Where Inspiration and Design Meet Supply

The Paxton Advantage

Decorative Surfaces Are Used Everywhere!

Today, residential and commercial interior designers have available to them a broader range than ever before of decorative surfaces and use them to create innovative, emotive and functional interiors. Decorative surfaces are used on virtually every type of exposed surface be it kitchen, bath and storage cabinets, office or residential furniture, and increasingly on feature walls, all of which combine to create the desired living or work environment. Our surfaces are available in natural wood, reclaimed wood, and composite or synthetic. Synthetics may be deeply embossed to provide textures that mimic Mother Nature or satiny smooth or high gloss to reflect light and enhance color.

Our Decorative Surfaces address a broad range of criteria important to designers and end-users: design, color, surface texture, quality, functionality, and durability. Material cost and life cycle costs are also a factor in determining which material is best suited for an application. A final and very important consideration is the very reliable suppliers standing behind our products ensuring the timely supply of top quality and consistent materials.

We invite you to review our Decorative Surfaces Collection and encourage you to meet with our very knowledgeable staff to discuss all supply options.

Eurodekor TFL Boards

Eurodekor TFL boards offer the look and feel of real wood, stone and other materials with the performance features you need to fulfill your design vision. These TFL boards are produced by fusing resin-impregnated decor paper onto both sides of our Eurospan Particleboard, using heat and pressure to seal the substrate, creating a durable, hygienic product that saves time in finishing.

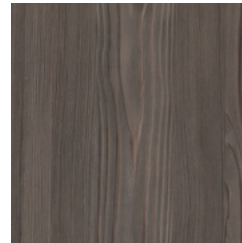

- Optimal surface properties
- Significant undercutting of the strict formaldehyde classes/standard requirements: TSCA (CARB2) regulation in the USA
- Environmentally friendly and recyclable
- Available in the authentic decor patterns and textures
- FSC® certified available on request
