

PERFORMANCE DOOR SYSTEM

64%

**BETTER AT KEEPING
AIR AND WATER OUT**

than the leading competitor

MASONITE®

Close with Confidence

Every Masonite® exterior fiberglass door with our 4-Point Performance Seal is 64% better at keeping air and water out than the leading competitor. That means homeowners get better protection from the elements and enhanced energy efficiency. Performance you can count on not only means happier customers, but also fewer callbacks and claims, saving you the time and money spent on costly replacements.

Built to Last with Fiberglass

The Masonite® Performance Door System provides durability and longevity with premium fiberglass doors that don't rot, warp or crack, making them low maintenance and virtually weatherproof. These doors are supported by frames that never rot, mold or swell, and that are resistant to both the heat and cold.

The Difference Is in the Details

Our 4-Point Performance Seal sets the Masonite® Performance Door System apart from the rest. It's made with Endura components, too, for superior energy efficiency, performance and comfort.

4-POINT PERFORMANCE SEAL

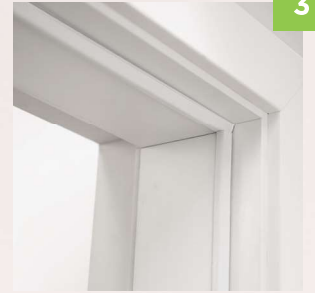

SQUARE EDGE DOOR

Square edges are standard on all our fiberglass doors and fit perfectly into the frame. Other manufacturers have proud edges, which create gaps.

ENDURA Z-ARTICULATING CAP SILL™

Our sill provides advanced protection from leaks, drafts, sand, dust and debris. When conditions change, it automatically adjusts.

ENDURA PE650 WEATHERSTRIPPING

Made to snap back into shape when bent or twisted, this high-end, low-wick memory foam weatherstripping stops both air and water in its tracks.

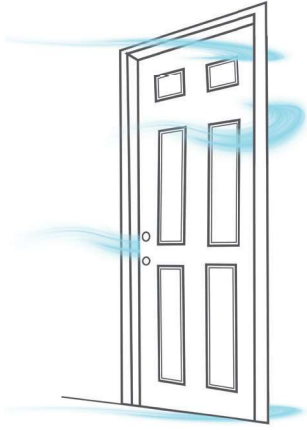

ENDURA SIMPLE SOLUTION® CORNER PADS

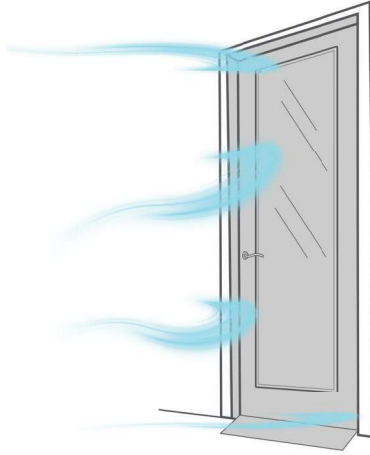

These corner pads are designed to stop upward water pressure driven by wind and form a tight seal between the door and its frame.

An Edge Above the Rest

When tested,* our system performed better than the leading competitor, which is good for business and homeowners, too.

THEIR DOOR

OUR DOOR

Masonite® Performance Door System withstood:

51.3 mph wind

8" of rainfall per hour

The leading competitor did not.

THEIR DOOR

OUR DOOR

Masonite® makes protecting your customers' homes and doors easy thanks to our 10-year replacement warranty.

10-Year
Replacement Warranty

From Day Zero — On

Ultimate performance doesn't start when your homeowners move in. It starts at installation. During development, we kept builders in mind. That's why you'll notice our all-in-one system includes a threshold cover and a new-and-improved Z-Articulating Cap Sill™.

EASY TO INSTALL

Success is simple with the Masonite® Performance Door System. First, install. Then, outperform. Our system comes with everything you need. All you have to do is prepare your rough opening and subfloor and you're ready to go.

PROTECTED DURING CONSTRUCTION

This piece fits perfectly over the threshold and provides a secure grip to the sill, protecting it from scratches, scuffs, dents and damage during construction.

MADE TO KEEP WORKING

Endura's self-adjusting Z-Articulating Cap Sill™ improves the installation process and long-term performance. It's designed to deliver the highest level of protection against air and water intrusion — withstanding it all.

Performance Meets Style

With a variety of options, from modern to traditional, find the perfect design for any home.
