THICK FACE FANCY
PLYWOOD

DRAGON PLY®
PREMIUM HARDWOOD PLYWOOD

DRAGON PLY QUALITY ASSURED

Building on the reputation of Quality and Consistent Performance, Dragon Ply is proud to present the newest offerings from around the globe.

Recently expanded supply chains utilize our directly sourced thick-face, machine composed fancy veneers. This allows us to provide our customers with the most reliable, high-performing products from around the world.

Our overseas office are staffed with personnel who are educated in wood processing and highly experienced in plywood production and quality control management. These experts conduct in-depth inspections at every step of the production process. Graded not just on aesthetic value, but quality throughout, our inspectors suspend or reject any products that do not meet our strict Dragon Ply standards.

Sourced globally, leveraging the strengths of suppliers and regional fiber

Delivering incredible value through predictable performance every time it's used

COMPLIANCE ASSURED

Our corporate compliance program reaches deep into the supply chain with requirements of the United States Lacey Act, CITIES, US Toxic Substances Control Act (TSCA), and FSC®. These measures include company background checks, supply chain and on-site audits of our foreign suppliers and both in-house and third party product testing and certification.

All panels are calibrated for industry leading thickness tolerance of +/- 0.3mm

DRAGON PLY UV PREFINISHED PANELS NOW FEATURE **ANTIMICROBIAL PROTECTION** IN ADDITION TO ITS MANY OTHER VALUE-ADDED ATTRIBUTES THAT MAKE IT THE BEST IN THE INDUSTRY.

- S

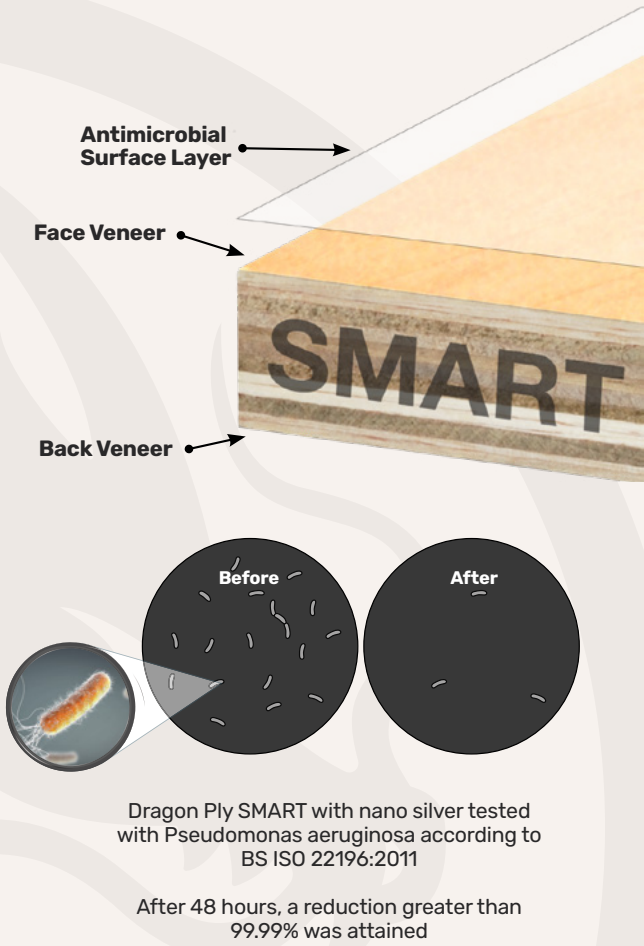

SUPERIOR surface quality. 100% of Dragon Ply SMART production utilizes a multi-step calibration lamination which results in the smoothest, most uniform surface quality.
- M

MATERIALS of top quality and consistency are used in the production of our plywood. Core construction and face grades are all inspected by our Quality Control staff, providing consistencies in performance and the highest aesthetic value available from the grade.
- A

ANTIMICROBIAL UV technology uses a nano silver ion antibacterial agent to provide users with a peace of mind. This laboratory tested UV process kills 99.9% of bacteria. Dragon Ply SMART panels are edge printed with "SMART" for easy product identification.
- R

RELIABLE performance you can count on. Our Quality Control staff rigorously inspect products from around the globe, ensuring Dragon Ply panels deliver the most reliable performance EVERY TIME.
- T

THICKNESS tolerance is +/- 0.3mm. This is 2x more stringent than ANSI/HPVA standards, resulting in more accurate layouts, production and installation performance.

HIGHEST
QUALITY THICK
FACE FANCY
PLYWOOD

- Thick fancy veneers are graded to HPVA or higher standards and are composed at factories using state-of-the-art European veneer composers; the same composers found in the best veneer producing factories in the world.
- Because our factories control production from log to panel, we can ensure the highest quality results while having the flexibility to meet customer specific requirements in fancy veneer composition and grade.
- Available in both, thick and thin face options.
- Nearly unlimited selection of face species and grades, including our Echo Wood engineered real wood faces. Specialized cut and composition to fit customers specific needs is also our specialty.

