## GENERAL DOOR LOCK INFORMATION

- Baldwin locks (all functions) are packed with six-way adjustable latches and dual strikes (round and square corner).
- Kwikset passage, privacy and entry locks are packed with six-way adjustable latches. Kwikset handlesets and deadbolts are packed with either round corner adjustable latches or square corner adjustable latches.
- Schlage and Dexter handlesets, entry locks and deadbolts are packed with triple-option (also known as six-way adjustable) latches. Schlage and Dexter passage and privacy locks include dual-option (round corner and drive-in) adjustable latches.
- Unless otherwise noted, Weiser handlesets, deadbolts, passage, privacy and entry locks are packed with six-way adjustable latches.
- Stone Harbor handlesets, deadbolts, interior trim packs and entry locks are packed with four-way adjustable latches (round corner and square corner). Stone Harbor passage and privacy locks include a six-way adjustable latch.
- Entry locks and deadbolts that are keyed alike are indicated as KA3 or K3. The number following the letters indicates the quantity of locks in the keyed alike group.
- We can key your lock order. The charge is **\$3.99** per cylinder keyed for regular keying. Master keying is **\$5.99** per cylinder keyed. Key cuts are **\$2.00** and include one key blank.

### DOOR HANDING

Handing is always determined from the outside of the door and depends on the hinges. If hinges are on the right, the door is right-handed. In-swing or out-swing doesn't matter; it's always the hinge side.

### FINISH CHART

Many products have a finish reference.  
Use this chart to identify equivalent finish codes.

Description	BHMA	US/ANSI	Baldwin
Polished Brass	605/632	3	003
Lifetime Brass	505	L03	
Satin Brass	608	4	044
Antique Brass	609	5	
Oil-Rubbed Bronze	613/640	10B	102
Venetian/Aged Bronze	716/643e	11P	112
Satin Nickel	619/646	15	150
Antique Nickel	620	15A	152
Polished Nickel	618		141
Matte Black	622	19	190
Polished Chrome	625	26	260
Satin Chrome	626/652	26D	264
Polished Stainless Steel	629	32	
Satin Stainless Steel	630	32D	
Distressed Nickel	621		
Iron Black		514	
Distressed Oil-Rubbed Bronze			402
Dark Bronze			481
White Bronze			492

Satin is used interchangeably with the terms *Dull* and *Brushed*.

*Nickel (Kwikset)* and *Pewter (Schlage)* are interchangeable.

*In Schlage and Stanley Commercial Hardware, 613 (oil-rubbed bronze) finishes are "living" finishes that will wear with use, revealing a light bronze finish underneath the darker bronze. 716 (aged bronze) and 11P (Venetian bronze) are stable finishes that will not change with use.*

## Schlage Encode™ Smart WiFi Deadbolt

- Built-in WiFi allows you to lock/unlock from anywhere, plus set up guest access codes for recurring, temporary or permanent access when paired with the Schlage Home app or Key by Amazon app, no additional accessories required.
- For additional convenience, enjoy voice commands via Alexa or Google Assistant.
- Create and manage up to 100 access codes for trusted friends and family to use with the fingerprint-resistant, capacitive touchscreen with easy one-touch locking
- Built-in alarm technology senses potential security breaches at the lock
- Low battery indicator offers weeks of advanced warning for battery replacement
- Installs with just a screwdriver. Unique Snap n Stay technology snaps the deadbolt onto the door so both hands are free during installation
- Fits standard doors (1-3/8" to 1-3/4" thick with a 2-3/8" or 2-3/4" backset)
- Comes with limited lifetime mechanical and finish warranty and 3-year electronics warranty
- Certified Commercial Grade 1

# Schlage **Custom**<sup>TM</sup>

DOOR HARDWARE

The Custom line features:

- Concealed screws
- Low profile trim
- Easy installation in minutes - all you need is a screwdriver and the included allen wrench
- BHMA Residential AAA

The Schlage Custom chassis innovatively combines privacy and passage functions into one lock. From bedroom to home office, adapt to the ever-changing life of a room by switching from one function to the other.

The combined interior (FC21) function is factory-configured as a passage lock by default. Upon installation, if you do not install the privacy pin (which is included in every package), the lock will remain as a passage function. You can save the privacy pin to convert the lock from passage function to privacy function at a later date, and even back again.

