Where Inspiration and Design Meet Supply

Offering high quality lumber by maximizing economic, social and environmental sustainability makes Yukari a leader in North American hardwood lumber. Yukari has medium texture and straight grain; being plantation grown, there are fewer knots than lumber from natural strands.

- Red Grandis is used exclusively in Yukari
- Non sanded
- 30 years expected lifespan without treatment
- Janka Hardness 881 lbs
- Class B fire rated and Cal Fire WUI approved (Cladding)
- FSC® certified
- Kiln dried for stability
- Available sizes: 1x4, 1x6, 1x8, 1x10

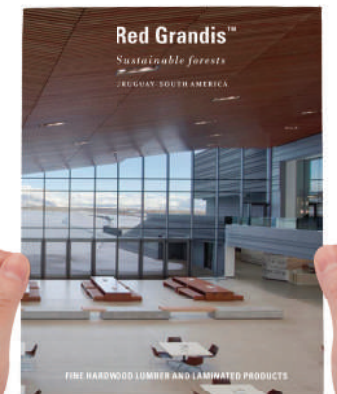

Red Grandis is known as the hardwood of the future – it is a versatile wood and 100% FSC certified. Grown in Uruguay in former pasture lands, the first Red Grandis trees were planted decades ago, bringing added value to the ecosystem and the local economy. Similar to Genuine Mahogany in weight, strength, density and grain structure, it is lighter in color, and easy to cut and finish which makes it an eco-friendly alternative to Beech, Mahogany, and even Walnut for indoor and outdoor furniture.

- (WDMA) Rot resistance test = Exhibits excellent decay resistance
- Red Grandis = Class 2 durability, up to 30 years without treatment
- Very stable and great workability
- Sustainable alternative to Mahogany, Teak and many tropical species
- Trouble free lumber for millwork operation
- Few defects
- Best consistency in color, quality, and grade
- Less prone to cupping, warping, and twisting
- Takes stains and paints very well

Sizes: Multiple lengths available (Please contact us for specific sizes)

Batu Hardwood

THE NATURAL CHOICE FOR VALUE AND QUALITY

Batu Decking is ideal for many installations providing customers long-lasting durability and visual appeal with minimal maintenance efforts. Fine landscape architecture demands the highest quality materials. Professionals enjoy working with Batu hardwood decking because of its high quality and remarkable consistency.

- Surfaced 4 sides with radius edges
- 25 year warranty
- Expected life span 50+ years
- Janka hardness 2100 lbs
- Low maintenance
- Kiln dried for maximum long term stability
- Insect resistance
- Rot resistant
- Available sizes: 1x6, 5/4x6

Sizes: Multiple lengths available
(Please contact us for specific sizes)

Ipe

NATURE'S ANSWERS TO LUMBER

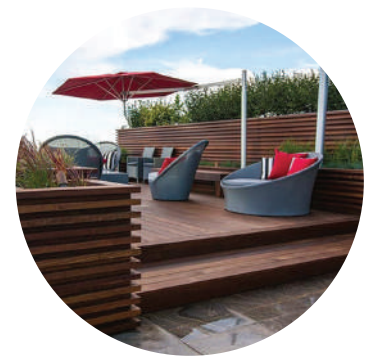

Ipe has a rich dark brown color with distinctive grain characteristics. It can be oiled or stained to retain its beautiful color, or left untreated to gradually age to a lustrous silver-gray. Ipe decking contains no harmful chemicals and can be used near water with no worry of contamination. It is naturally resistant to decay, wet conditions, and infestation of termites along with all other wood boring insects.

