since you can get a Simpson door in any wood, any glass or any style, the possibilities are endless. That's why we've broken down the process into six easy steps. In doing so, we can help keep your decision making focused and your possibilities infinite. Just imagine what you can create.

with UltraBlock® technology

How to ORDER

Complement your home with popular designs from our architectural collections like Cottage, Coastal or Modern Farmhouse.

Our doors can be made in all shapes and sizes. No matter what you have in mind, Simpson can make your wood door come to life. Select your size up to 10 feet tall, 8 feet wide and 2-1/4" thick. Plus select virtually any shape.

Simpson offers dozens of wood types, each with its own distinctive character. Choose from traditional to exotic, each meeting our strict grading standards.

How to ORDER

04

PICK YOUR GLASS

Whether you are concerned about privacy or just want to add a contemporary touch to your door design, we can deliver the perfect piece of glass that reflects your vision.

05

DECIDE ON THE DETAILS

Personalize your door using a variety of panel types, sticking profiles and decorative mouldings. Or opt for something special like a Dutch door, pivot door or a door on barn track.

06

UPGRADE YOUR EXTERIOR DOOR

Sometimes an exterior door needs additional protection from the demanding elements of Mother Nature. Make sure you are selecting the right upgrades for your exterior exposure.

Further POSSIBILITIES

MATCHING MILLWORK

Make your home truly stand out with a Simpson door. Imagine how much more impressive it would be when paired with a matching Simpson jamb, casing, and other millwork. Add this finishing touch with a wide range of Simpson millwork options, tailored to fit your preferences in profile, size, and wood type.

APPLICATION

Your Simpson doors can be seamlessly integrated into your home in a variety of ways. While most doors swing on hinges, consider other popular applications when you find your perfect match. Your Simpson doors can be machined, prehung and prepared to exactly complete your vision.

DOG DOORS

Simpson is combining two of our great loves, the love for our home and our pets, with the introduction of our dog door collection. Simpson can offer dog doors in a variety of existing Simpson door designs and is featuring both the 49971 and 7008 designs as standard dog door designs.

HOMEOWNER REBATES

Your Home *for* Rewards

We believe in rewarding our valued customers every step of the way. That's why we're thrilled to offer you regular rebates and promotions, designed to make your shopping experience even more welcoming.

To stay in the loop and never miss out on a great deal, simply head over to our website and check out our latest promotions. With new offers added regularly, there's always something exciting waiting for you.

BE A DOOR EXPERT

Know Your Overhang

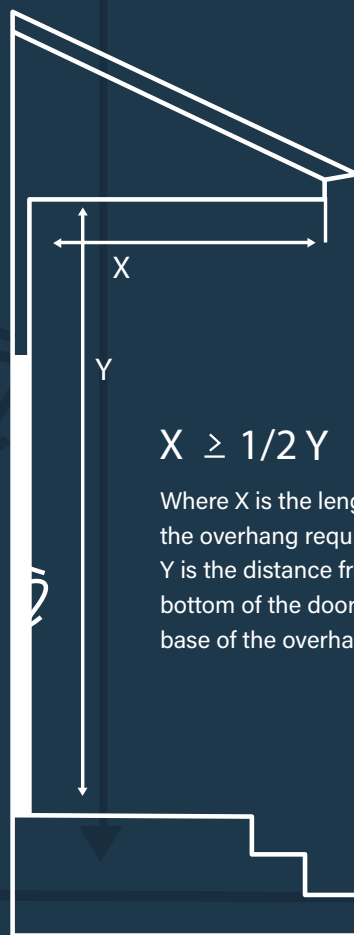

When it comes to high-performance exterior wood doors, Simpson has you covered. And when you are selecting an exterior door, make sure you are selecting the right type of door for that door's exposure to the elements.

Yes, my door has adequate overhang, so I can select any design.

See drawing to the right for what is considered an adequate overhang. If your door opening has this type of protection or more, you can select any type of Simpson exterior door and in any wood type. And when your door has UltraBlock® technology, it will also feature a 5-year warranty.

No, my door does not have adequate overhang, so I should select either doors from the Nantucket Collection™ or doors with WaterBarrier® technology.

