Introduction

Yale Locks & Hardware, an ASSA ABLOY Group company based in Berlin, CT, has provided dependable security since 1840. A leading manufacturer in the industry, Yale offers a broad line of door hardware developed for commercial, retail, office buildings, and mixed-use facilities as well as a wide variety of residential options. Our products include mortise and cylindrical locks, exit devices, decorative hardware, door closers, electromechanical products and key systems, as well as solutions for windstorm, multi-family and small business.

When you need an affordable, reliable solution for your facility, Yale Works for YouSM.

For further information, contact your Door Security Solutions sales representative, call 800-438-1951 or visit us at www.yalecommercial.com.

Americans With Disabilities Act (ADA)

Title III of the Americans With Disabilities Act (ADA), Public Law 101-336, went into effect on January 28, 1992. The ADA "prohibits discrimination on the basis of disability by private entities in places of public accommodation and that the commercial facilities be designed and constructed so as to be readily accessible to and usable by persons with disabilities..." (Federal Register, Vol. 56, No. 144/7-26-91/Rules and Regulations).

Yale locksets and door controls that comply with ADA requirements are indicated as such by the accessibility symbol in this catalog.

MicroShield®

Yale locks and exit devices are available with MicroShield antimicrobial coating. MicroShield is a revolutionary hardware finish coating, using a silver ion based technology, which inhibits the growth of bacteria, algae, yeast, fungus, mold and mildew. MicroShield is non-toxic and lasts for the lifetime of the finish to which it is applied. To order, suffix option code "YMS".

Note: MicroShield coating may vary finish color from architectural standards. Locksets and exit devices available with MicroShield will be indicated as such by the MicroShield icon. MicroShield is not intended as a substitute for traditional infection control programs such as hand hygiene or use of disinfectants. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. Yale makes no representations or warranties, express or implied, as to the efficacy of MicroShield.

Reflections® Decorative Trim

For more than 150 years, Yale has distinguished itself as an innovative manufacturer and designer of locksets and door hardware. That tradition continues with Reflections® by Yale®, a comprehensive line of highly stylized door levers and coordinating hardware. This premier product series is available for Yale® 8800RL mortise locks, RL tubular locks and exit device trim, creating a continuity of beautiful design throughout a building.

Reflections consists of 36 dynamic and distinctive levers. Each captures a unique beauty and spirit of design unlike any other. These exquisite levers offer Yale quality and exceptional elegance to a variety of high-end commercial projects, including office buildings, museums, upscale hotels and resorts, and large multi-use projects such as apartment and condominium complexes.

Let Reflections® by Yale® inspire your vision of great design.

Mortise Locksets

8800 Series Mortise Locksets

Yale 8800 Series Mortise Locks are designed and manufactured for uncompromising strength and durability in a range of commercial applications. Lock installation is made easy with quick lever handing, field reversible latchbolt and standard nonhanded strike. The 8800 Series Mortise Lock offers a new measure of security, featuring a reinforced stainless steel deadbolt, heavy-duty, vandal-resistant trim and ANSI/BHMA Grade 1 certification for long life and durability. The 8800 Series Mortise Lock is even backed by a 10 year mechanical warranty, making this product completely worry-free. See pages 34-36 for information on electrified options.

Features

- ANSI/BHMA:** A156.13, Series 1000 Grade 1 
- UL/cUL:** UL/cUL fire-rated up to 3 hours

Mortise Lock Trim

Reflections® Decorative Levers

Yale® 8800RL Mortise Locks are available with Reflections lever trim, a comprehensive line of highly stylized lever handles. Reflections lever handles are made from solid brass or stainless steel and can withstand years of abuse. Available in a multitude of finishes, the levers complement any wood grain or other door exterior. Each lever is hand-polished and specially designed for ergonomics and style.

Features

- All 8800RL Series lever trims feature thrubolted installation. For sectional trims, this ensures positive alignment of the trim with the lock case.
- All outside trim is held in place by threaded posts. For sectional trims, the posts fit through holes in the lock case and are secured by thrubolts from the inside trim. For escutcheon trims, the posts fit through the door and are secured by thrubolts from the inside trim.
- Outside escutcheon trims have no visible screws - a great deterrent to vandalism.
- 8800RL Mortise Locks feature an internal heavy-duty spring cartridge which prevents lever sag.
- All 8800RL trims are UL/cUL listed for fire door applications.
- Available for 1-3/4" to 3-1/4" thick doors.
- Lever designs are available as shown on page 3.

