Welcome to Rugby Phoenix

With annual revenues approaching \$700 million, we are America's leading wholesale distributor of specialty building products used principally in the commercial, industrial, retail, residential, and institutional construction markets. Core offerings include plywood, lumber, composite panels, solid surface, laminate, passage doors, mouldings, hardware, veneer and edgebanding. Value added services range from custom milling and cabinet components to door pre-hanging and panel pre-finishing.

Take a tour of our facility

by watching a short video clip

America's Leading Distributor

For over 20 years Rugby Architectural Building Products has been a market leader in Phoenix, Arizona where we are the primary source for hardwood plywood, lumber, TFL, solid surface and composite panel products.

Why make Rugby your supplier?

Rugby is proven reliability. Rugby is committed to fulfilling its promise to supply high quality products, competitively priced and delivered in a timely manner by industry professionals who know the value of exceptional service.

Wood Solutions

DECOSPAN®

Wood Solutions

With a production capacity of 8,000 boards a day, Decospan is Europe's market leader in veneered materials. Their unique high pressure, low temperature pressing procedure guarantees the highest quality results in three available grades:

Architectural

Cut from uniform, unblemished logs with an attractive design and pattern structure processed for their visual quantity. Panels are sequenced and umbered to ensure maximum grain continuity.

Classic

This variant allows a number of characteristics that are specific to the wood but are in no way disruptive to the appearance. Numbered sequences will be shorter than those found in Architectural.

Commercial

Economically priced, these panels have a less regular structure with color nuances, smaller series, and more knots.

PlyClear

PlyClear® is Mt.Baker Products' exclusive formaldehyde-free resin

Mt.Baker's Soy Based Adhesive eliminates added urea formaldehyde from veneer core and NAF composite hardwood plywood panels. From manufacturing to the consumer, all will have peace of mind knowing that Mt. Baker Products' PlyClear panels are the healthy and environmentally sound choice.

- ➔ Mt .Baker Products PlyClear® panels are available exclusively through Rugby Architectural Building Products in Phoenix, Arizona
- ➔ Mt.Baker Veneer and MDX Cores
 - ➔ Veneer 5/32" – 1-1/2"
 - ➔ MDX 3/8" – 1-1/2"
- ➔ NAF PBC and MDF Cores
 - ➔ PBC 1/2" – 1-1/2"
 - ➔ MDF 5/32" – 1-1/4"
- ➔ Panel Dimensions
 - ➔ 4' x 6', 4' x 7', 4' x 8',
 - ➔ 4' x 10' (1/2" Oversize)

EnStron

Environmentally Strong

- FSC® Certified
- CARB Exempt
- ECC Eco Certified Composite
- Formaldehyde Free
- Moisture Resistant
- Fire Resistant - Class 1 (A)

EnStron Industrial is made from 100% pre-consumer recycled wood fiber, and no added formaldehyde. Manufactured in Post Falls Idaho, the board is produced from western softwood fiber, and environmentally sound pMDI resin. It combines the machinability and workability of pine and other whitewood species with the most environmentally sound resin technology in the composite panel industry.

Our particleboard provides a high quality standard and demonstrates our commitment to sustainability and indoor air quality. EnStron industrial particleboard is the ideal choice for office and residential furniture, kitchen and bathroom cabinets, shelving, and door core.

Plummer Forest Products was born from a rich heritage and love for the forest products industry. The “can do” attitude of more than 70 people working as a tight knit team, make Plummer Forest Products a flexible and unique company, always striving to improve, one breakthrough at a time.

UV Finished Hardwood Plywood Panels

- Panels are finished on our state of the art UV line, utilizing our TuffCoat UV finishing system
- Our UV line can accommodate panels up to 5' wide and 10' long and 1-1/2" thick
- Our UV finish is durable, cost effective and environmentally friendly, with virtually no emissions
- Birch, Maple, Oak, Alder, Cherry, Beech & many other species in stock
- Wide variety of grades and cores available
- We offer clear finish in different gloss levels, custom tinted finish, and graphic friendly finish
- Available substrates include FSC[®], NAUF, NAF and CARB II
- The panels are used for Kitchen & Bathroom cabinets, Drawer components, shelving, doorskins, store fixtures, displays and many other applications
- Cut to size and edge finishing available
- Custom drawer size programs available

MDF & HDF

We manufacture plywood products to various grades, dimensions and performance standards appropriate for a wide range of customer end-uses. We use mainly inland Douglas fir and Western larch due to their ability to produce fine grain and smooth faces. Controlling quantity from raw materials to finished products allows us to build custom plywood that meets precise customer expectations. From Marine Grade to our proprietary HDF Ultra-Core™ laminating panels, we engineer our softwood plywood for maximum value.

Marinedeck

Designed for rigorous marine use with plugged “CP” faces.

Marinetech

High integrity, composed cross-bands with minimal core gaps and superior “B” & better faces.

Ultra-Core HDF

Features High Density Fiberboard surfaces fused to a solid core of Industrial Grade Softwood Plywood.

When it comes to value, what really counts is not how much the MDF costs, but how much it costs to use.