If your door does not have an adequate overhang, Simpson has options for you. Select either the WaterBarrier technology upgrade for any exterior door or select a door from the Nantucket Collection. These offerings are engineered and built to withstand the weather and provide a full warranty in any type of exposure. Doors with WaterBarrier technology carry a 5-year warranty and Nantucket Collection doors carry a 10-year warranty, all with no overhang required.

Where X is the length of the overhang required and Y is the distance from the bottom of the door to the base of the overhang.

SCAN ME

NANTUCKET COLLECTION™

Beauty & Durability

Nicknamed “The Gray Lady” due to its regular foggy conditions, Nantucket is known for being historic, hardy and starkly beautiful. Windblown beaches and weather-beaten shingles are a way of life on this blustery island. This same spirit is reflected in our Nantucket Collection™ ... doors built to stand up to the elements while standing out, thanks to their classic design and unsurpassed craftsmanship.

Unbeatable Construction

- Mortise-and-tenon joinery with face-driven pins
- Two-piece laminated stile-and-rail construction
- Divided lite doors made with SDL construction
- Design pressure ratings of DP50 (additional hardware may be required in some applications)

Wood Species Options

- Available in Western Hemlock, Douglas Fir, Sapele Mahogany, Nootka Cypress and Accoya (provided factory-primed).
- Hardwood tenon and matching species face pins

Design Options

- Thickness - 1-3/4" or 2-1/4"
- Sticking Profiles - Shaker or Ovolo
- Panel Options - 1-7/16" Innerbond® double hip-raised panel or 1-7/16" SelectGuard™ scoop single hip-raised panel or 3/4" SelectGuard flat panel
- Nantucket Collection doors come standard with a face pin with an option for no face pin

UPGRADES

 7130
with WaterBarrier[®] technology
© Amy Barton

 37176 (Left), 37186 (Right)
37754 transom, with WaterBarrier[®] technology

WaterBarrier® Technology

WaterBarrier® technology helps preserve the beauty of your Simpson doors even in tough exposures subject to harsh weather. Available for any Simpson exterior door, this innovation affords you superior water protection.

WaterBarrier combines a medium density overlay (MDO) over the exterior surface of the door with water-resistant glazing beads and bars for an exterior that's not only resistant to moisture, but provides a beautiful surface for paint. And when combined with any wood type on the inside, you can stain or paint the interior to match your woodwork and keep the warmth and natural beauty that wood provides.

37944 WB
shown in Douglas Fir with
WaterBarrier® technology

Water-resistant glazing beads and SDL bars on exterior side. Wood bars on interior side.

Primed Medium Density Overlay for flat surfaces

SelectGuard® scoop single hip-raised and Innerbond® double hip-raised panels have a water-resistant primer

Weather Seal™ Process

Entire stile-and-rail joints coated and bonded to decrease the possibility of water infiltration

UltraBlock® Technology

Composite block material finger-jointed into the bottom of the stiles

UltraBlock® Technology

A long time favorite of Simpson's most discriminating customers, UltraBlock® technology adds a water-resistant composite block in the bottom of the door stiles, where water infiltration can occur in a tough exposure. Our exclusive Weather Seal™ process provides additional protection against moisture penetrating the bottom rail. It's our answer to the galoshes you splashed around in as a kid.

UltraBlock Technology Warranty

5-year warranty and available for any exterior door.

WaterBarrier Technology Warranty

5-year warranty with no building overhang required. When ordering WaterBarrier technology, UltraBlock technology is always included.

Concept[®] Custom DOOR GALLERY

You will see a variety of designs throughout this Ideabook that have a design number. You can choose any of these designs and then personalize any detail to your own specifications. Or start with your own pencil and paper and design something from scratch. The following pages are examples of doors that were created by homeowners just like you.

CRAFTSMAN

All-American ARTISTRY

Originating from the arts-and-crafts movement at the turn of the 19th century, this design style features natural materials, cozy interiors and wide porches. Warm, natural wood doors with dentil shelves and decorative glass support the timeless appeal of this enduring American tradition.

COTTAGE

Comfortably COOL

Relaxing and rejuvenating, cottage style is all about creating light, bright and airy spaces. The eclectic design should look effortless, comfortable and livable by blending weathered surfaces, painted finishes and clean lines.

