Primed
& Ready

PRM 4102

Features & Benefits

- Customizable
- Dependably Secure
- Timeless
- Sustainably Made
- Engineered Wood Core
- Superior Sound Reduction
- Durable for Decades

Woodgrain has Expanded its Flat Panel Express Ship Program to Include 8ft Doors.

Woodgrain Doors are manufactured upholding the industry's highest standard of authentic stile and rail construction. The Primed Flat Panel doors have a MDF face over engineered wood stile and rail components with solid MDF panels, the foundation for a high quality smooth finish for superior paintability.

In addition to our stock items, Woodgrain has thousands of other primed doors, in both flat and raised panel options, built to order in 3-4 week lead time at our Nampa facility.

Moulded Skin vs Stile & Rail Primed
Not All Doors Are Created Equal

Moulded Skin

Cheap Construction

Limited Model Options

Limited Size Options

Light Weight

Easily Damaged

VS

Stile & Rail Primed

No Cardboard

Sustainable Lumber

Improved Privacy

Sound Reducing

Superior Paintability

Strong & Durable

Solid MDF Panel

Repairable

Designed for years of heavy use

All These Features at a Low Cost

Similar Price.
Superior Value.

Not all doors are created equal – Woodgrain doors are crafted with a superior focus on quality and design. Woodgrain stile and rail primed flat panel and raised panel doors have countless features and benefits far superior to any moulded skin door on the market. Woodgrain's expertise in stile and rail manufacturing brings all these great benefits of a true stile and rail primed door at a price that is competitive with the inferior moulded doors – the choice is simple – ask for Woodgrain primed stile and rail doors today!

Construction Comparison
Moulded Skin vs Stile & Rail

Empty space filled with foam, or cardboard or wood gridding

Moulded door face

Thin wood edge frame

Solid MDF Panel

Sharp, Crisp, Lines & Corners

Engineered Wood Stiles & Rails

MDF overlayed Stiles & Rails for smoother primed finish.
