STAIR

QUARTERLY
NO. 1 - 2023

Since 1999, House of Forgings has offered the industry's broadest and most recognized collection of stair related products. The introduction of European elegance and the modern design of our Aalto collection has led to design trends in staircases. Trends that today have become mainstays of design.

SPOTLIGHT

With a passion for photography and functional design, Justin Palazzo brings unique concepts to life through some of HF's most popular products.

He draws inspiration from his travels, creating a broad range of contemporary stair & railing components influenced by interior decor, fashion, and architecture. A native Texan, Palazzo creates designs that blend simple and sleek, putting functionality at the forefront of each innovation.

"I take photos of cool design elements everywhere I go. My phone is filled with hundreds of shots. I like to reference back and create from those inspirations."

A handwritten signature in white ink, appearing to be 'JP' or similar initials, written in a cursive style.

TRENDSETTING DESIGN

Product design ignites innovation at HF. When our designs capture the public's imagination and set new trends, it creates a powerful synergy. Our quarterly updates showcase the latest and most inspiring products, installations, and more, keeping you informed and ahead of the curve with design trends.

Newel mounting kit now available.
Fits HFSTB16.5.8-T hollow newel

FOUNDATION

Simple designs are the most striking

Clean, bold lines and premium finishes create a striking modern take on traditional design.

Think wood balusters – in clean steel.

hfstair.com

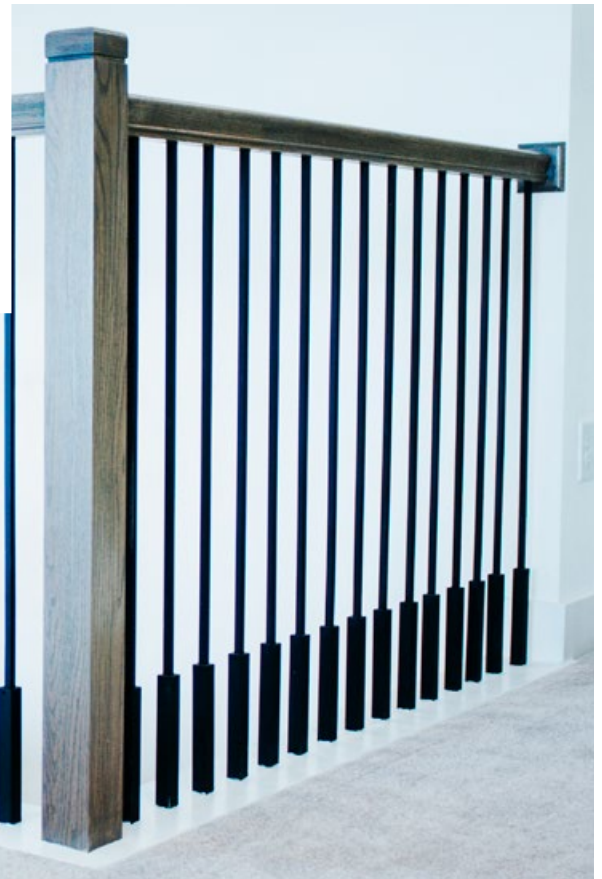

FOUNDATION

Affordable tubular design

with a bottom pin feature that allows for faster installation than traditional baluster and base collar options, saving time and labor costs.

Bottom pin for quick installation

HORIZONTAL

The future of balustrade

Round tubular steel infill bars available powder coated or stainless steel are a fantastic alternative to cable rail. These sleek 5/8" bars are available in a convenient 8' length, or a recently added 5' length ideal for installation and affordable shipping. Create pleasing horizontal infill designs which open the staircase sightline and make your living space feel spacious.

HEIGHTS

Old world meets modern industrial

An industry-first, modern take on traditional European side mount design with a modern industrial interpretation. Dynamic visual sightlines and added accents will make the staircase into a modern art piece.

HARMONY

Modern details with traditional accents

The Harmony Collection draws inspiration from our industry-pioneered Aalto Collection, but with traditional details which harken the European sophistication.

Base shoe/collar options for your style

SOHO

Striking accents of brass and steel describe these contemporary designs. Luxurious brass and stainless steel paired with black iron make a customizable and bold statement.

WENTWORTH

Old world sensibility

Inspired by classic English design, the Wentworth collection works in rustic modern and luxury cabin getaways. This ode to old-world metalworking is a one-of-a-kind accent for the home.

HF | STAIR & RAILING

In 1999 we saw a need in the market for innovative and decorative iron stair balustrades. From that moment, House of Forgings has pushed the envelope with style and material options and continues to design the most desirable stair products on the market. Our products are as unique as the homes they adorn with a myriad of styles that fit architectural and design needs worldwide. Whether it be signature wood, stainless steel, or iron products, House of Forgings continues to combine the needs of form and function of the stair.
