RIVER CITY MILLWORK

River City Millwork is a leading Midwest distributor of high-quality doors, windows, and millwork. Our extensive selection of doors can be customized to suit your specific requirements. Additionally, we carry a diverse line of door components, hardware, mouldings, millwork, columns, stair parts, and adhesives. Our partnerships with reputable manufacturers allow us to distribute quality products.

Since 1990, our philosophy has been to consistently provide quality products, competitive pricing and on-time delivery. River City Millwork continues to make a conscious effort to help businesses carry out their projects. We are committed to providing our customers the highest level of customer service, professionalism, and sincere allegiance.

Our high level of craftsmanship and finishing standards combined with our ability to integrate a variety of innovative manufactured brands make us a complete one-stop solution. River City Millwork is a division of America's leading distributor, Rugby Architectural Building Products.

MODERN STYLE

Modern style doors consist of clean lines, minimal decoration and purposeful materials.

Elevate your home by adding a sleek focal point.

Symmetric Panel Designs

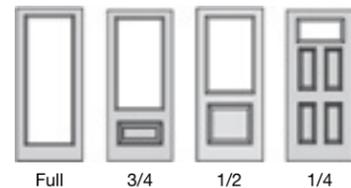

CLASSIC STYLE

Classic style is well-balanced elegance inspired by historic details.

Create a grand entrance with doors that serve as architectural statements.

Symmetric and Decorative Panel Designs

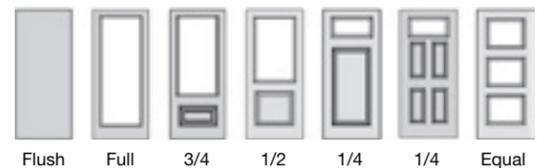

TRADITIONAL STYLE

Traditional style is a versatile mix of modern and traditional elements.

Minimize details for a simple, yet sophisticated feel.

Symmetric and Decorative Panel Designs

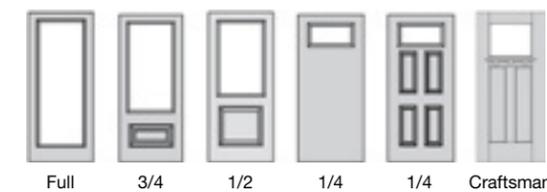

CRAFTSMAN STYLE

Character, authenticity and artisan details that reflect heritage and quality.

Wood and wood-textured doors add warmth while shaker-style panels convey craftsmanship.

Simple and Geometric Panel Designs

FIRE RATED / ADA / STC

Fire Rated

We offer 20- and 90-minute fire-rated doors with the same on-trend architectural characteristics of our steel portfolio.

ADA

Available in various steel and fiberglass designs and with 10" bottom rails.

Sound Transmission Class (STC)

STC doors are used to alleviate unwanted noise by reducing sound energy transferred through door openings.

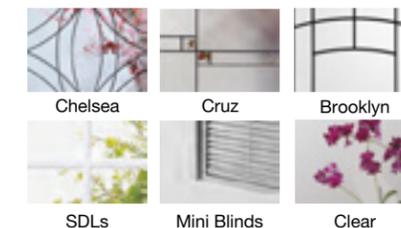

GLASS DOORS

Brighten up your home by introducing beautiful front and back doors with glass.

Decorative glass can be configured for many different shapes and sizes.

Popular Glass Options

MASONITE FAST-FRAME

Developed and manufactured exclusively for Masonite by Timely®, Fast-Frame features a full 1" of adjustability to accommodate almost any variation in wall construction.

Fast-Frame is engineered to meet the most stringent code requirements including structural, impact and 90-minute fire ratings.