Exit Devices

7000 Series Architectural Exit Devices

Yale® 7000 Series Exit Devices deliver an unparalleled combination of durability, breadth of line, innovation and aesthetics. With an architecturally inspired design that features simple clean lines, both our wide and narrow stile devices are visually appealing and bring gracious totality to the entire line of Yale locks and hardware.

Available with Motorized Electric Latch Retraction. Delivering a quiet, smooth operation for convenient, hassle-free egress using 86% less power consumption during retraction than solenoid devices.

7100 Series Exit Devices

A conventional exit device used for single swing doors or pairs of doors of metal, wood or composite construction.

Types

- Rim SquareBolt® Devices (type 28)
- Rim Pullman Bolt Devices (type 1)
- Surface Vertical Rod Devices (type 2)
- Concealed Vertical Rod Devices (types 7 and 8)
- Mortise Devices (type 3)

Features

- Certified ANSI/BHMA A156.3 Grade 1 exit hardware 
- UL/cUL listed for fire labeled or panic exit doors
- Windstorm certified (refer to local codes)  Hurricane
- Outside trim fits stock 161 door preps, escutcheon outside fitting stock 86 door preps
- Surface and concealed vertical rod devices are available in Less Bottom Rod varieties
- Double cylinder devices are available for Rim SquareBolt, Rim Pullman and Mortise varieties
- Available with complete range of electrified options, including REX, electric dogging, outside trim monitoring, latch pullback, bolt status monitoring or delayed egress
- Available in 16 standard finishes
- 5-year mechanical warranty

7200/7200M Series Exit Devices

The 7200M(F) rim exit device provides the appearance of a narrow stile rim exit device for use on wide stile or flush doors. Using the 7200M(F) with narrow stile trim provides design continuity and pleasing aesthetics when matching exit devices for inside doors to outside narrow stile doors.

Types

- Rim SquareBolt Devices (type 28)
- Rim Pullman Bolt Devices (type 4)
- Surface Vertical Rod Devices (type 5)
- Concealed Vertical Rod Devices (types 6 and 8)

Features

- Certified ANSI/BHMA A156.3 Grade 1 exit hardware 
- UL/cUL listed for fire labeled (7200M) or panic exit doors
- Windstorm certified (refer to local codes)  Hurricane
- Optional removable mullions, keyed removable mullions, raised molding clearance kits and custom specialties are all available
- Available with complete range of electrified options, including REX, electric dogging, outside trim monitoring, latch pullback, bolt status monitoring or delayed egress
- Available in 16 standard finishes
- 5-year mechanical warranty

6000 Series Commercial Exit Device

With a full range of functions and options and ANSI Grade 1 certification, the Yale® 6000 Series Exit Devices provide the right security for your commercial facility.

Types

- Rim SquareBolt® Devices (type 5)
- Rim Pullman Bolt Devices (type 0)
- Surface Vertical Rod Devices (type 7)
- Concealed Vertical Rod Devices (type 6)
- Mortise Devices (type 3)

6100-A-ALR emergency exit device features red screenprinted pushpad. See 6000 Series catalog for more information.

Features

- ANSI/BHMA A156.3 Grade 1 certified 
- UL/cUL listed for fired rated or panic doors
- Available in 13 mechanical functions
- Available in standard or decorative lever designs
- Available in 7 standard finishes
- 10 year warranty

2100 Series Flatbar Exit Devices

It's no secret that the 2100 Series Flatbar Exit Device has a reputation as the right choice for meeting the rigors of demanding industry segments.

Types

- Rim SquareBolt® Devices (type 28)
- Rim Pullman Bolt Devices (type 1)
- Surface Vertical Rod Devices (type 2)
- Concealed Vertical Rod Devices (types 7 and 8)

Features

- Certified ANSI/BHMA A156.3  Grade 1 exit hardware
- UL/cUL listed for fire labeled or panic exit doors
- Windstorm certified (refer to  Hurricane local codes)
- Optional removable mullions, keyed removable mullions, Torx® security screws and custom specialties are all available
- Available in 8 finishes
- 3-year mechanical warranty

Exit Devices

1800 Series Flatbar Exit Devices

1800 Series Exit Devices are the ideal choice for a wide variety of commercial applications where consistent quality, ease of use and installation are required.

