## ONETEN™

The OneTen built-in tensioning control system eliminates the need to tension each cable individually and decreases the need for seasonal adjustments.

## SOLARGUARD®

SolarGuard is a material composition that provides fade resistance\* so that your outdoor living products will look good for years to come.

\*Does not apply to white vinyl products.

6' Level Panel

## HOW IT WORKS

### 1 INSTALL YOUR POSTS

Posts are available as line, corner and end. Posts are pre-routed to accept cable infill panels.

### 2 INSTALL YOUR PANEL

Cable panels come with pre-strung, continuous stainless steel cables that span up to 6' wide for level application and 5' wide for stair and pre-attached brackets.

### 3 CENTRALIZED TENSIONING SYSTEM

Thread cable through OneTen tensioning system, and hand-pull cable taut.

### 4 TENSION CABLE PANEL

Using a socket, tighten both sides of the OneTen system to tension the cable panel. Attach the top rail to finish installation.