COLONIAL

History in THE MAKING

To evoke the refined aesthetic of their Western European origins, many settlers of 18th- and 19th-century America adorned their entryways with doors in the colonial style. Colonial design features balanced symmetry and subtle ornamentation that make it the perfect centerpiece for a formal yet welcoming front exterior.

Care & Finishing

Your Simpson door has been handcrafted to last for years to come. And like any piece of fine furniture, it needs proper finishing and periodic maintenance to keep it performing at its best. For a long-lasting, beautiful Simpson door, please follow the instructions as outlined in the care & finishing section of the Simpson website at simpsondoor.com/care-finishing/. Failure to follow Simpson's care & finishing recommendations will void the door's warranty. **All Simpson doors must be finished within 72 hours after installation to meet manufacturer's warranty.**

Fitting and Hanging

1. When hanging the door, allow adequate clearance for swelling of door or frame in damp weather. Allow approximately 3/16" clearance for swelling when the door is installed in fully dry conditions. Jambs must be plumb.
2. Do not cut doors down in height by more than 2" (1-1/2" maximum from bottom or 1" on doors with UltraBlock® technology, 1/2" maximum from top). Care should be taken in cutting doors down in width to avoid exposing engineered components. Use a sharp fine-tooth saw for trimming ends of doors.
3. Caution must be used to avoid impairing the strength of the door when fitting for locks. Allow at least 1" of wood back of mortise.
4. Use three hinges on doors up to 7' in height and four hinges on doors over 7'. Hinges must be set in a straight line to prevent distortion.
5. Jambs and stops must be set square and plumb.
6. For best performance and to meet the standard Simpson warranty, any exterior door should be installed under an overhang or with sufficient protection. Adequate overhang depends on typical weather conditions of the area where the door is installed, but at the minimum means an overhang projecting a distance from the structure equal to one half the distance between the bottom of the door and the bottom of the overhang (see figure 1).

7. If an adequate overhang is not feasible, Simpson offers a selection of products warranted for this application, including a five-year limited warranty on doors featuring WaterBarrier® technology and a ten-year limited warranty on Nantucket Collection™ doors.
8. Dark colored stains are not to be used on exterior doors.
9. If you are looking to paint your exterior door a dark color and want the Simpson warranty to apply, you must use a Nantucket Collection door made with accoya wood species. See more info within our full care and finishing instructions.
10. Immediately after cutting and fitting (before hanging), seal all cut surfaces and ends of door with an effective quality sealer. See exterior and interior finishing recommendation for complete instructions.
11. Prior to exterior exposure, doors must be finished with complete finish system.
12. To minimize heat loss and save energy, use weather stripping.

Figure 1

Where X is the length of the overhang required and Y is the distance from the bottom of the door to the base of the overhang.

Maintenance

Your Simpson door's finish will require some simple, periodic maintenance to keep it looking great and provide proper protection against the elements. Regular finish maintenance is also a requirement of the warranty that's included with every Simpson door.

Here are some signs to watch for. They indicate that it's time for some simple, easy-to-perform maintenance:

- Hairline cracks in the top coat of finish.
- Changes in the color of the finish.
- Changes in the texture of the finish, such as flaking or scaling.
- Dullness or chalkiness in the finish.

If you live in a severe climate or your entry receives a lot of direct sunlight from a southern or western exposure, you'll want to examine your door's finish often. Depending on the conditions, you may also need to maintain the door finish more frequently.

It is important to note that wood has inherent dynamic qualities. Over time, small surface "imperfections" may appear, and the door may shrink or swell slightly as it "breathes" with climate changes. These characteristics are perfectly normal, reflecting the natural aging process of a wood door, and they should not be considered defects. To minimize these occurrences, protect your door with the right finish and an adequate overhang.

For more information on the care and finishing of a Simpson door, please visit: simpsondoor.com/care-finishing

Warranties

Simpson offers different warranties for different products. And warranties are different based on the following factors:

- Is it an interior or exterior door?
- If an exterior door...
 - » What is the door's exposure to the elements?
 - » What color are you painting/staining the door?

Simpson has a beautiful door to fit any of these situations. So if warranty is an important factor in your door selection, make sure to choose the right door for the opening.