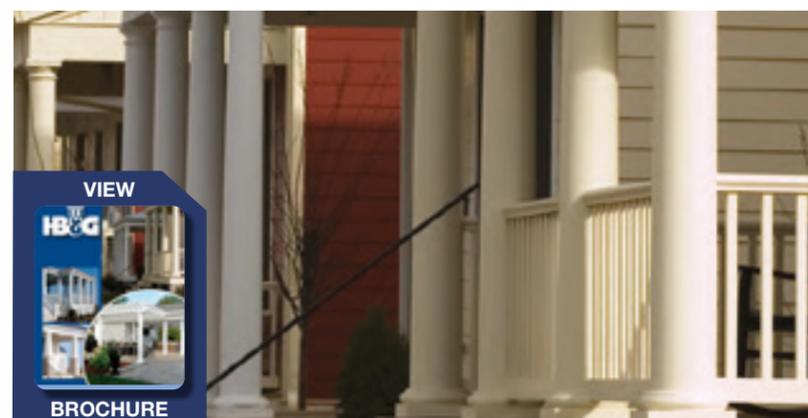

DUNBARTON REDIFRAME

Rediframe steel frames have been chosen to outfit hospitality, multi-family, condominiums, office buildings, and assisted-living facilities.

FEATURES & BENEFITS

- Rediframe® is designed to sleeve the wall, becoming an integral part of the wall system
- Rediframe® carries a Certification of Level A 1,000,000 cycles (ANSI 250.5-1994)
- Rediframe® is pre-finished, so installation occurs after the wall is finished

COLUMNS

FIBERGLASS COLUMNS

These fiberglass columns are rot-proof, weatherproof, insect proof, and highly durable.

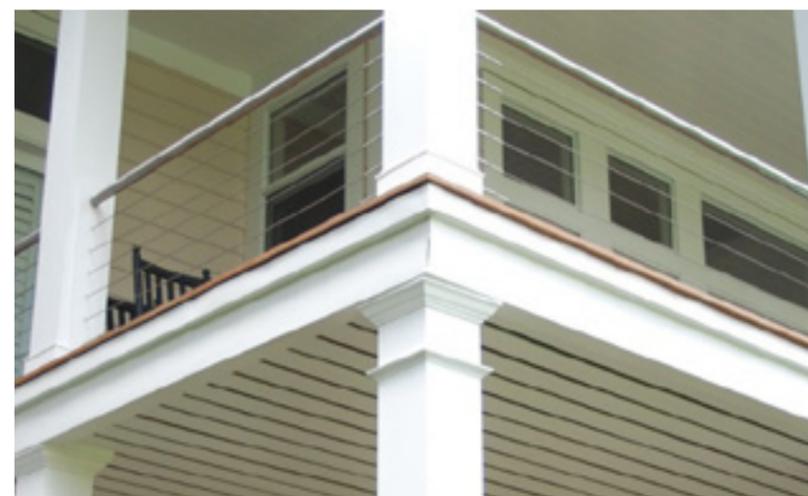

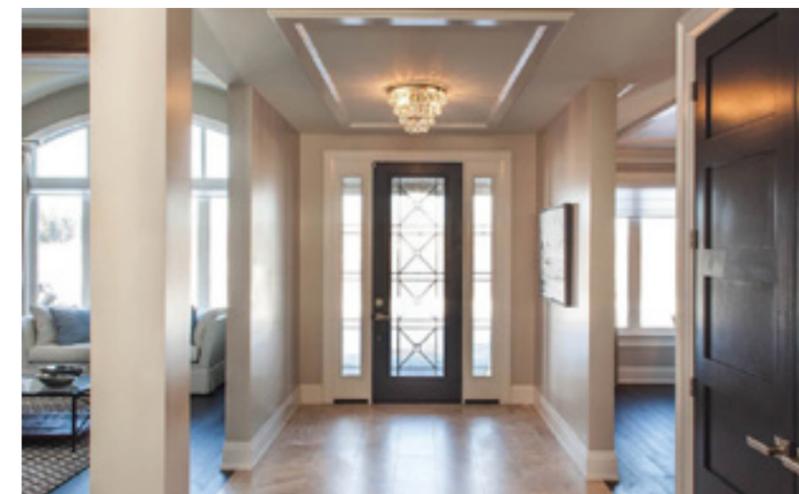

ALUMINUM COLUMNS

The aluminum column collection is coated with a baked-on enamel finish to provide low maintenance, easy cleaning, and a beautiful white uniform finish.

