The Kebony Deck Board

 **In Stock in the USA**

The Only 4-in-1 Wood Decking Profile

The Kebony Deck Board is the most versatile wood decking profile on the market. We've engineered a profile that can be fastened in four different ways, making it easy to secure your surface decking according to your needs without added milling or lead time. Whether you want to fasten through the face of the board, plug, use hidden fasteners or the patented Step-Clip™ for Kebony system, the Kebony Deck Board is ready to go.

- 30-year, non-prorated warranty against rot
- 50-75 year expected life span as decking
- No maintenance required
- Evenly fades to silver-gray patina when left unfinished
- End-seal wax not needed or recommended

5/4x6 Kebony Deck Profile (#2637)

Actual Dimensions: 7/8" x 5 1/2"

Lengths: 10', 12', 14', 16'

#2637

5/4x6 Kebony Deck One-Sided Profile (#2638)

Actual Dimensions: 7/8" x 5 1/2"

Lengths: 14'

#2638

Step-Clip™ for Kebony

Step-Clip™ for Kebony uses easy to install strips to minimize the time and labor spent fastening your deck. The Step-Clip reduces deck surface installation time by up to 50% and ensures proper spacing, protects the joist from water damage, and makes it easy to replace a board in the future if necessary.

HIGHLIGHTS

- Fastest of the four install options
- Step-Clip™ strip doubles as joist protection
- Automatic and consistent deck board spacing
- Easy board replacement

Fastenator™ Hidden Fasteners

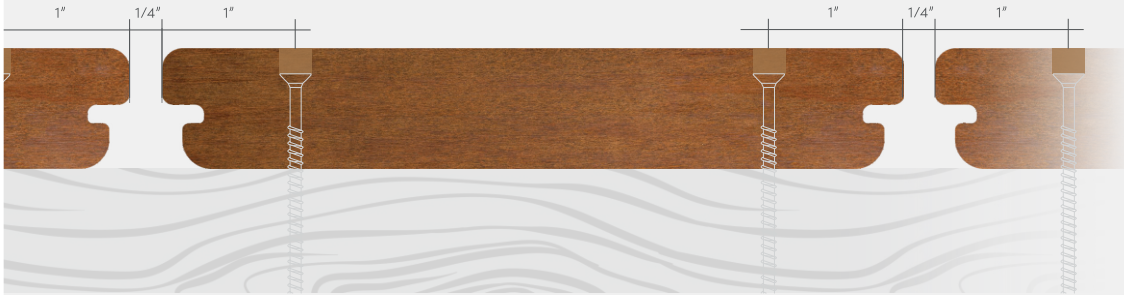

Hidden fastener clips are a great way to secure your deck without screwing into the board's face. Our Kebony Deck Board is compatible with the Fastenator™ Hidden Fastening system by DuraLife®.

HIGHLIGHTS

- Automatic deck board spacing
- Works great for diagonal and herringbone deck patterns
- Ideal for resurfacing and/or out of square framing
- Stainless steel screws are pre-loaded in clip for quick and easy fastening

Pro Plug® System for Kebony

If you prefer the positive lateral connection of fastening through the face and still want a smooth, uniform surface, then using the Pro Plug® System with Kebony wood plugs is the best option. The Pro Plug® System by Starborn® is the fastest plug option on the market today, and Kebony wood plugs are designed to work seamlessly with the system.

HIGHLIGHTS

- Hidden fasteners with face fastened strength
- Plugs made from actual Kebony face grain, so they perfectly match the surface
- Patented Pro Plug® Tool pre-drills and counterbores simultaneously for a perfect fit
- Kebony Kits include screws, plugs, glue nozzle and drill bit (Pro Plug® Tool and glue sold separately)

PRO TIP: Keep screws at least 1" from the end and edges of the boards.

Face Fastened

When securing your surface decking using traditional methods, you can use stainless steel screws through the face of our Kebony Deck Board. We recommend placing the screws 1" from the edge of the board.

HIGHLIGHTS

- Ensures a secured board to the joist

PRO TIPS

- Pre-drill holes prior to fastening
- Use Stainless Steel Screws
- Keep screws at least 1" from the end and edges of the boards.
- Make sure screws are flush with top of the deck board to maintain a smooth and safe surface

Fastener Comparison

Fastener	Quantity	Joist Span (Inches on Center)	Coverage (sf approx.)
Step-Clip™ for Kebony	25 Pack	16	50

2x6 Boardwalk Decking

Kebony Clear is perfect for high traffic areas like boardwalks and docks. With larger available dimensions and enhanced stability, choosing Kebony will ensure your project will withstand heavy use for decades; maintaining strength and beauty as it patinas to a silver-gray over time. Kebony's boardwalk product is the go-to for award-winning outdoor spaces across the country, including The Wharf in Washington D.C., and New York City's Hunter's Point South and Pier 26.

2x6 Square S4S E2E (#2522)

Actual Dimensions: 1 1/2" x 5 1/2"

Lengths: 10', 12', 14', 16'

Appearance

All Kebony woods have a deep brown color that will turn to a silver-gray patina over time. The speed of this graying process depends on the intensity of exposure to environmental elements like the sun and rain combined with the type of application.

Kebony Clear RAP products are produced from FSC®-certified Pinus Radiata with clear surfaces and are uniformly treated throughout the board. They can be further machined as any other hardwood.