Types

- Rim Pullman Bolt Devices (type 1)
- Surface Vertical Rod Devices (type 2)

Features

- Certified ANSI/BHMA A156.3  Grade 1 exit hardware
- UL/cUL listed for fire labeled or panic exit doors
- Outside trim fits stock 161 door preps, escutcheon outside fitting stock 86 door preps
- Available in 8 finishes
- 3-year mechanical warranty

1500 Series Traditional Exit Devices

Traditional exit devices for compliance with the exit and access demands of today's codes, where it is important to maintain the architectural lines of yesterday.

Types

- Rim Pullman Bolt Devices (type 1)
- Surface Vertical Rod Devices (type 2)
- Concealed Vertical Rod Devices (type 8)
- Mortise Devices (type 3)

Features

- Certified ANSI/BHMA A156.3  Grade 1 exit hardware
- UL listed for fire labeled or panic exit doors
- Mortise devices available with fail safe or fail secure options
- Outside trim options available for most functions
- Optional removable mullions, keyed removable mullions, Torx® security screws and custom specialties are all available
- Available in 15 standard finishes
- 1-year mechanical warranty

Exit Device Trim

Entry functions, for doors equipped with Yale® exit devices, are provided by trim with mechanisms mortised into the doors, and exposed components in architectural finishes. Yale keying systems, as well as other keying, are easily integrated.

Cylinders: Brass, 6-pin, keyed-random cylinder with two keys furnished standard, 7-pin available to order. For other cylinder and keying options, see page 29.

 **ADA compliance** is maintained when Yale® exit devices are used with lever handle or pull trims.

Warranty: 5-year mechanical for all 600 series trims.

 **Vandal-Resistant Free Wheeling** lever action offers protection against forced entry, lockouts, and damage to the hardware.

Options include outside cylinder only and decorative lever handles

Cylinders and Keying/Security Cylinders

Cylinders And Keying

All Yale® locksets are available in a wide choice of cylinder and keying options:

Cylinder Types and Options:

- Fixed Core (standard)
- Large Format Interchangeable Core
- Small Format Interchangeable Core
- Conventional Keyways
- Protected Keyways
- Security Cylinders (Not UL437 Certified)
- High Security Cylinders (UL437 Certified)

Keying Options:

- Keyed Different (KD)
- Keyed Alike (KA)
- Master-Keyed (MK)
- Grand Master-Keyed (GMK)
- Great Grand Master-Keyed (GGMK)
- Construction Keying (CMK)

Interchangeable Cores

Yale® cylinders with interchangeable cores allow your master key systems to be flexible. With the special "Control" key any cylinder can have its core interchanged quickly. Any Yale core can be interchanged into any other Yale lock provided it has a interchangeable core. As a result, security for any given lock can be changed in a matter of minutes. Yale interchangeable core cylinders can be used throughout the entire master key system. They can be used selectively within the system along with Yale fixed core cylinders. There are two types of interchangeable cores that are offered by Yale.

1. Large Format (LFIC) - These cores are available in both standard Yale cylinders and also Yale KeyMark® cylinders. Note that standard Yale cylinders and Yale KeyMark cylinders cannot be keyed to the same master key system.
2. Small Format (SFIC) - Yale offers SFIC cores in Yale KeyMark and Best® keyways A, B, C, D, E, F, G, H, J, K, L and M. Best® keyway cores can be provide keyed random, master keyed or uncombined. Yale will provide master keying to new key system only. Systems can be provided using the A2 or A4 pinning specification and can not be tied into any conventional or Yale KeyMark key systems. All cylindrical lock small format preparations and 1-3/8" housings accept either 6- or 7-pin cores.

Yale® KeyMark®

For those applications requiring protected key control, Yale® KeyMark® cylinders guard against unauthorized key duplication. The Yale KeyMark Security Leg® keyway feature increases resistance against picking and impressioning and can easily retrofit into existing systems. Cylinders include mortise, rim, key-in-lever, key-in-knob, auxiliary, and interchangeable core. IC core is available in both large and small formats. All formats can be tied into one master key system.

Security/High Security Cylinders

Yale® security/high-security cylinders contain two independent locking mechanisms. The first is a traditional 6 or 7-pin tumbler mechanism with spool drivers for increased picking resistance.

The second is a 5-tumbler rotating disc mechanism with sidebar engagement. The rotating discs are spring loaded and block the bottom of the keyway. Only a specially cut key will move the discs and allow entrance of the key. This key has a special side biting and must align all five discs perfectly before the cylinder plug will rotate to open the lock.