PREHUNG DOORS & SLABS

A prehung door unit comes with the slab on hinges connected to the frame with casing around it. Prehung doors allow for a simple installation process, saving time, cost and effort.

All of our doors can be ordered as slab (no frame or holes) or door frame only.

PVC COLUMN WRAPS

PVC column wraps are made from cellular PVC, which offers the advantages of being unaffected by moisture and insects along with the thickness, ease of use, and workability of wood.

PERMASNAP™

This quick and easy solution to wrap existing wood or metal porch columns comes with three different trim options.

CASING, TRIM AND MOULDING

We offer a variety of exterior trim styles including: The Frame Saver (a rot-proof door frame), aluminum clad, adjustable steel, and wood in various species.

Mouldings from stock to custom.

MOULDING MANUFACTURERS

- Ferche Millwork
- Resinart Moulding
- Alexandria Moulding
- Empire Moulding & Millwork

PORCH RAILINGS & BALUSTRADES

PORCH RAILINGS

Easy to install, this worry-free railing system will be a beautiful, low-maintenance addition to your porch or deck.

BALUSTRADE SYSTEMS

These low-maintenance features are made by moulding high-density urethane around structural elements in order to provide exceptional beauty, durability, and quality.

ALUMINUM CLADDING

Aluminum cladding creates a protective layer on the exterior of the door frames, making it maintenance-free. Aluminum cladding works on any manufacturing entry door system.

FEATURES & BENEFITS

- Heavy-duty extruded aluminum
- No chipping, no cracking, no peeling
- Mull covers
- Jamb extenders
- Flexible or rigid nail finish
- No exposed fasteners

FLUSH SERIES

A “flush” door describes a doorset where the door face sits in-line with the door frame.

FEATURES & BENEFITS

- Customizable door sizes and configurations
- Primed MDF or wood veneer available
- Available in solid core or hollow core
- Available fire ratings: 20 minute, 45-minute, 60-minute, 90-minute
- Warranty: 5 year (hollow core) / 7 years (solid core)

NARROW FRAME PATIO DOORS

Every Simonton patio door is designed to coordinate perfectly with our windows.

FEATURES & BENEFITS

- **Smooth operation:**
Corrosion-resistant rollers provide easy opening and closing for the life of the door
- **Superior Energy Efficiency:**
Built-in energy-efficient glass that can be customized for maximum performance.
- **Colors:**
Wide range of colors, interior woodgrains and hardware finishes.

INNOVO PATIO DOORS

From the sill up, INNOVO® ensures industry-leading performance, functionality and design.

FEATURES & BENEFITS

- **Smooth, rattle-free glide:**
The monorail system elevates the sliding panel across the rail, which means it is built to last
- **Keeps out water and air:**
The frame is fully welded, so the weather stays outside where it belongs
- **Easy glide screen:**
The screen actually hangs from the top of the door, creating a smooth glide across an unobstructed track

SWINGING PATIO DOORS

Patio doors designed to swing open can create dazzling drama and sensational style.

FEATURES & BENEFITS

- All hinged patio doors are available in select standard sizes to suit your home
- Add the finishing touch to your hinged glass patio door with a unique grille profile and pattern

STYLES

- **French Hinged:** Two operating door panels allows you to choose which way you want the patio door to swing inward or outward
- **Center Hinged:** Choose which panel is operable and if the door swings inward or outward

