THE LANDING PAD

Multi-functional space
reinterpreted

VENEER: NATURE'S ORIGINAL DECORATIVE SURFACE

How real wood veneers
are making a comeback

ADDING DEPTH TO THE DETAILS

Adding scale and dimension
to design features

INSPIRE

The Landing Pad

The Renovation, from an existing 1960s bungalow to a fresh, modern home was driven by the desire for a flexible, multi-functional landing pad for the client: a young design-savvy family. It is one of those projects that takes your breath away the first time you see it. The marriage of the materials including 44' of kitchen cabinetry featuring Decospan's Shinnoki provided by Hardwoods Specialty Products into this award-winning kitchen is both sublime and one of the key background elements to the landing pad island.

Project: Landing Pad Kitchen Design
Architect: Sector Architecture + Design
Builder: Harris Builders
Engineer: Wolfrom Engineering
Product: Shinnoki Mystery Oak
Awards: 2019 Sub Zero Wolf Award
Best kitchen design in Western Canada

**REVIVING
NATURE'S
ORIGINAL
DECORATIVE
SURFACE**

Respected, Repurposed & Upcycled

Revive old materials and give them a new lease of life, while respecting the past. This is the true spirit of the upcycling. Oak beams which have been used in the railway system for many decades are now processed into veneer with a rich past and warm look. Character can only come naturally in spite of technology and the attempt to reproduce it. The depth, iridescence, subtle or dramatic variations of grain and color add purpose and meaning to a space. DesignOneSource offers a total solution of prefinished real wood veneer surfaces including panels, veneer laminates and edgebanding.

**ADDING
DEPTH TO
THE DETAILS**

Add scale and dimension to features using modern engineered materials. Specify a mitre fold edge so your millworker can machine a v-groove and fold a 3/4" thick panel to create any thickness. Adding mass to elements has never been easier.

SURFACE SCENE is a quarterly publication and is published by DesignOneSource.

DesignOneSource is the Specification Division of Hardwoods Distribution Inc. (HDI), representing products from Rugby Architectural Building Products, Hardwoods Specialty Products, and Paxton Lumber. HDI has aligned leading global suppliers and front-of-trend products, providing architects and designers with an unmatched decorative surfaces offering and comfort in the knowledge that they adhere to the highest environmental standards. DesignOneSource gives architects and designers access to design inspiration, trends, vendor coordination, training and technical product support. The DesignOneSource team is seamlessly integrated with the North American-wide material supply network of HDI's 66 distribution centers to ensure the material fulfillment of residential and commercial projects of any scale.

HDI is built around renewable and recyclable resources. As North America's largest Architectural Building Products distributor, it is active in its efforts to minimize its environmental impact in addition to providing products recognized for contributions to sustainability.