Door Controls

5800 Series Cast Iron Door Closers

Yale® 5800 Series Cast Iron Door Closers are ideal for commercial applications where ease of use, installation and aesthetics are required at an economical price.

The 5800 Series features rugged construction, adjustments for backcheck, closing and latch speed, rack and pinion operation and a variety of arm options.

Features

- Adjustable spring sizes 1 through 6
- Non-handed
- Cast iron
- Tri-packed: regular, parallel or top jamb mounting
- Adjustable backcheck valve
- Adjustable closing speed valve
- Adjustable latching speed valve
- Full plastic cover
- Spring power adjustment
- Hold-open and heavy-duty arms arm configurations
- Sleeve nuts included with all models
- Optional - Delayed action
- 10-year limited warranty

Compliance Standards

- Certified for ANSI/BHMA A156.4 Grade 1 
- UL and cUL listed. This includes compliance to UL10C.
- Meets requirements for Americans with Disabilities Act (ADA) and ANSI/BHMA A117.1 

4400 Series Institutional Door Closers

The 4400 Series offers customers the ideal combination of superior performance, quality and strength.

Features

- Adjustable spring sizes 1 through 6
- Tri-pack standard (regular arm, top jamb and parallel arm mounting)
- Non-handed
- Standard, separate and independent, latch, sweep and backcheck intensity valves
- 2-3/16" (56mm) projection
- Staked valves
- All standard arm applications allow doors to swing 180°, conditions permitting
- 25-year limited warranty

Optional Features

- Metal cover
- Corrosion-resistant model (specify 4400S)
- Delayed action
- Enhanced backcheck
- Heavy-duty arms available: Regular Rigid, Parallel Rigid, Holder/Stop, Holder/Stop Spring and UNI Stop™
- Slide track – push or pull mounting

Compliance Standards

- Certified ANSI/BHMA A156.4, Grade 1 
- UL/cUL listed
- UL10C compliant for positive pressure
- Meets requirements for Americans with Disabilities Act (ADA) and ANSI/BHMA A117.1 

Door Controls

3000 Series Architectural Door Closers

The 3000 Series offers the perfect combination of reliability, appearance and durability in today's market.

Features

- Adjustable spring sizes 1 through 6
- Tri-pack standard (regular arm, top jamb or parallel arm mounting)
- Non-handed
- Staked valves
- Standard, separate and independent, latch, sweep and backcheck intensity valves
- 2-1/8" (54mm) projection (standard covers)
- All standard arm applications allow doors to swing 180°, conditions permitting
- 25-year limited warranty
- Metal, architectural plastic or architectural metal covers
- Delayed action
- Heavy-duty arms available: Parallel Rigid, Holder/Stop, Holder/Stop Spring and UNI Stop™

Compliance Standards

- Certified ANSI/BHMA A156.4, Grade 1 
- UL/cUL listed
- UL10C compliant for positive pressure
- Meets requirements for Americans with Disabilities Act (ADA) and ANSI/BHMA A117.1 

2700 Series Architectural Door Closers

The 2700 Series features rugged construction, adjustments for backcheck, closing and latch speed, and rack and pinion operation.

Features

- Adjustable spring sizes 1 through 6
- Non-handed
- Aluminum
- Tri-packed: regular, parallel or top jamb mounting
- Adjustable backcheck valve
- Adjustable closing speed valve
- Adjustable latching speed valve
- Full plastic cover
- Spring power adjustment - adjust with adjustable wrench
- Hold-open and heavy-duty arms available
- Sleeve nuts included with all models
- Optional fasteners:
 - Thrubolts and grommet nuts
- Optional - Delayed action
- 10-year limited warranty

Compliance Standards

- Certified ANSI/BHMA A156.4, Grade 1 
- UL/cUL listed
- UL10C compliant for positive pressure
- Meets requirements for Americans with Disabilities Act (ADA) and ANSI/BHMA A117.1 

51 Series Industrial Door Closers

The 51 series is ideal for use with aluminum store front doors and frames, yet they also complement wood or metal door installations.

Features

- Non-handed
- Staked valves
- Standard, separate and independent, latch, sweep and backcheck intensity valves
- 2-7/8" (73mm) projection
- 15-year limited warranty

Optional Features

- Delayed action (in lieu of backcheck)
- Molded plastic cover

Compliance Standards

- Certified ANSI/BHMA A156.4, Grade 1 
- UL/cUL listed
- UL10C compliant for positive pressure
- Meets requirements for Americans with Disabilities Act (ADA) and ANSI/BHMA A117.1 (51BF)

1100 Series Industrial Door Closers

The 1100 Series features rugged construction, adjustments for closing and latch speed, and rack and pinion operation.