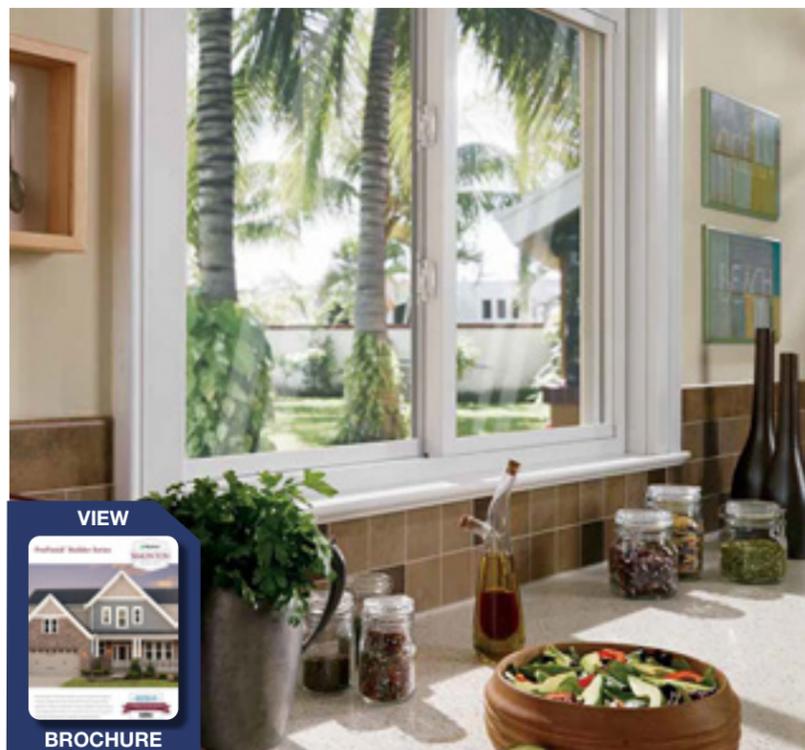

PRODUCT OPTIONS

Not all features and options are available in every style and areas of the country. Please consult your River City Millwork representative for more information.

- **ProSolar® Shade:**
Provides maximum solar heat control, fade protection, visibility and energy savings
- **Colors:**
Standard vinyl colors are molded throughout the vinyl for long-lasting beauty
- **Hardware Finishes – Standard:**
White, tan, driftwood
- **Hardware Finishes – Premium:**
Antique brass, brushed chrome, mineral bronze and polished brass

WINDOW STYLES

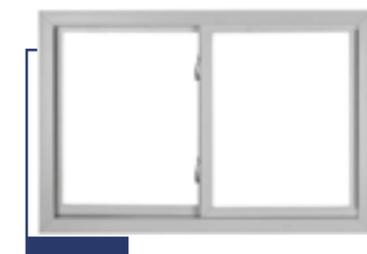

Double Hung Windows

Opened from the bottom or lowered from the top. It also tilts in so you can clean your window from the inside of your home.

Single Hung Windows

They can be raised from the bottom to allow airflow, while the top of the window remains stationary.

Slider Windows

Easy to use, slider windows glide open from either the left or right and provide a wide view of your outside landscape.

Casement Windows

A great window for hard-to-reach areas of your home, these windows open easily with a Crank operating system.

Awning Windows

Hinged at the top and designed to open outward, these windows open and shut easily with the turn of a crank handle.

Bay or Bow Windows

These windows project outward, creating more space inside and major curb appeal outside.

Picture Windows

One of the most energy efficient of all windows, picture windows provide a wide open view and come in a variety of sizes, so they can fit any space in your home.

Geometric Windows

Design a unique look to add character to your home. Use these windows to create a focal point in your house or add more light to an area.

Garden Windows

Enjoy flowers and plants year round with garden windows. These windows project outward and provide space for foliage, photos or décor.

CUSTOM DOORS

We offer a wide range of standard door sizes, as well as custom sizes for non-standard door opening dimensions.

Many of the doors and windows from our collection can be produced to order as a special size.

DOOR CONFIGURATOR

DOOR COMPONENT SOLUTIONS

Our selection of door components are made to work better, install faster, and last longer. Plus, they adjust to opening conditions for the maintenance-free performance your customers are looking for.