ENSURING OUR CUSTOMERS' COMPLETE SATISFACTION!

ENVIRONMENTAL ASSURANCE PROGRAMS

LACEY AND CITES

All Dragon Ply vendors are approved through a rigorous audit process to conform to Lacey Act requirements for legal fiber.

Dragon Ply uses fast growing, short harvest cycle and plantation species to ensure a reliable supply of top quality fiber.

Materials sourced from FSC® plantations is your assurance that these forests are managed to the highest environmental, social and economic standards that combined to protect water, soil and wildlife.

Dragon Ply quality control makes regular inspections of all process in the production cycle, including raw materials, press parameters, moisture content, bond, grade and thickness tolerance.

QUALITY CONTROL ASSURANCE PROGRAMS

Finished Dragon Ply panels undergo a rigorous series of tests for physical properties by multiple testers: by the mill, by certified third party labs and by Dragon Ply's own third party labs.

Random testing ensures that Dragon Ply meets the stringent formaldehyde emissions standards for both TSCA and CARB2.

Meets US Toxic Substances Control Act (TSCA) emission standards.

Physical properties such as internal bond are tested by the mill and by our Dragon Ply staff in our Dragon Ply Quality Control lab.

ASSURED LOGISTICS PROGRAM

Dragon Ply lifts are loaded in shipping containers or shipped by break bulk.

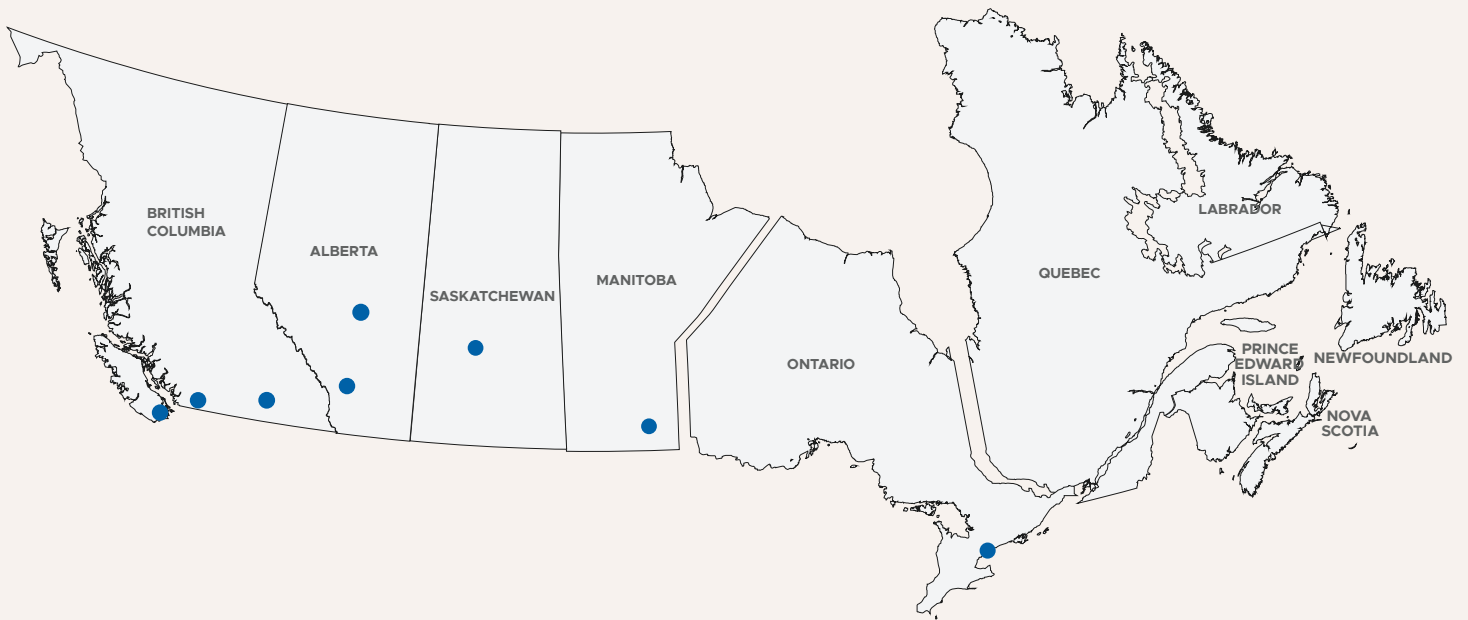

Direct working relationships with shipping lines ensures added reliability and real time tracking information on all shipments.

Dragon Ply enters North American markets through 8 major ports close to our over 60 distribution centers.

The Dragon Ply distribution network covers North America to ensure that continuous supply of Dragon Ply is located near most major markets.