Features

- 1101BF (non-hold open) and 1111BF (hold open) door closers are adjustable spring sizes 1 through 4
- 1104BC (non-hold open) door closers are spring size 4
- Non-handed
- Full rack and pinion
- Aluminum
- Tri-packed: regular, parallel or top jamb mounting
- Adjustable backcheck valve
- Adjustable closing speed and latching speed valves
- Auxiliary door stop required
- Sleeve nuts included with all models
- 5-year limited warranty

Optional Features

- Cover (order separately)

Compliance Standards

- UL/cUL listed
- 1101BF/1111BF - designed to meet requirements for ANSI/BHMA A156.4 Grade 1. Door closers meet handicapped requirements for light to medium weight interior doors. 
- 1104BC - designed to meet requirements for ANSI/BHMA A156.4 Grade 2

Door Controls

YDC200 Economy Door Closers

The YDC200 Series is a no-fuss, economical option for aluminum storefront settings and other high volume applications.

Features

- Adjustable spring size 1-4 (YDC201) or fixed spring size 4 (YDC204)
- Tri-packed: regular, top jamb, or parallel mounting options
- Non-handed
- Cast aluminium body and threaded adjustable arm
- Rack & pinion design
- Independent latch, sweep, and backcheck intensity valves
- Available in two finishes 689 & 690
- 5 year limited warranty
- Designed to meet Grade 1 specifications

Electrified Products

Yale offers a range of new and exciting electromechanical products to meet a variety of applications, ensuring a distinct Yale advantage. These products include nexTouch® Keypad Access Lock, alarms and alarmed devices, and electrified mortise and cylindrical locking products. Yale's electrified products incorporate the highest level of security available with the added flexibility and security of remote electrical control. Electrified hardware is ideal for interfacing with access control, security and fire alarm systems.

Electrolynx®

What normally took an hour or more to connect now takes minutes. All Yale® electrified hardware is equipped with Electrolynx® connectors. As a standard feature, these connectors link power from the incoming source to electrified locking products, including hinges, locks, exit devices, magnetic holders and strikes.

Note: Electrified door hardware with Electrolynx® connectors require a compatible hinge.

Mortise Locksets

- Certified ANSI/BHMA A156.13 Series 1000, Grade 1
- UL10B Listed for 3-hour fire-rated openings
- Utilizes 8800 lockset
- Continuous duty integral solenoid
- Available in 12 or 24VDC
- Fail Safe or Fail Secure Operation
- Request to Exit (REX), Latchbolt Monitoring (LBM), Deadbolt Monitoring (DBM) , Integrated Total Security (ITS) options available

Cylindrical Locksets

- Certified ANSI/BHMA A156.2 Series 4000, Grade 1 and 2
- UL Listed
- Utilizes 5400LN, 5300LN or 4700LN lockset
- Free Wheeling lever mechanism
- Available in 12 or 24V
- External rectifier accepts AC or DC voltage
- Mechanical cylinder override
- Fail Safe or Fail Secure Operation
- Request to Exit (REX) option available (5400LN series only)

Mortise And Cylindrical Functions

Fail Safe – Locked when power is on and unlocked when power is off.

Function Description	Mortise Model Number	Cylindrical Model Numbers
<ul style="list-style-type: none"> Power on – outside lever locked Inside lever always free No key override 	8880	4780LN 5380LN 5480LN

Electrified Products

Exit Devices

The Yale® 7000 and 6000 Series Exit Devices offer a complete range of electrical options:

- Electric Latch Retraction
- Electric Dogging
- Mortise Device Trim Control
- Touchbar Monitor or Signaling
- Outside Trim Monitor or Signaling
- Bolt Position Monitor or Signaling
- Delayed Egress
- Electric Trim Control
- Alarm

Electrified exit devices may be integrated into the monitoring security and alarm systems of most buildings.

