DECORATIVE COMPOSITE WOOD PANELS (TFL) AND HPL

redefining wood®

2021-2022

2021-2022 Collection: Inspired by movement in nature

Redefined is a launch that celebrates craftsmanship, interior design and color. We at Uniboard® believe that our environments should be a reflection of individuality with the aim to bring joy, stimulate creativity and promote self expression.

Uniboard[®] Textures

FROM SPECIALTY LINEAR 3D TEXTURES TO EUROPEAN HIGH-GLOSS, UNIBOARD TFL COMES IN A WIDE RANGE OF FINISHES THAT CAN MATCH ANY LAMINATE SURFACE.

Brushed Elm

The Brushed Elm finish boasts a luxurious and deep brushed-wood texture. The matte-oiled surface replicates hours of hand-polishing, emphasizing the wood's natural cathedral patterns and crossgrain features.

Nobella

Nobella is an exclusive synchronized deep wood texture crafted by Milan's leading design community. Inspired by Italy's best modern styles, produced here in North America.

Riviera Oak

The Riviera Oak finish is the newest texture created by our Woodprint Duo Technology. Pushing the boundaries of the likeness of a real wood texture, it brings together different circular and linear patterns reminiscent of the elegance of the oak wood grain.

Bistro[®]

The contemporary linear wood grain of this finish accentuates the look and feel of real wood in all its subtlety.

Dolomite[®]

Often called a basic finish, Dolomite offers a medium reflective quality that hides fingerprints and wear over the long-term. It works well with all kinds of projects.

Vellum

Vellum is our newest matte finish highlighted by subtle texturing that enhances both solid colors and woodgrain designs.

Aura

Aura features a complex wood grain and a low-lustre polish that mimics real wood. The soft touch of this finish is perfect for horizontal applications, especially office furniture. It is well-liked for its versatility.

Calico

Mimicking linen fiber, the Calico finish provides all the softness and versatility of a woven material. The subtle crossing of textile fibers accentuates the relief decoration and makes it soft and pliable appearance. While offering the purity of a natural material, Calico is a chic touch that can suit any decorating project.

High Gloss

This smooth, mirror-like specialty finish adds shine to your decor. It lends an elegant and stylish look to any color.

Lyra

Exclusive to Uniboard®, Lyra is the latest in European TFL technology. This finish displays a delicate yet complex layered woodgrain that brings craftsmanship and design to the forefront.

NEW

Omnia

Omnia, Uniboard's newest addition to the most extensive family of exclusive textures in North America, is crafted to display a fine surface micro texture and low sheen. These two qualities lend versatility and a feeling of augmented reality to multiple décors.

Rio®

Linear and 3D, the Rio finish exhibits an authentic and modern brushed surface. Its rich relief pairs perfectly with rustic decors.

Sequoia

The new Sequoia finish is characterized by a deep relief that provides a pronounced 3D visual. The concave and convex remind effects changes in real wood finish make this a true timeless classic.

Supermat®

Playing with depth perception, this smooth matte finish is prized for the light touch it adds to any room.

Recommended uses

KITCHENS | BATHROOMS | RESIDENTIAL AND COMMERCIAL FURNITURE | STORAGE | HEALTH AND WELLNESS CLINICS | HOTELS AND ACCOMMODATION | COMMERCIAL BUILDINGS AND OFFICES - AIRPORTS, SCHOOLS, AND INSTITUTIONS | CARE HOMES AND RESIDENCES | SPAS, GYMS, AND PUBLIC LOUNGES

Uniboard® TFL and HPL are available by special order in all major markets and come in a wide selection of industry grades, sizes and thicknesses. Several complementary products, such as edgebanding and mouldings, are matched with our TFL and HPL colors to help you complete your decorative projects quickly and easily. Our Integra® chart was specifically designed to help you find the perfect product matches.

Uniboard Melamine 101

Uniboard melamine is a composite wood-based panel onto which a decorative paper layer is thermally fused (using heat and pressure) to the top and bottom surface in order to create a durable and decorative panel.

The melamine resins used to bond the decorative paper and panel together are renowned for their unique physical properties including: durability, hardness, scratch and stain resistance, as well as color stability.

Decorative surface characteristics

PROPERTIES	TESTING METHODS	UNIBOARD MEETS TESTING REQUIREMENTS
WEAR RESISTANCE	NEMA LD 3-2005	400 cycles (solid colors) 125 cycles (prints)
APPEARANCE	NEMA LD 3-2005	No surface defects Type A, B or C
STAIN RESISTANCE	NEMA LD 3-2005	1-10 no effect (solid colors) 11-15 moderate (prints)
CLEANABILITY	NEMA LD 3-2005	Max 20
LIGHT RESISTANCE	NEMA LD 3-2005	Slight
HIGH TEMPERATURE RESISTANCE	NEMA LD 3-2005	Slight
RADIANT HEAT RESISTANCE	NEMA LD 3-2005	No effect after 60 seconds
BOILING WATER RESISTANCE	NEMA LD 3-2005	No effect
IMPACT RESISTANCE	NEMA LD 3-2005	381 mm/m
FIRE RESISTANCE	ASTM E-84	Class III or C
WARPING	CPA Annexe D	3 mm/m
FORMALDEHYDE EMISSION	ANSI A208.1.99	<0.04 ppm

Cleaning and maintenance

Maintaining your Uniboard® melamine surfaces to look polished and new is easy. Following production, panels can be cleaned with the help of paint thinner or solvents used for varnish or contact glue. For regular cleaning, use a synthetic soft cloth with soap and water or a non-abrasive household cleaner to gently wipe the area.

Our TFL and HPL decorative surfaces are non-porous, making them an inhospitable environment for microorganisms to grow and live, so that they can be easily cleaned and disinfected repeatedly without damaging their design, beauty, or performance.

Nobella textured laminates innovative finish lends a true to nature feel the surface of the product, due to this aspect Nobella products are comparable to a wood veneer product and should be handled in the same way as a wood veneer material. In cases where the surface of Nobella textured products show scuffing we recommend that a damp melamine foam sponge be used to lightly buff the surface of the laminate and dried with a soft cloth.

For more information on cleaning and maintaining your TFL and HPL, please visit the Uniboard's Documentation Center at www.uniboard.com

The new digital approach to interior design

□ **CREATE** YOUR OWN COLOR SELECTIONS AND INSTANTLY **SHARE** YOUR CUSTOMIZED BOXES WITH YOUR CUSTOMERS. □

Visualize each Uniboard® color and finish from different angles and benefit from unrivalled image quality.

Add an authentic human touch to your virtual meetings by discussing color selections just as if you had real samples in your hands.

Bring your digital box to life. Build your sample order in just a few clicks or by integrating the colors into your 3D renderings.

Transform your customer experience by offering the best visual tool for looking at samples from the comfort of home or the office.

Reduce information overload by creating a more precise and adapted selection of colors. The box is fully integrated with Uniboard's Design 360 digital solution.