When you engineer doors designed to last generations, you can feel confident in assuring their durability. That's why Simpson doors are backed by some of the strongest warranties in the business. Enjoy peace-of-mind from our industry-leading warranties that are strong, secure and long-lasting ... like our doors.

Simpson Limited Warranty

Simpson Door Company ("Simpson") warrants that each panel door bearing the Simpson brand and identification mark complies with Industry Standard NWWDA I.S.6. and all revisions in effect as of the date of manufacture, and Simpson further warrants, except as stated below, that each such door, at the time of the shipment from Simpson, is of good material and workmanship and free from defects that would render such door unserviceable or unfit for the ordinary, recommended use. The Simpson limited warranty applies to new doors other than those sold "as is". Warranty periods for specific doors and door components, and exclusions, follow:

One Year Exterior Door and Fire Door Warranty

For doors used in an exterior application, other than as specified herein, and for fire-rated interior doors, this warranty shall survive for one year after the date of shipment from Simpson. This warranty applies to doors properly sealed, finished and, in the case of exterior applications, hung in a location protected from exposure to direct sun or rain under normal conditions. See specific Fitting and Hanging instructions.

Ten Year Interior Door Warranty

For doors used in an interior application (defined as being exposed to controlled interior climactic conditions on both sides of the door), this warranty shall survive for ten years after the date of shipment from Simpson. This warranty applies to doors properly sealed, finished and hung. See specific Fitting and Hanging instructions. The ten year warranty on interior doors does not apply to fire-rated interior doors, doors with resin panels, or doors used in commercial, hospitality or multi-family applications, in which case, the one year warranty will apply. The ten year warranty applies only to the original end-user and is not transferable.

Ten Year Nantucket Collection™ Limited Warranty

For Nantucket Collection doors—defined as using Nantucket construction methods—in Sapele Mahogany, Douglas Fir, Nootka Cypress, Western Hemlock, or Accoya (provided factory-primed), this warranty shall survive for ten years after the date of shipment from Simpson. This warranty applies to doors properly sealed and finished per Simpson's Care and Finishing instructions. The ten year warranty on Nantucket Collection doors does not apply to doors used in commercial, hospitality or multi-family applications. Further, face-checking is considered a natural characteristic and shall not be considered a defect. The ten year warranty applies only to the original end-user and is not transferable.

Five Year Performance Series® with WaterBarrier® Technology Door Limited Warranty

For all doors that include WaterBarrier technology over the exterior surface of the door, this warranty shall survive for five years after the date of shipment from Simpson. This warranty applies to doors properly sealed and finished per Simpson's Care and Finishing instructions. The five year warranty on doors with WaterBarrier technology does not apply to doors used in commercial, hospitality or multi-family applications. The five year warranty applies only to the original end-user and is not transferable.

Five Year Performance Series® with UltraBlock® Technology Door Limited Warranty

For all doors that include UltraBlock technology in the bottom of the door stiles, this warranty shall survive for five years after the date of shipment from Simpson. This warranty applies to the stiles and bottom rails of doors properly sealed, finished and, in the case of exterior applications, hung in a location protected from exposure to direct sun or rain under normal conditions. See specific Fitting and Hanging instructions. Other door components are subject to Simpson's one year limited warranty.

Lifetime SelectGuard™ Limited Warranty

Simpson further provides a limited lifetime warranty on SelectGuard panels against splitting due to rain, sun, weather and other such factors exclusive of major calamity.

In the event a SelectGuard panel splits, Simpson will ship a replacement door. If Simpson has discontinued manufacturing the door type/style with the SelectGuard panel warranty claim, Simpson will issue a replacement door equal to or less than the original price of the original door purchase.

Limited Lifetime Innerbond® Warranty

Simpson further provides a limited lifetime warranty on Innerbond panels against splitting through the entire panel due to rain, sun, weather, and other such factors exclusive of major calamity.

In the event an Innerbond panel splits through, Simpson will ship a replacement door. If Simpson has discontinued manufacturing the door type/style with the Innerbond panel warranty claim, Simpson will issue a replacement door equal to or less than the original price of the original door purchase.

For more information on these warranties or for details on limitations, exclusions or how to make a claim, please visit: simpsondoor.com/warranties.