Exit Device Option Descriptions

A	Alarm Option	O	Trim Monitor
A-ALR	Alarm option with red screenprinted pushpad	P	Latch Retraction
B	Touchbar Monitor	S	Bolt Monitor
D	Delayed Egress	SAFE	Fail Safe Operation (Mortise)
G	Electric Dogging	SECURE	Fail Secure Operation (Mortise)
H*	Security Package (DPS)	690F	Fail Safe Electrified Trim
MELR	Motorized Electric Latch Retraction	691F	Fail Secure Electrified Trim

Note: Any combination of the following options cannot be ordered together:
1) P, G, or D 2) B or A 3) D, B or A
***Only available for rim and SquareBolt® Devices when used with Delayed Egress option.**

*MELR available for 7000 Series only; P available for 6000 Series only

Stand-Alone Door Alarm

The SDA16 stand-alone battery operated door alarm is designed to continually monitor the status of a door. When the door is opened without authorization, an alarm is triggered to alert the security violation. This alarm features a Peizo horn which blasts a deafening 105+ decibels to alert the violation.

This unit is ideal for emergency doors as well as stairwell doors and rear exit doors in retail environments. The unit, which can also be hardwired, easily complements existing hardware, making any opening alarmed. The SDA16 door alarm is typically mounted on the interior of the door frame or door and is paired with a magnet mounted on the opposing side of the door gap.

Remote Mounting

The SDA16 can be installed remotely from the door by attaching the contacts to the door and frame. The unit can be installed up to 6 feet from the door. This provides the ideal solution for circumstances where exposure to weather may be an issue. To order specify "SDA16XL".

Note: Actual wire length is 6 feet.

nexTouch® Keypad Locks

Yale nexTouch locks combine a modern look and innovative access control technology with an array of bold new features, offering an attractive access control solution in many applications. With a heavy-duty design and ANSI/BHMA Grade 1 certification, nexTouch provides durable and reliable security in multiple platforms to a range of commercial facilities including offices, retail and multi-family facilities.

Standalone Keypad

Great for restrooms, offices, storage closets and more, nexTouch as a standalone keypad is easy to install, program, and manage access with PIN codes.

Data-on-Card

In new construction or retrofit projects for multi-family facilities, the data-on-card functionality of nexTouch pairs with Yale Accentra™ software for use with key cards or fobs.

Wireless

The perfect solution for small business, nexTouch allows wireless integration of the lock into new or existing commercial automation systems.

Features

- Choice of capacitive touchscreen or tactile pushbutton keypad
- Ergonomic, easy-to-use design
- Keyless entry and management
- Access with PIN codes
- Voice-guided programming in 3 languages
- Privacy feature with Door Position Switch
- 9V battery power backup feature
- Low battery indicator
- Three volume modes
- Certified ANSI/BHMA Grade 1 **BHMA CERTIFIED**
- UL/cUL listed for use on fire doors
- ADA compliant and decorative levers available
- Optional cylinder/key override – full range of Yale® 6-pin conventional, protected and security cylinders available including large and small format interchangeable core
- Weather resistant
- 3-year limited warranty

Trim

Compatible Exit Devices

Thanks to its patented adjustable mounting posts, Yale nexTouch exit trim is compatible with several makes and models of exit devices right out of the box, without the need for separate mounting hardware. Check the chart below to see if yours is a fit.

Manufacturer	Model/Series Number*
Arrow	3880, S1250
Corbin Russwin	ED5200, ED5200S
Dorma	9300
Falcon®	24, 25
SARGENT	8800
Von Duprin®	98, 99
Yale	1800, 2100, 6000, 7000

*Compatible with rim device only. Please contact Technical Product Support for more information.

Patented adjustable mounting posts make the nexTouch exit trim compatible with many exit device models (see chart at left).

Proudly Supplied By

MicroShield®

As part of their promise to provide innovative solutions to their customers, certain ASSA ABLOY Group brands offer the MicroShield® technology, a silver-based antimicrobial coating designed to inhibit the growth of bacteria.

Microshield® is a registered trademark of ASSA ABLOY Access and Egress Hardware Group, Inc.

The Agion antimicrobial is not intended as a substitute for good hygiene. Coated products must still be cleaned to ensure the surfaces will be free of destructive microbes. ASSA ABLOY makes no representations or warranties, express or implied, as to the efficacy of the Agion antimicrobial. A copy of the Agion warranty is available upon request. Agion is a registered trademark of Agion Technologies, Inc., Wakefield, MA, USA.

THE YALE BRAND, with its unparalleled global reach and range of products, reassures more people in more countries than any other consumer locking solution.

THE ASSA ABLOY GROUP is the world's leading manufacturer and supplier of locking solutions, dedicated to satisfying end-user needs for security, safety and convenience.