To configure the lock to operate as a privacy function, simply install the privacy pin. When the lock is a privacy function and locked, rotating the inside knob or lever will auto-unlock the door. You can also use the Emergency Unlock feature. To change from privacy (bed/bath) to passage (hall/closet) function, simply rotate the privacy pin to the left 90 degrees and pull it out of the lock. Be sure to save your privacy pin.

Create a customized look with Custom Service sliding door hardware. Choose your hardware set and track length. Each set includes all of the hardware necessary for a single-door setup on a 6' track. 8' tracks require an additional track bracket of the appropriate length. CSH sliding door hardware is rated for 250-pound doors (per pair of rollers).

**To order:**

## American-Made Rolling Barn Door Sets

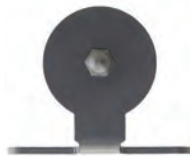

1. Choose your hardware set.
2. Choose your track length (listed on the following page). **Note:** 8' track lengths require an additional bracket (not included with hardware set).
3. Add a 1/4-20 NC HCS tap if you don't have one. (It's used to thread the ends of the track for the rail end caps.)

## Electric Strikes

**CS Series**

**MS Series**

**RS Series**

**CS Series (for use with cylindrical locksets)**

- Low profile
- Field selectable fail-safe and fail-secure (fail-secure default), with simple and easy screw reversal
- Mounting tabs included for aluminum frame installation
- Includes radius and square edge stainless steel faceplates (4 7/8" x 1 1/4")
- Field selectable 12/24 VDC
- Voltage spike suppressor included
- Suitable for rain or dusty environments

**MS Series (for use with mortise locksets)**

- Heavy duty design with vertical adjustments for flexibility
- Field selectable fail-safe and fail-secure (fail-secure default), with simple and easy screw reversal on non-fire rated models
- Included trim piece for installation flexibility
- Mounting tabs included for aluminum frame installation on non-fire rated doors in non-fire-rated applications
- Five stainless steel faceplates included for optional flexibility (4-7/8" x 1-1/4" with differing cutouts)
- Field selectable 12/24 VDC
- Built-in voltage spike suppressor included
- Suitable for rain or dusty environment

**RS Series (for use with rim exit devices)**

- Surface mounted for easy installation
- Slotted mounting holes for increased adjustment flexibility
- Multiple spacers included for easy installation
- Field selectable fail-safe and fail-secure (fail-secure default), with simple and easy screw position change, non-fire rated models
- Field selectable 12/24 VDC

# Commercial Door Handing

## Commercial Hardware Glossary

### Backset

The distance from the edge of a door to the center of the hole drilled for a lock.

### Closer functions

#### Barrier Free

Considered an ADA-compliant closer. Has a spring tension between 1 and 4.

#### Hold-Open

A closer that holds the door in the open position (typically at 90°).

### Deadlatch

The latch for a locking / keyed lock.

### Exit Device / Panic Bar

A door locking device that allows instant exit by pressing a cross bar that releases the latch. Also known as an exit device.

#### Glass Bead Kit

Used to shim exit devices off the face of doors with raised glass beads.

#### SVR

Surface vertical rod. Latches the door at the top and bottom of the door, instead of at the center.

### Hinges

#### Ball Bearing

A hinge with ball bearings between the hinge knuckles for reduced friction.

#### NRP

Non-removable pin hinge. A hinge with a set screw in the barrel that prevents someone from removing the hinge pin.

#### Plain Bearing

A standard hinge (without ball bearings) in the knuckles.

### Knurled / Knurling

Texture applied to hardware for safety reasons

### Lock functions

#### Classroom

Outside lever / knob is locked and unlocked by key. Inside lever / knob is always unlocked.

#### Communicating

Blank plate on one side with non-locking lever on the other side. Lever is always active.

#### Entrance / Office

Outside lever is locked/unlocked with a key on the outside or the push button on the inside. Rotating the interior lever or using the key unlocks the door.

#### Passage (Hall / Closet)

Non-locking. Latch is operated by rotating the lever / knob on either side of the door.

#### Privacy (Bed / Bath)

Locked with a push button or turn button on the inside. Unlocked by either turning the lever / knob or by turning the interior turn button.

#### Storeroom

Outside lever is fixed. Entrance by key only. Inside lever is always unlocked.