- Surfaced 4 sides with radius edges
- Class A fire rated
- 25 year warranty against rot
- Environmentally sustainable
- Janka Hardness 3680 lbs
- Resistance against wood destroying pests
- Available sizes: 1x6, 5/4x6, 2x4, 2x6, 2x8, 4x4

Sizes: Multiple lengths available

NATURAL WOOD MADE TO LAST

MODIFIED LUMBER

WOOD MADE FOR LIFE

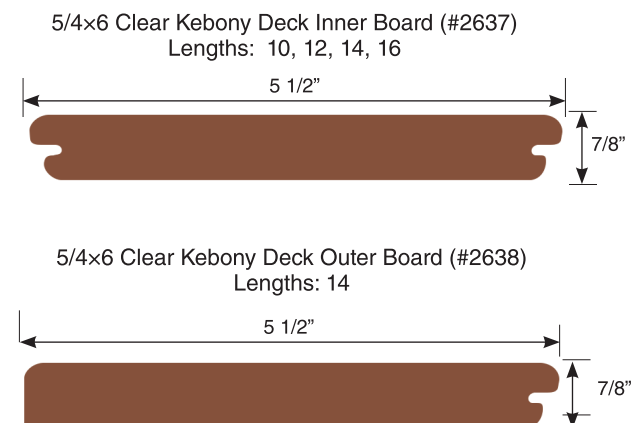

Kebony's decking and cladding products are sustainable and durable. It requires no maintenance beyond normal cleaning. Kebony's technology is an environmentally friendly patented process, which enhances sustainable radiata pine with a bio-based liquid resin. This process modifies the wood cell walls giving premium hardwood characteristics and a rich brown color. This richness can be maintained with a clear coat or it can patina naturally into a beautiful silver-gray color.

- Pre-Sanded
- Surfaced 4 sides
- 30 year warranty against rot
- 50 - 75 years expected life span as decking
- Janka hardness test: 1618 lbs
- Class B fire rated
- No maintenance required
- FSC® certified
- Has no harmful effects on the environment
- High resistance against wood destroying pests

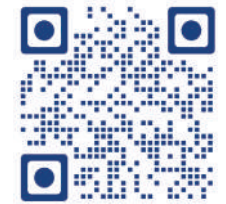

Four fastening options available: Step-clip™, Fastenator™ hidden fastener, Pro Plug® system and face fastened.

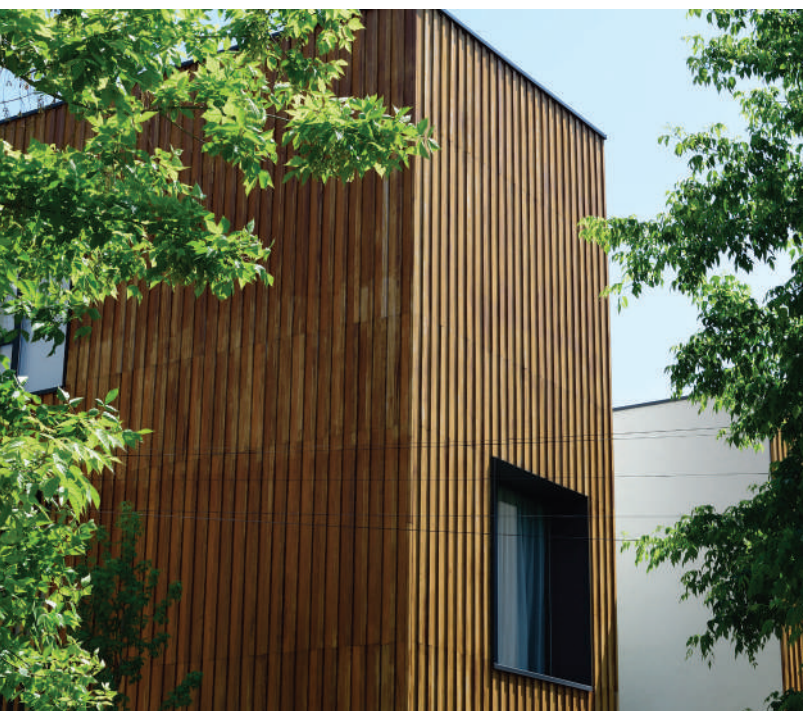

Modified Lumber is 100% sustainable Radiata Pine modified by impregnation of resin and is then kiln dried and cured. The end result is a product that acts like a hardwood. Hardworking, durable and stable.

- Superior machined finish, minimum sanding required
- Resistant to rot and fungal decay
- Free from knots and minimal visual defects
- Density through modification is increased
- Janka Hardness 792 lbs
- Class A fire rated
- Increased dimensional stability
- High resistance to termites attack
- Consistent color
- pH neutral

Sizes: Multiple lengths available
