## Feelwood synchronized pore (EIR) on TFL

The EGGER Feelwood range of decors specially designed with multi-layers of papers to create a depth of texture often seen with solid wood. These decors represent the premium category among the 140 TFL decors within the EGGER decorative collection.

## PerfectSense Lacquered panels

PerfectSense lacquered panels are melamine resin coated MDF panels, which are finished in a process matching the surface. Due to the CCI UV coating technology, they clearly stand out from conventional lacquered boards. The surfaces are resistant to micro-scratches and retain their gloss or matte effects.

## End-grain Edgebanding

The End-grain Edgebanding has the look and feel of sawn timber, complete with its annual rings, for a highly authentic result. They are available in several decors chosen for their highly natural wood effect, and perfectly complement the Feelwood textures.