Weyerhaeuser Glacier Green™ High Density Machining Grade is ideal

- Thermo-Foil Lamination
- Heat/UV-Cured Dry Coatings
- Water & Solvent-Based Paints
- Thickness 0.375” – 1.00”

Plywood & MDF

PotlatchDeltic Precision Core™ Plywood

Our Precision Core panels are manufactured with onepiece composed veneer, virtually eliminating core voids and gaps and removing the large open defects often hidden in the cores of other panels. Core composers, wood boat patchers, automatic layup lines, and six-head sanders give us the flexibility to produce panels that meet the exact specifications for such end uses as:

- ➔ Material handling
- ➔ Recreational vehicles
- ➔ Laminating
- ➔ Agriculture bins
- ➔ Truck bodies
- ➔ Marine industry
- ➔ Concrete forming
- ➔ Furniture framing

Panels

Patrick's Industrial brands support commercial builders and home centers all over the U.S. with an extensive range of high-quality, factory-direct materials and one-stop-shop design and development expertise.

Ask your Rugby sales representative about Patrick Industries key products such as rolled melamine and drawer sides.

MELAMINETEX
DECORATIVE BOARD

MELAMINETEX is characterized by being a board covered on both sides by decorative papers, saturated in resin and thermally fused under heat and pressure to the indicated substrates: particle boards and MDF, which give a variety of color and designs with or without textures, offering a product of high strength and durability.

All our textures complement our traditional portfolio (wood and solid), generating new appearances and aesthetics to each one of its environments, kitchens, offices and other areas, guaranteeing spaces adapted to the most avant-garde decoration trends.

An industry-recognized leader in UV finishing, painting, and staining

Decoboard's capability springs from modern high-speed machines that use the latest in coating technology. UV (Ultra-Violet) cured finishes are widely regarded as the hardest-working coatings available, and Decoboard makes it easy for you to take advantage of this incredible technology. Our vast capability and automation allows us to complete up to 3,000 4x8 faces in one shift, creating cost savings that would not be possible by any other method.

UV coatings provide environmental benefits as well. Our UV coatings are virtually 100% solids; the coating stays on the panel, and does not enter the atmosphere.

There are no solvents carrying harmful VOC's (volatile organic compounds), and no added formaldehyde. Most traditional finishes have less than 30% solids, meaning 70% or more of the product will evaporate. In addition, UV coatings applied by roll coater have 100% transfer efficiency; unused coating returns to the container to be cycled through the system again.

Decoboard's finishing process easily passes the requirements for LEED; contact us for more details.

- ◆ Cost-efficient (100% solid - 99.9% transfer) instant cure-photochemical reaction that produces a consistent, hard finish without VOCs or Added Formaldehyde
- ◆ Stain, fill, seal, UV tint, and topcoat substrates from 5 to 80 sheen
- ◆ Proprietary flexible coating solutions for loose veneers

Wilsonart Engineered Surfaces offers hundreds of kitchen countertop designs and bathroom vanity surfaces to choose from, including woodgrains, abstracts and solids.

Wilsonart laminate designs are available with a number of premium finish options: traditional matte, glossy finishes, and abstract textures.

Wilsonart's enhanced antimicrobial protection is built into the laminate to protect the surface against damaging microbes. Antimicrobial agents protect the surface against growth of mold and mildew that cause stains and odors when used for countertops and work surfaces.

SOLICOR™

Wilsonart® SOLICOR™ is a specialty laminate created with a solid color core that lets you design visually crisp and stunning spaces by eliminating the disruptive brown line at the edges.

Chemsurf®

Specifically designed for environments where chemicals and harsh cleaners are used, Wilsonart® Chemsurf® provides exceptional chemical resistance without sacrificing design or style. Available in Matte finish.

Decorative Metals

Wilsonart® Decorative Metals collection is the high-tech hybrid of industrial flair and sophisticated design. Whether used for vertical applications or as an accent to countertops, the Decorative Metals line is surprisingly adaptable and a virtually unbreakable addition to any commercial project.

[CLICK TO VIEW BROCHURE](#)

[CLICK TO VIEW BROCHURE](#)

Adhesives

The Wilsonart Adhesive product line includes solventbased and water-based contact adhesives, PVA-type white glues, wood glues, solvents, cleaners and custom colored matched caulk for Wilsonart® Laminate, Wilsonart® Solid Surface and Wilsonart® Quartz designs.

Contact

Wilsonart® Contact Adhesives are specifically formulated for use with High Pressure Laminate. With outstanding bond strength and high heat resistance. These contact adhesives are the perfect choice for your countertop, fixture or panel.

PVA

Wilsonart's lineup of poly-vinyl acetate (PVA) adhesives and specialty products are sure to meet the needs of any laminating or woodworking operation.

Solvents and Cleaners

Whether you choose a solvent to clean your equipment or one of our cleaners to remove adhesive residue from the decorative surface, Wilsonart® Solvents and Cleaners will do the job right.

Specialty

Wilsonart® Color-Matched Caulk is a high-quality sealant formulated to color match Wilsonart® Laminate, Solid Surface, Quartz and other hard surfaces.
